TWA NEWS

October 2010

Issue 10

Next Meeting:

Rough to Ready

Tuesday October 21st, 2010 7:00 PM

*The Woodworking Shop
3141 Capital Boulevard
Raleigh, NC*

Several members meet at 6:00pm Buffalo Brothers Pizza & Wings for dinner prior to the meeting.

Tuesday

October 19st, 2010

***Subject: Subject: Rough To Ready
Speaker: Bill Anderson***

Bill Anderson of Edwards Mountain Woodworks, instructor at Roy Underhill's Woodwright's School, and TWA member. Will take us through the steps with hand tools, of taking a rough board to a board ready for a woodworking project. He will start with a scrub plane, move on to jack, jointer and smoother planes. Bill will use both bevel up and bevel down planes. He will use a square, winding stick, straight edge, marking gauge and panel gauge to dimension the wood. He will use a shooting board to square up the ends. He will talk about bevel up smoothers with high angle frog and different blade bevels.

A lot of chips will be generated with just a little sweat!

Host:

Jim Kroeger

NOVEMBER PROGRAM

Friday November 12, 2010

Subject: Build a Side Table from a Single Rough-Sawn Board

Speaker: Kelly Mehler

Workshop: Sat. & Sun. Nov. 13th & 14th

Kelly Mehler's professional woodworking career spans 30 years. Kelly opened his first commercial furniture making shop in 1978 in Berea, Kentucky, a town known for an abundance of local artisans. Kelly's woodworking business has been devoted to finely crafted custom pieces that emphasize the beauty of the natural color and grain of hardwoods. Kelly's trademark solid wood pieces use strikingly figured and matched wood that has been air-dried and sawn from a single tree.

Kelly now operates Kelly Mehler's School of Woodworking in Berea, KY.

On Friday evening, Kelly will give a Powerpoint presentation and talk touching on his career as a craftsman, his shop, tools and some interesting pieces of furniture that he has made.

ABOUT THE TRIANGLE WOODWORKERS ASSOCIATION

The Triangle Woodworkers Association (TWA) is a nonprofit educational corporation. The TWA is dedicated to teaching woodworking techniques through seminars, classes, and workshops; participants are required to sign waivers absolving liability for TWA or its designated representatives. The TWA promotes woodworking education and community interest in woodworking and in general sharing a love for wood.

THE PRESIDENTS CORNER

This is my first attempt at writing "The President's Corner" and I hope you will bear with me as I get my feet on the ground. It is an honor to be chosen to follow in the footsteps of Fred Ford and Mike Reddyhoff as president, but it is also no small task. They both did super jobs. I hope I can do as well.

At last month's meeting Brian Coe, Director of Exhibition Buildings at Old Salem, gave a fine presentation on workbenches and how they have developed over the centuries. For those of us who enjoy history, he presented pictures showing the development of benches used at Old Salem, and for those of us who wonder how the benches were used, he brought and demonstrated an array of bench accessories. I always wondered why the first time you used a miter jack, the plane didn't ruin it. It's as simple as gluing a paper protector to it. And now I know what a donkey's ear is and what it is for. Fascinating.

Fred Ford reported that the Toys for Tots program is well under way and enough people have signed up for the workshops, but I suggest that if you have not already signed up or are a new member looking to get involved, he can probably find a place for you to help in one of the sessions, and it's fun.

Jim Rhodes brought a really impressive model of a locomotive to the meeting for show and tell. It is very interesting to see an example of the fine work our members are doing. Please consider bringing in some of your work. You have probably done something which others will enjoy seeing and hearing about, particularly if you had a problem and solved it.

Paul Rolfe reported that the North Carolina Woodworking Showcase was a success and went without a hitch, in large part through the efforts of many of our club members. The quality of exhibits was great and the day was busy with demonstrations. The only improvement he would like to see is an increase in the number of exhibitors. Let's think about that, and if you have any ideas to get more exhibitors, pass them on to me or Paul.

In October Bill Anderson will show us how to true and square a rough board using only hand tools. I am looking forward to seeing just how it was done in the 18th century (and it's always fun to watch someone else do the hard work), so mark your calendars for the next meeting on Tuesday October 19th.

See you there.

Allan Campbell: President

MEETING MINUTES

SEPTEMBER 2010

Attending: 45

Business: The meeting was opened by our new President, Alan Campbell.

show and tell

1. *Jim Rhodes* showed a model train engine and two cars, sitting on a wooden trestle, made of walnut and maple.

2. *Alan Leland* brought a prototype of a leg for a table for critique from the member ship.

Announcements:

1. *Paul Rolfé* discussed the Showcase results. The number of event entries was the same as last year, but the number of pieces was lower. The quality of the work was very high. Advertising could be improved, since many people came into the store who had not heard of the Showcase. The auction for WONC later that evening was a success as well.

2. *Paul Rolfé* announced that the Extravaganza in Hickory will be held on October 29th and 30th. this will be the 15th anniversary of this event. Alan Leland an Michael Brown (chairmaker) will be among the demonstrators.

3. *Alan Campbell* discussed the methods that the TWA will be exploring to improve membership. These include a shop crawl, club picnic, building a relationship with the NCSU Craft Center by offering Student membership at half price. Ed Mastin in collecting pictures for a club directory, please contact him to have a headshot taken, or email him with an appropriate photo. The Library has a complete set of Wood magazine, for members to check out individual issues.

4. *Fred Ford* Fred Ford updated the membership on the status of the Toys for Tots Program. All workshops are filled with participants. There will be a TFT Banquet his year on Tuesday December 14th which will be sponsored by the Board. There will be no charge if there is a minimum level of enrollment (60 people) for workshop participants and for anyone bringing a toy. The caterers will be McCall's in Clayton.

5. *Alan Campbell* announced that Dick Courtney is moving and selling shop machines. Call 919-481-1257 for more information.

Build a Side Table from a Single Rough-Sawn Board....

Kelly Mahler....

The Saturday and Sunday workshop will consist of the following:

- ✍ Start with a rough board and lay out the pieces, taking into consideration matching and economy of cuts
- ☞ Rough mill all the pieces for the table, setup and tune the jointer, thickness planer, bandsaw, and tablesaw. Techniques on using these tools correctly and a kickback demonstration at the tablesaw
- ☞ Re-saw, book match, and glue up the top
- ☞ Mill the legs and mortises with a plunge router
- ☞ Taper the legs at the jointer
- ☞ show ways to make the tenons on the apron; router table, dado blades, and bandsaw
- ☞ Tricks and techniques for fitting the fitting the tenons
- ☞ Pegging the mortise with square pegs
- ☞ Assembly of the table and final cutting of the table top to size with talk about overhangs, edge treatments, and attachments
- ☞ Comments on dovetailing, hand planes and more

Tuition is \$70.00 for the 2-day workshop that will be held at Allan Campbell's shop in Garner.

Host:

Jim McNeill

6. *Bill Anderson* will present the program for next month (October 19th). The subject will be Rough to Ready—planing rough board to final dimensions with handplanes.

7. *Jim MacNeil* will be hosting the Kelley Mehler workshop in November. The monthly meeting will be on Nov. 12th (Friday), with a two day workshop on making a side table from a single board on Nov. 13th & 14th. Cost is \$70 for the two day event.

Program:

Bill Anderson introduced *Brian Coe* who conducted a program workbenches and workbench fixtures from Old Salem. The first half of the program was a slide show on tracing the development of Germanic style workshop benches and how these were reflected in the collection at Old Salem. The second half of the program was on vises, shooting boards and etc that could be made by the hobbyist to facilitate their work.

Respectfully submitted,
Bill Anderson, Secretary

Fan Back Windsor Chair.

Oct 24-31

Construct a fan back Windsor chair entirely with hand tools while honing tool skills and learning joinery techniques. Split a log, shape the crest and spindles with drawknives and spokeshaves, hollow the seat using inshaves and travishers, and assemble the chair using hand drills. This workshop is conducted at John C. Campbell Folk School, Brasstown, NC. (<http://www.folkschool.org>)

Roy Underhill's Woodwright School

Check out the schedule for this new addition to woodworking in the Triangle (<http://www.woodwrightschool.com>). Many great things will be happening here. On Wednesday nights there will be a "seminar" series which will be both hands on and demonstration, on focused woodworking topics. This will be a great opportunity to come and see the school, possibly meet Roy, and get some great handtool woodworking exposure. I will be assisting in many of these sessions, to my great delight, so come on over!

Shakori Hills Grassroots Festival

I will be set up with my Ruobo workbench and demonstrating handtool woodworking at the Shakori Hills Grassroots Festival in the Fall (October 7-10). I am generally located near the food court. Come by my booth to visit and spend some time! I am happy to share stores and to answer questions.

**Offerings.....**

Edwards Mountain Woodworks offers you the opportunity to learn specific handtool woodworking skills and techniques in a very focused but relaxed setting.

Whether you want to learn how to use handplanes, how to cut precise joinery by hand, or you just want to learn the ins and outs of handtools, there is something here for you.

Classes are limited to a maximum of 3 people and generally are intensive exercises on a topic, lasting one or two days from 9 am to 5 pm. Each student has their own workbench. A tool list and a class manual accompany each class. Generally, all tools and materials are supplied, though there may be an additional materials fee for some classes. Lunch is provided each day. Workshop prices are \$90 per day with a \$15 basic materials fee. Project oriented workshop have a materials fee that reflects the cost of the lumber and hardware.

Essential Sawyer's Tools

Oct 8-12

We will make a 4 foot tall wooden sawyer's vise for sharpening handsaws and also a traditional English saw bench (based on Christopher Schwarz's design). One day will be devoted to handsaw sharpening and to developing handsaw and skills.

New Shows on PBS

Our own **Bill Anderson** has an episode on the Woodwright's Shop on PBS is called **Marvelous Moldings** (hand cutting molding for a corner cabinet) and is episode #3002 which airs on Oct. 16th at 4:00pm. This presupposes that there are no delays in programming due to the election or any other events, etc.

A new woodworking show will air on PBS channel 4 on October 9th, at 3PM. The name of the program will be **Rough Cut woodworking** with **Tommy Mac**. Mark it on your caledars and check it out.

October 19 th (tuesday)	Chip carving	Leon Harkins	None	Jim Kroeger
November 12 th (friday-sunday)	Building a table from one board	Kelly Mehler	Sat/Sun	Jim McNeill
December 14 th (tuesday)	Show & Tell / Toys for Tots / Social	Various club- members	None	Fred Ford

TWA 2010 Programs Now Available On-Line

The new program schedule is complete and has been added to the TWA Google calendar website. You can access this calendar on the twa home page at URL: <http://www.ibiblio.org/twa/>. This will open the calendar and you will have access to all the program, workshop, etc. information for the full calendar year. The Agenda tab at the top right of the calendar will give a more detailed and multiple month view. It is our intent to keep the calendar current, so it will provide a ready resource for all upcoming activities. To make this happen I will need your timely inputs for any and all calendar worthy items.

Program Committee Chairman: Terry Tenhouse ttenhouse@gmail.com

Mentors

The purpose of this program is to have a reference guide of whom to call when you need to "pick someone's brain", because *Rule #1 in woodworking: nobody has a monopoly on brains!* This list of people includes: contact information, projects the Mentors are comfortable offering advice about, and skills they would be able to help with.

Mentors Wanted/Needed

The purpose of TWA is to provide a forum for woodworkers to gather, exchange information & further the art of woodworking. To this end, those more skilled woodworkers are encouraged to become a Mentor to provide knowledge to other members regarding areas of the Mentors skill, experience & knowledge. If you are interested in being a mentor, and willing to help a fellow woodworker discover answers to their questions, please contact Larry Bradbury, 919-518-6891 or lbradbury12@yahoo.com

25 YEARS

TWA TOYS FOR TOTS

TWA News

6

www.trianglewoodworkers.com

One of my favorite jobs as a part of the Toys for Tots Committee is calling folks to sign-up for workshops. Last month I reported that I needed almost 50 more elves for our Creedmoor and Klingspor workshops. I called most that have helped in the past and the support was heart warming. All workshops are currently fully manned.

Mike Reddyhoff is also very much a part of the sign-up process and has had excellent results. Between Mike and I there are still a few willing helpers that could not be matched to our workshop schedule and quite a few more we did not call. For all of you, please consider making a few toys in your own shops and *please* follow the guide lines below.

In recognition of our 25th year of Toys for Tots support we are going to have a Banquet for our December 14th General Meeting. The location is the banquet hall of the Salem Baptist Church in Apex. We held a banquet in the facility a few years back. Bruce Wrenn has secured the hall - free of charge. The church is making this donation because they would like to support our effort. The board has approved funds to support all other expenses for all participating in the Toys for Tots program. Therefore if you have attended any workshop or made a toy to contribute you may attend free of charge. If for some reason you just can not make a toy - purchased toys will always be accepted.

One bit of bad news. Diane Philyaw is forbidden (by her family & her doctors) from participating this year because of some rather serious health issues. She has given us the shop for 4 weekends to keep the dream going. Prayers are welcome for her speedy recovery. All who are attending the Creedmoor dates will need to give an extra push to help close some of the gap left by her absence. We all love you Diane so get well soon and we hope to see you at our banquet that was your original idea.

Keep the sawdust moving and let us make this a great year. It is our 25th year but more than that, it is a year in which many more are without jobs and means to support their families. We hope and need to give as much as we can.

Respectfully Submitted: Fred Ford Toys for Tots Chariman

THIS IS A MUST READ FOR ALL MAKING TOYS IN THEIR ON WORKSHOP TRIANGLE WOODWORKERS ASSOCIATION Consumer Product Safety and Improvement Act Guidance July 2010

This document provides requirements for club members who participate in the various toy making projects to make toys to be donated to the Toys for Tots Program. It provides information on how to comply with the Consumer Product Safety and Improvement Act and the related laws as best we can understand for now. The regulations pertaining to the law are still being drafted and will not be fully implemented until February 10th, 2011.

For 2010 toys donated must meet the following requirements. No finish or coloring of any kind can be applied to the toys. This includes paint, wax, stains, decals, tape, vegetable oil, etc. No means No. No small unattached parts or toys. All toys and unattached parts must not be able to fit through a toilet paper tube.

We may use natural products such as wood or leather. Plywood may be used, must be contained with no sides showing or accessible by a child. It is likely that we will be required to mark the toys for identification of TWA as the manufacturer. More detail to follow.

This law applies to all toys donated or sold. Any toy not in compliance will not be accepted for donation.

It is expected that many small companies will go out of business and donated toys will be far fewer next year. We can only hope that when the regulations are published they do not have the serious unintended consequences currently anticipated. Toymakers Alliance is trying to make some sense of all this. If you would like to help in the effort you can contact them at <http://www.handmadetoyalliance.org/>

Sneak preview

The Raleigh Woodcraft store at 4317 Pleasant Valley Road is having another Bag Sale on Saturday October 9th. Herb Shelley, store manager, donates a gift certificate each month for our raffle.

Herb has offered a sneak preview of the Bag Sale for TWA members on Friday, October 8, 2010. On Friday, just tell the person at the counter that you are a TWA member to get your 15% discount bag.

The usual Bag Sale rules apply:

- 50% of item must fit in bag
- Limit of 2 bags per customer
- Item(s) must be in original box(es)
- Excluded are: power tools, all Festool products, Leigh jig, SawStop, Steel City, and gift cards
- Not good in combination with any other discounts or offers
- Sale items & previous purchases excluded

The store will be open from 9AM to 7PM on that Friday.
