

For every customer the appropriate ADDIATOR model

ADDIATOR Negativ (brass)

Our greatest achievement, outstandingly well suited for continuous use with auditors, tax-advisers and in the accounting departments of all enterprises and factories. It can also be recommended as a complement where a big machine is already at disposal. The low price makes it possible to give every employee who has to do figuring a noiselessly working ADDIATOR-machine, so that all can calculate at the same time and independently of one another.

Super

ADDIATOR- Standard (brass)

Very efficient in extensive use by tradesmen of all kinds, craftsmen lawyers, physicians, merchants, rural district offices, forestry commissions, savings banks and loan societies.

ADDIATOR Duplex (brass)

For small industrial shops, for the salesman, for travel.

ADDIATOR- Duplex (alum.)*

For occasional figuring works of house-wives, pupils and students.

ADDIATOR- Arithma (alum.)

For students and pupils.

ADDIATOR- Universal (brass)*

For technicians, engineers and businessmen as a complement to the slide-rule.

Hexadat Special Models

The ideal assistant for modern computers.

Are also available for the addition and subtraction in foreign currencies, for the conversion of seconds into minutes and minutes into degrees (resp. hours). And finally the FRACTOMATOR which calculates English-American measures of length (feet, inches and fractions). For permanent use we recommend our brass models.

Astro **ADDIATOR**

for all time calculations.

Please recommend out of our range of different accessories:

Leather case

for carrying the machine in the pocket.

Note-book case or folding stand

for travel and for those who wish to carry the machine along in the attaché case.

Heavy folding stand

for one-hand operation. Does not slip off and stands firmly on the desk. Can be easily taken along in the attaché case in folded-up state.

Handy ready-reckoners in book-form with thumb-register and instantly readable results are available for multiplication and division. Please ask for corresponding special leaflets.

The models marked with a * are only available for decimal operation.

Please note: Original ADDIATOR — beware of cheap imitations
