Next Meeting:

Build a Side Table from a Single Rough-Sawn Board

Friday November 12th, 2010 7:00 PM

*The Woodworking Shop
3141 Capital Boulevard
Raleigh, NC*

Several members meet at 6:00pm Buffalo Brothers
Pizza & Wings for dinner prior to the meeting.

Friday

November 12th, 2010

Subject: Subject: Build a Side Table from a Single Rough-Sawn Board

Speaker: Kelly Mehler

Workshop: Sat. & Sun. Nov. 13th & 14th

Kelly Mehler's professional woodworking career spans 30 years. Kelly opened his first commercial furniture making shop in 1978 in Berea, Kentucky, a town known for an abundance of local artisans. Kelly's woodworking business has been devoted to finely crafted custom pieces that emphasize the beauty of the natural color and grain of hardwoods. Kelly's trademark solid wood pieces use strikingly figured and matched wood that has been air-dried and sawn from a single tree.

Kelly now operates Kelly Mehler's School of Woodworking in Berea, KY. On Friday evening, Kelly will give a Powerpoint presentation and a talk touching on his career as a craftsman, his shop, tools and some interesting pieces of furniture that he has made.

The weekend workshop will consist of the following:

- ☞ Start with a rough board and lay out the pieces, taking into consideration matching and economy of cuts
- ☞ Rough mill all the pieces for the table, setup and tune the

jointer, thickness planer, bandsaw, and tablesaw. Techniques on using these tools correctly and a kickback demonstration at the tablesaw

- ☞ Re-saw, book match, and glue up the top
- ☞ Mill the legs and mortises with a plunge router
- ☞ Taper the legs at the jointer
- ☞ show ways to make the tenons on the apron; router table, dado blades, and bandsaw
- ☞ Tricks and techniques for fitting the fitting the tenons
- ☞ Pegging the mortise with square pegs
- ☞ Assembly of the table and final cutting of the table top to size with talk about overhangs, edge treatments, and attachments
- ☞ Comments on dovetailing, hand planes and more

Tuition is \$70.00 for the 2-day workshop and location will be Allan Campbell's shop in Garner.

Host: Jim McNeill

Library...

TWA has a library?

Have you ever noticed that our monthly meetings are recorded? Ever wonder what happens to the recording after the meeting? Well, let me explain, all are burned to a dvd and are maintained by the library. They are available for you to checkout. You can revisit a topic you enjoyed and see a topic you might have missed. DVD's start in June of 2003 with Jim Kirkpatrick demonstrating Furniture Design, and follow through to the present, a total of 68 DVDs currently. There is a list available in the library, on pages 9 & 10 of this newsletter and will also be posted to our web site. The DVDs are located in the white box that stays on the library desk during meetings. As with all items checked out of the library, they are to be returned the following month so others may enjoy them as well. Any item not returned when due will cause you a late fee of \$2.00 per item, per month(s) late. There is a wealth of information in the library, it can enhance your knowledge greatly.

ABOUT THE TRIANGLE WOODWORKERS ASSOCIATION

TWA News

2

www.trianglewoodworkers.com

The Triangle Woodworkers Association (TWA) is a nonprofit educational corporation. The TWA is dedicated to teaching woodworking techniques through seminars, classes, and workshops; participants are required to sign waivers absolving liability for TWA or its designated representatives. The TWA promotes woodworking education and community interest in woodworking and in general sharing a love for wood.

THE PRESIDENTS CORNER

October's meeting was a good one. Bill Anderson told us about his recent appearance on The Woodwright's Shop where he was the expert consultant on making moldings with hand planes. If you didn't see it, look for a re-run; it's really interesting. Who knows, we may have witnessed the emergence of a TV star.

Bill also provided the monthly program, Rough to Ready, about how to prepare a four square board from rough sawn stock. He really knows his hand planes and how to use them. I am also glad to see that the experts do perspire when doing that job.

Alan Leland brought two of his turned ornaments for show and tell. He will be teaching folks how to make them at several locations starting on Oct. 30th & 31st, at NC State, again at Woodcraft on Nov. 13th, and lastly at Klingspor's on Nov. 27th. I participated in one of his classes a year or so ago and had a really good time. The ornaments are not hard to make, and are truly impressive. Consider it.

In a few days, you should be getting an invitation to the Toys for Tots Banquet, which will be our December meeting. Please respond promptly so that we have an accurate count for the caterer.

As I mentioned in last month's column, I am following in the footsteps of two really good Presidents. I have been tossing around ideas of something that I can do which will contribute to an already exceptional club. In doing so one thing has occurred to me. As a new board member, I began to realize how much work goes into making this club what it is, but when I became President it really hit me. I'm not talking about the work I do. There are a number of people who put in time, talent, and effort every month. Some folks you see, like me speaking at every meeting, but there are more who work away doing things which don't get recognition, and maybe you haven't really thought about, things just seem to happen.

I am going to recognize one of these special people each month. I don't dare try to do it all at once, partly because

www.trianglewoodworkers.com

there are too many and I truly do not want to miss anyone. Each deserves to be recognized for their part in making TWA great. Sometimes, you will know the person and what he or she does and sometimes, I think, you will not have realized the person's efforts; but that's the point.

If you have any other ideas about improving the club, please tell me about them. I can't promise to do them, but I will listen and think about them.

November is a program I am particularly looking forward to. Kelly Mehler will be doing a Friday evening presentation followed by a weekend workshop. Spaces were filling up fast when I last talked to Jim McNeil (host for Kelly's visit). If you will like to join the workshop please contact Jim to sign up.

See you there!

President: Allan Campbell

DECEMBER PROGRAM

Tuesday December 14th

6:00 PM @ SALEM BAPTIST CHURCH APEX
Show and Tell Toys for Tots Dinner Featuring Roy Underhill

Toys for Tots 25th year with TWA will be celebrated December 14th with a catered dinner. All members are invited and encouraged to bring a guest. The club is financing the event for all that have participated in making toys for our annual donation and their guest. If you have been unable to participate but would still like to attend -- purchase a toy and bring it along as your entrance fee -- unwrapped please.

The meeting will be held in the Fellowship Hall of the Salem Baptist Church. This hall has everything needed including room to display all the toys. Salem Baptist Church is located in Apex on North Salem Street, just northeast of the intersection of Highway 64, & Davis Drive. Detailed directions will be supplied.

THE AGENDA:

- 5:00 PM - 6:00 PM SETUP tables for toy display and seating for attendees.
All members with more than just a few toys come early to to help.
- 6:00 PM - 6:15 PM BUSINESS MEETING Allen Campbell followed by the invocation which Tom Revelle is providing
- 6:15 PM - 6:45 PM DINNER Buffet - Catered by McCall's Bar-B-Que & Seafood
- 6:45 PM - 7:30 PM ROY UNDERHILL introduced by Bill Anderson
- 7:30 PM - 7:40 PM MARINE CORP talks about the need for toys this year
- 7:40 PM - 8:30 PM TAT & SHOW & TELL Fred Ford will host the presentation of our toys
- 8:30 PM - 9:00 PM ALL HANDS ON DECK Pack toys into the Marine van.
Put away tables and chairs.

Host: *Fred Ford*

MEETING MINUTES

OCTOBER 2010

Attending: 54

Visitors: *Andy Powers*

Business: The meeting was opened by our President, Alan Campbell.

show and tell

1. *Alan Leland* showed ornaments with icicles. Also, the Hardwoods Store of NC will be having a mailing list soon to stimulate business.

2. *Bill Anderson* described his recent appearance on "The Woodwrights's Shop".

Announcements:

1. *Fred Ford* provided an update of Toys for Tots. 800 cars have been made so far. There will be a pull toy (snail) making workshop coming up. Cecil Raynor discussed the biplane airplane, which is more complicated than expected. This is a multiday project. Cecil also described a planer accident where a thin piece of wood disintegrated in the planer and threw out splinters, one of which caused him to have 7 stitches. Terry Tenhouse is working on stepstools, and 2 workshops will be needed. Fred indicated that Roy Underhill will be the program presenter at the dinner. Bring a toy for an entrance fee. The dinner will be at the Salem Baptist Church outside Apex near the Stock Brothers lumber yard

2. *Hugh Fish* our treasurer reported that the current balance is \$11,000.

3. *Alan Campbell* donated a CD of Popular Woodworking (2004-2008) to the library to try out whether the membership is receptive to buying CDs of magazines.

4. *Jim MacNeil* will be hosting the Kelley Mehler workshop in November. The monthly meeting will be on Nov 12 (Friday), with a two day workshop on making a side table from a single board on Nov 13 and 14. Cost is \$70 for the two day event. There are 7 spaces left.

Program:

Jim Kroeger introduced *Bill Anderson* who conducted a program on Rough to Ready: dimensioning rough lumber with bench planes to prepared finished stock..

Respectfully submitted,
Bill Anderson, Secretary

Fan Back Windsor Chair.

Oct 24-31

Construct a fan back Windsor chair entirely with hand tools while honing tool skills and learning joinery techniques. Split a log, shape the crest and spindles with drawknives and spokeshaves, hollow the seat using inshaves and travishers, and assemble the chair using hand drills. This workshop is conducted at John C. Campbell Folk School, Brasstown, NC. (<http://www.folkschool.org>)

Roy Underhill's Woodwright School

Check out the schedule for this new addition to woodworking in the Triangle (<http://www.woodwrightschool.com>). Many great things will be happening here. On Wednesday nights there will be a "seminar" series which will be both hands on and demonstration, on focused woodworking topics. This will be a great opportunity to come and see the school, possibly meet Roy, and get some great handtool woodworking exposure. I will be assisting in many of these sessions, to my great delight, so come on over!

Shakori Hills Grassroots Festival

I will be set up with my Ruobo workbench and demonstrating handtool woodworking at the Shakori Hills Grassroots Festival in the Fall (October 7-10). I am generally located near the food court. Come by my booth to visit and spend some time! I am happy to share stores and to answer questions.

**Offerings.....**

Edwards Mountain Woodworks offers you the opportunity to learn specific handtool woodworking skills and techniques in a very focused but relaxed setting.

Whether you want to learn how to use handplanes, how to cut precise joinery by hand, or you just want to learn the ins and outs of handtools, there is something here for you.

Classes are limited to a maximum of 3 people and generally are intensive exercises on a topic, lasting one or two days from 9 am to 5 pm. Each student has their own workbench. A tool list and a class manual accompany each class. Generally, all tools and materials are supplied, though there may be an additional materials fee for some classes. Lunch is provided each day. Workshop prices are \$90 per day with a \$15 basic materials fee. Project oriented workshop have a materials fee that reflects the cost of the lumber and hardware.

TWA 2010 Programs Now Available On-Line

The new program schedule is complete and has been added to the TWA Google calendar website. You can access this calendar on the twa home page at URL: <http://www.ibiblio.org/twa/>. This will open the calendar and you will have access to all the program, workshop, etc. information for the full calendar year. The Agenda tab at the top right of the calendar will give a more detailed and multiple month view. It is our intent to keep the calendar current, so it will provide a ready resource for all upcoming activities. To make this happen I will need your timely inputs for any and all calendar worthy items.

Program Committee Chairman: Terry Tenhouse ttenhouse@gmail.com

Mentors

The purpose of this program is to have a reference guide of whom to call when you need to "pick someone's brain", because *Rule #1 in woodworking: nobody has a monopoly on brains!* This list of people includes: contact information, projects the Mentors are comfortable offering advice about, and skills they would be able to help with.

Mentors Wanted/Needed

The purpose of TWA is to provide a forum for woodworkers to gather, exchange information & further the art of woodworking. To this end, those more skilled woodworkers are encouraged to become a Mentor to provide knowledge to other members regarding areas of the Mentors skill, experience & knowledge. If you are interested in being a mentor, and willing to help a fellow woodworker discover answers to their questions, please contact Larry Bradbury, 919-518-6891 or lbradbury12@yahoo.com

25 YEARS

TWA TOYS FOR TOTS

TWA News

6

www.trianglewoodworkers.com

Things are really in high gear. At the last meeting all workshop hosts reported their progress, and the reports were very impressive and encouraging. It will take a large room to display all the toys being turned out this year.

We will be using the Fellowship Hall of the Salem Baptist Church. This will allow us to show every toy made - unlike last year when we were only able to show a few and a lot of packed boxes. With such a great showing of toys, a catered meal and Roy Underhill for entertainment - how can the evening be anything but spectacular. If you have not already contacted Kay Baker to get your **FREE** ticket now would be a good time, we would like to have an accurate count to provide to the caterer.

There are about forty members that have staffed all of the TWA hosted workshops and they have provided thousands of toys. There are an additional 5-10 members who take it upon themselves to design and build toys in their own shops and usually alone.

These individual efforts now and in the past have added to our total donation and brought real interest to the show and tell part of our December meeting. With a membership that is quickly approaching 200 it is my wish to have 40 or more individual members contributing a few toys rather than just 5-10. Sharing your time and talent for even a few short hours would aid in providing a very merry Christmas for a young child and will help create a very interesting show and tell for you fellow club members.

I have 2 requests for the club. First, if you are not currently active in toy making -- become active and make a toy or a few - you have more than a month. *Second*, bring your freshly made toys to our December meeting - join in on the fun, visit with Roy Underhill and witness what this club brings to the effort of bringing happiness to children in our area.

Respectfully Submitted:

Fred Ford -- Toys for Tots Chariman

THIS IS A MUST READ FOR ALL MAKING TOYS IN THEIR ON WORKSHOP TRIANGLE WOODWORKERS ASSOCIATION

Consumer Product Safety and Improvement Act Guidance July 2010

This document provides requirements for club members who participate in the various toy making projects to make toys to be donated to the Toys for Tots Program. It provides information on how to comply with the Consumer Product Safety and Improvement Act and the related laws as best we can understand for now. The regulations pertaining to the law are still being drafted and will not be fully implemented until February 10th, 2011.

For 2010 toys donated must meet the following requirements. No finish or coloring of any kind can be applied to the toys. This includes paint, wax, stains, decals, tape, vegetable oil, etc. No means No. No small unattached parts or toys. All toys and unattached parts must not be able to fit through a toilet paper tube.

We may use natural products such as wood or leather. Plywood may be used, must be contained with no sides showing or accessible by a child. It is likely that we will be required to mark the toys for identification of TWA as the manufacturer. More detail to follow.

This law applies to all toys donated or sold. Any toy not in compliance will not be accepted for donation.

It is expected that many small companies will go out of business and donated toys will be far fewer next year. We can only hope that when the regulations are published they do not have the serious unintended consequences currently anticipated. Toymakers Alliance is trying to make some sense of all this. If you would like to help in the effort you can contact them at <http://www.handmadetoyalliance.org/>
