

Hardwood & Laminate Floor Care

With hardwood and laminate floors becoming more prevalent in homes, Mohawk realized the need for a cleaner that could provide superior results on a variety of surfaces. In response, they developed the Mohawk FloorCare Essentials Hardwood & Laminate Cleaner. This versatile product works on a variety of hard surfaces including hardwoods, laminates, and vinyl.

In developing the Hardwood & Laminate Cleaner, we started with the same goals as our other products - to provide effective cleaning while being completely safe. As a result, the solution successfully works as a spot cleaner and an overall cleaner on hard surfaces. In addition, it is free of the toxic chemicals found in competitive products, and therefore safe for your household.

Using the FloorCare Essentials Hardwood & Laminate Cleaner is simple - just spray the cleaner onto the surface to be cleaned and wipe or mop the area with a microfiber cloth. No rinsing is required for there is no residue left. You will enjoy the cleaning power and the associated fresh citrus aroma. The product is completely non-toxic and safe.

Always use felt protectors under chair legs and check them often for dirt and grit that may scratch the surface of your wood floor.

Protecting your Hard Surface investments:

- Countersink and fill all nail holes.
- Vacuum or sweep regularly.
- Remove spills promptly using a clean, dry microfiber cloth and clean residue from spill with Mohawk Floor Care Essentials Hardwood & Laminate Cleaner and a clean microfiber cloth.
- Use felt protectors under heavy pieces of furniture and chairs.
- Use protective mats at all exterior entrances
- Spiked heels or shoes in need of repair can severely damage your floor.
- Never wet or damp mop your wood floors. Water can cause damage to wood flooring
- Maintain 40%-60% relative humidity to reduce the natural expansion and contraction of wood.
- For engineered and longstrip hardwood floors properly installed over subfloor radiant heating systems, surface temperature should not exceed 85° F.
- Never use oil soaps, wax, liquid or other household products to clean your floor.
- The sun's UV rays can change the color of your floor.
- Keep animal nails trimmed.
- Protect your floor when using a dolly for moving furniture or appliances. Never slide or roll heavy furniture or appliances across the floor.
- If your floor becomes scratched or dull, repairs can often be made using repair accessories.
