Careers By Interests

REALISTIC

I'm practical, active, have good physical skills, and I like to work outside and create things with my hands. I prefer to deal with things rather than ideas or people. Sometimes I have difficulty in expressing ideas in words or in communicating my feelings to others. My political and economic ideas are fairly conventional.

INVESTIGATIVE

I prefer to solve abstract problems and understand the physical world rather than acting upon the world. I enjoy complicated problems and intellectual challenges. I do not like structured situations, lots of rules, or working around many people. I have unconventional values and attitudes and would like to be original and creative, especially in scientific areas.

I prefer unstructured situations where I can deal with problems through self-expression in the artistic media. I prefer to work alone, have a great need for individualistic expression, and am sensitive and emotional. I would describe myself as independent, original, unconventional, expressive and energetic.

I have great facility with words, which I can put to effective use in selling and leading. I enjoy persuading others to my viewpoints and am impatient with work involving precision or long periods of intellectual concentration. I see myself as energetic, enthusiastic, adventurous, self-confident, and dominant.
