

## What is the LICC?

Membership of the Local Interagency Coordinating Council includes parents and representatives from local agencies serving infants, toddlers and preschoolers. The Council supports coordination of existing agency services, seeks to identify service gaps and provides educational opportunities for community awareness.

LICC strives to partner with families to link them to valuable information and resources for their children with special needs or developmental concerns.

LICC meets monthly. For meeting location and time please contact Smart Start (249-6688) or one of the member agencies.

For more information

About LICC contact:

Smart Start @ 249-6688 or one of the member agencies  
or visit our website: <http://delicc.org/>

Local Interagency  
Coordinating Council

Collaborating for Families  
of Children Birth to age Five  
Who have Special Needs

## Developmental Intervention

If you have special concerns about your child's development, assessment and intervention are available. Getting services early is crucial for children who may have developmental delays. Children must qualify in at least one developmental area.

## Developmental Areas

- Communication
- Cognition (Learning)
- Adaptive skills
- Social / Emotional / Behavioral
- Physical - Gross & Fine Motor

## How to Access Services

Many services and programs are available in Davidson County that can address your concerns. Take the first step by doing one of the following:

If your child is younger than 3 years contact: Children's Developmental Services Agency (CDSA) @ 713-7412 or

Davidson County Health Department  
Care Coordination for Children @ 242-2334

OR

For children over 3 years, contact the preschool program in the school district where you live:

- Davidson County - 242-5619
- Lexington City - 252-1527
- Thomasville City - 474-4159

## Joining LICC

Any individual or agency interested in community collaboration for children birth to age five is welcome to attend a meeting and/or join LICC.
