

High Performance System

High Capacity Above Ground Swimming Pool Filtration System

Columbia Pool Filter

Columbia's complete high performance package provides a complete filtration solution at a fair price. PMX pump now features On/Off switch making this a very desirable system.

Applications

- Above-ground/on-ground pools

Tank Features:

- Corrosion-proof body for all-weather performance and extended system life
- Accurate and visible pressure gauge
- Spherical Design
- Drain plug with strainer for easy maintenance
- 1.5" hoses included
- Industry standard rotary backwash valve
- Each tank is individually tested to ensure quality and reliability

Pump Features

- PMX- 2 HP pump
- On/Off switch standard on PMX pump
- Heavy-duty impeller for high output
- Pump mounted on platform standard
- Corrosion-proof housing for all-weather functionality
- Dual drain plugs for easy winterizing
- Each pump is individually tested to ensure leak-free functionality

High Performance Filter Package: PL 25 gallon tank, PMX 2 HP pump, HLX strainer, and DX Base (standard base not pictured)

Specifications

High Performance System

Master Pack Entry Level System

Columbia Pool Filter

Low cost 3/4 HP Above Ground Swimming Pool Pump System

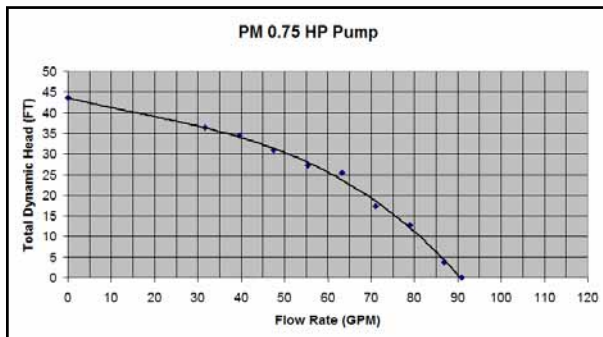

Master Pack Filter Package: PL 8.5 gallon tank, PM 3/4 HP pump, and H&L strainer basket

Specifications

Master Pack Entry Level System

Model	Tank Volume	Tank Diameter	Connection size	Sand req.	Carton Weight	Carton Dims (inches)
PL 85.5-4	8.5 gallons	14.5"	1.25"	50 lbs	13 lbs	21, 15, 15
	HP	Voltage	Connection size		Carton Weight	Carton Dims
PM075	3/4	115	1.25"		16 lbs	14, 9, 11
HL					2 lbs	5, 7, 10
Master Pack Packaging					31 lbs	23.5, 15, 16

Note: all stated figures are nominal

Columbia's complete entry level system serves as an ideal replacement for mass-market/inflatable above-ground pools originally sold with inadequate filtration units.

Applications

- Above-ground/on-ground pools

Tank Features:

- Corrosion-proof body for all-weather performance and extended system life
- Accurate and visible pressure gauge
- Hoses included
- 4-Way push-pull backwash valve for value
- Each tank is individually tested to ensure quality and reliability.

Pump Features

- PM 075- 3/4 HP pump
- Corrosion-proof housing for all-weather functionality
- Impeller designed with brass insert for long life and superior performance
- Pump mounted on platform standard
- Each pump is individually tested to ensure leak-free functionality

System Features

- Includes H&L strainer basket
- One box packaging
- 1.25" connections and hoses standard
- **Optional** 1.5" connection adapter for maximum adaptability
- **Optional** filter tank base available
- Our least expensive filter package

PM 100 pump (stand alone)

PM075 pump featured with PL 8.5-4 and HL strainer basket

Columbia's PM series of pumps are high output pumps specifically for use with above-ground swimming pools. Designed with savings and durability in mind, the PM pumps offer unmatched value.

Though ideally matched with a Columbia tank, the PM series is fully compatible with our competitors' systems and can function as a cost effective replacement pump.

Applications

- Above-ground/on-ground pools

Pump Features

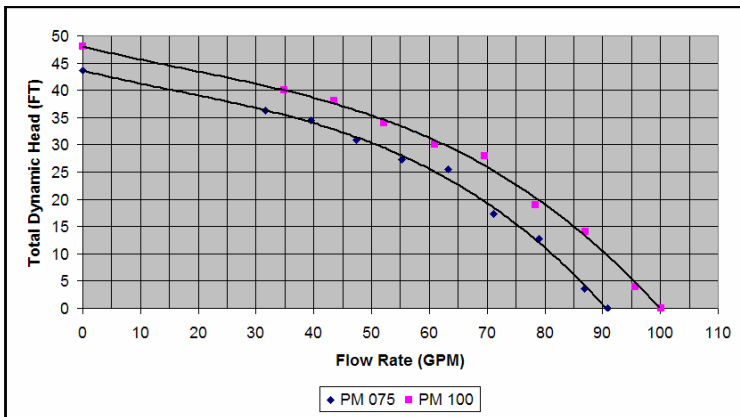

- Corrosion-proof housing for all-weather functionality
- Impeller designed with brass insert for long life and superior performance
- Pump mounted on platform standard
- Each pump is individually tested to ensure leak-free functionality
- HL strainer basket optional

Specifications

PM Series

Model	HP	Voltage	Connection Dimensions	Carton Dimensions (inches)	Carton Weight
PM075	3/4	110	1.25"	14, 9, 11	16 lbs
PM100	1	110	1.25"	14, 9, 11	17 lbs

PM Series Performance Curves

Note: all stated figures are nominal

PMX 2 HP pump featured with HLX strainer basket

PMX 2 HP pump features an On/Off switch

Columbia's PMX pump is a high output pump specifically for use with above-ground and on-ground swimming pools. Designed with performance and durability in mind, the PMX offers unmatched value. Ideally matched with a Columbia tank of the appropriate size, the PMX is also fully compatible with our competitors' systems and can function as an ideal replacement.

Applications

- Above-ground/on-ground pools

Pump Features

- On/Off switch standard on PMX pump
- Heavy-duty impeller for high output
- Pump mounted on platform standard
- Corrosion-proof housing for all-weather functionality
- Dual drain plugs for easy winterizing
- Each pump is individually tested to ensure leak-free functionality

The HLX strainer basket offers all the features one would require on a deluxe filtration system. As with the PMX, the HLX is fully compatible with our competitors' components.

Strainer Basket Features

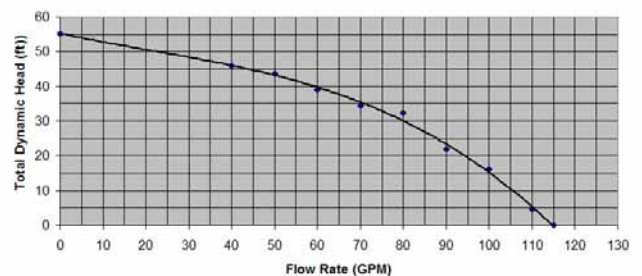

- High volume housing offers large leaf-holding capacity
- Clear lid eliminates emptying guesswork

Specifications

PMX Series

Model	Voltage	Connection Size	Carton Dims (in)	Carton Weight
PMX	115	1.5" NPT	15, 11, 9	21 lbs
HLX		1.5" NPT	12, 7, 7	3 lbs

PMX Pump Performance Curve

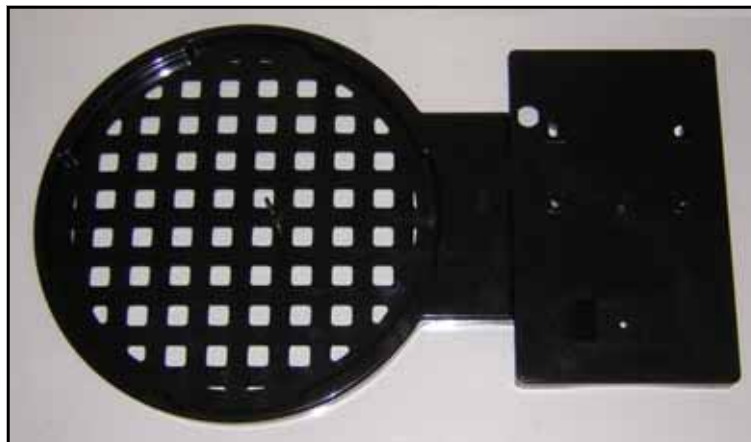

Note: all stated figures are nominal

Large Lint Trap - HLX: Compatible with our competitors' large pumps
Large Lid - HCVRX: Compatible with our competitors' large lint traps. Available separately.

Standard size H&L Lint Trap

Tank Base- shown interlocked into motor platform (motor platform included with all pumps).
