**It's About Time**  
Synchronized Clock Solutions for Schools

# Earn a Better Grade in Timekeeping

Rauland's complete line of synchronized timekeeping solutions allows your teachers and staff members to focus on what they do best—providing your students with a rich learning experience.

## Better Learning Environment

When every clock within your facility is in sync, teachers can maximize learning time, students and buses run on schedule, and hallway traffic flows smoothly. Synchronized clocks:

- Ensure your entire facility is on the same time—no more students roaming the halls while others are still in class.
- Guarantee students have the correct amount of time to take standardized tests, including countdown timers so students know how much time is left.
- Integrate seamlessly with your paging and intercom systems for a complete internal communication and timekeeping solution.

## Easy Investment

When compared to inexpensive, non-synchronized clocks that lose time and require frequent maintenance, our stand-alone master clocks and integrated time keeping solutions deliver an unmatched return on your investment.

Rauland-Borg has been at the head of the class when it comes to integrated communications technology and timekeeping systems. We have been in this industry since 1922 and earned our reputation as the industry leader by delivering innovative solutions and maintaining a commitment to quality products.

Rauland keeps every student, teacher and administrator in your school and across the district on time and in sync.

Our timekeeping systems feature superior technology for educational facilities, including campus environments.

# Wireless Solutions

Rauland's wireless clocks provide easily installed, low maintenance solutions for synchronized time. The 467 MHz frequency provides superior wireless coverage so every clock is in synch.

## Transmitter/Receivers

- 5 Watt Transmitter with Telecenter time synchronized (model WCXATRAN)
- GPS Receiver (model WCXRVGPS)
- NTP Receiver (model WCXRVNTP)
- External antenna mounting kit available (model WCXTANTKT)

## Clocks

- 13" & 16" Analog Clock (battery or 24 VAC)
- 2.5" Four-digit Digital (red and white LEDs)
- 2.5" Six-digit Digital (white LEDs only)
- 4" Four-digit Digital (red and white LEDs)
- Various double-face mounting options

WCXATRAN

WCXRVGPS and WCXRVNTP

13" Analog Clocks

4" Four-digit Digital

With our full line of clocks, there is a style and a size to fit every corner and classroom of your facility.

# Wired Solutions

Rauland's wired clocks provide a maintenance-free way to synchronize time throughout your facility.

## Master Clocks

- Atomic Time Sync Module (model TCAMCS)
- Master Clock with Bell Schedules (model 2524)

## Clocks

- 12" & 16" Analog Clocks (24 or 120 VAC)
- 1.8" four-digit digital (Red LED, 24 or 120 VAC)
- 2.5" four-digit digital (Red LED, 24 or 120 VAC)
- Various double-face mounting options

TCAMCS

Model 2524

12" Analog Clocks

2.5" Four-digit Digital

Integrating seamlessly to your paging and intercom system allows your facility to run smoothly and efficiently.

# Trust the Name

## Singular Service

Since 1922, Rauland-Borg has been dedicated to the communication needs of schools just like yours, which is why you will find Rauland communications and time keeping solutions in more schools than any other brand.

Our clock systems are backed with our five year manufacturer's warranty. It's our guarantee to you of system quality, performance and reliability.

Rauland-Borg's family of distributors share our same dedication in supporting the unique needs of schools. Together, we can provide turnkey solutions for your communication and time keeping needs.

Rauland-Borg distributors have round-the-clock access to technical support. If a critical part of your system is down, we're always here to help your distributor get you up and running again as quickly as possible.

## Single Source

Our Rauland Synchronized clock solutions, together with our Telecenter family of communication systems, provide an integrated solution to keep your campus and your district connected and running on time.
