

It's a Matter of Time Synchronized Clock Solutions for Healthcare

Technology

When Every Minute Counts

Rauland's complete line of synchronized timekeeping solutions makes it easier for your staff members to do what they do best—provide around the clock care to patients.

Synchronization Matters

When every clock throughout your facility is synchronized, workflow and efficiency within your facility improves, and improved workflow translates into better patient care.

Synchronization means:

- All departments and buildings are on the same exact time
- More timely medicine administration to patients
- Shift changes and start times are consistent
- Improved accuracy of time documentation
- Automatic timer activation for Code Blue emergencies
- Dual count up timers assist emergency response teams during code calls.

Compared to inexpensive, non-synchronized clocks that lose time and require frequent maintenance, our products deliver an unmatched return on your investment. Saving time and money for your entire facility.

Technology Matters

Rauland-Borg has been the #1 name in institutional communication systems and in the time keeping business since 1922. We earned our reputation as the industry leader by delivering innovative solutions and maintaining a commitment to quality in everything we do. When time matters, take advantage of the Rauland difference. Rauland keeps every staff member and physician throughout your facility on time and in sync.

Our timekeeping systems feature superior technology for Acute Hospitals and Long Term Care Facilities.

Wireless Solutions

Rauland's wireless clocks provide easily installed, low maintenance solutions for synchronized time. The 467 MHz frequency provides superior wireless coverage so every clock is in synch.

Transmitter/Receivers

- 5 Watt Transmitter with Telecenter time sync (model WCXATRAN)
- GPS Receiver (model WCXRVRGPS)
- NTP Receiver (model WCXRVRNTP)
- Optional external antenna mounting kit available (model WCXTANTKT)

Clocks

- 13" & 16" Analog Clocks (battery or 24 VAC)
- 2.5" Four-digit Digital (red and white LEDs)
- 2.5" Six-digit Digital (white LEDs only)
- 4" Four-digit Digital (red and white LEDs)
- Various double-face mounting options

WCXATRAN

13" Analog Clocks

Wired Solutions

Rauland's wired clocks provide a maintenance-free way to synchronize time throughout your facility.

Master Clocks

- Atomic Time Sync Module (model TCAMCS)
- Master Clock with Bell/Event Schedules (model 2524)

Clocks

- 12" & 16" Analog Clocks (24 or 120 VAC)
- 1.8" four-digit digital (Red LED, 24 or 120 VAC)
- 2.5" four-digit digital (Red LED, 24 or 120 VAC)
- Various double-face mounting options

Model 2524

12" Analog Clocks

2.5" Four-digit Digital

Trust the Name

Believe in the Quality

We're confident in the quality of our engineering and manufacturing; we give every Rauland-made product a five-year limited warranty. No one else in the industry can match that guarantee.

By having all the clock systems within your facility connect to the network that sets the stage and management of time, all nurse call data and reports will reflect realtime occurrences and events.

We offer a complete feature-rich Responder Nurse Call system, with integration to complimentary wireless phones, pagers, Real-Time Locations Systems and a myriad of accessories—to meet the communication needs of healthcare facilities. Our time-keeping solutions compliment these products to keep every staff member in sync at all times to maximize productivity.

Singular Service

Rauland-Borg's family of distributors share our same dedication in supporting the unique needs of healthcare facilities. Together we can provide turnkey solutions for your communication and time keeping needs.

Rauland distributors have round-the-clock access to technical support. If a critical part of your system is down, we're there to help your distributor get you up and running again as quickly as possible. Our 24-hour service turnaround promise ensures that parts are delivered to your facility when you need them.
