## Toys for Tots Banquet

**Tuesday** December 14<sup>th</sup>, 2010 6:00pm

**Guest Speaker: Roy Underhill**

TWA's 25<sup>th</sup> year of service to the Toys for Tots program will be celebrated December 14<sup>th</sup> with a catered dinner. All members are invited and encouraged to bring a guest. The club is financing the event for all that have participated in making toys for our annual donation and their guest. If you have been unable to participate but would still like to attend -- purchase a toy and bring it along as your entrance fee -- unwrapped please.

**Roy Underhill**, the nationally known WUNC TV host of The Woodwright's Shop (which is embarking on its 28th season on PBS) will be our featured speaker for the evening. Roy notches another year of amazing longevity as host of one of the longest-running continuing productions on PBS and dubbed "the best how-to program since Julia Child started rattling pots and pans."

Final attendance numbers must be provided to our caterer on December 6<sup>th</sup>. Currently, over 70 members & guests have signed up to attend. If you would like to join in on our night of celebration -- it is not too late. Contact Kay Baker before December 6<sup>th</sup>.

**Because our meal is catered -- it is very important for you to contact KAY BAKER at 919-662-8504 or email [kdbakerdb@yahoo.com](mailto:kdbakerdb@yahoo.com) by December 6<sup>th</sup> if you have signed up to attend and something has come up that you will not be able to attend.** Failure to do so will cost TWA the price of your meal. A

*We all need to pray for our  
Marines and soldiers on  
watch, they are  
far from home, protecting us.*

donation of \$12 will be accepted to Toys for Tots if you fail to notify Kay.

The meeting/dinner will be held in the Fellowship Hall of the Salem Baptist Church in Apex, NC. Additional information and detailed directions will be emailed to those signed up to attend.

Please arrive a few minutes before 6:00pm to deposit your toys and find a seat. If you have a large amount of toys, please join us at 5:00pm for the set up. All toys will be displayed.

We have a wonderful program planned. For all of you that are coming -- I am very glad that you are sharing in this accomplishment & celebration.

*Come hungry and enjoy our kickoff to  
Christmas 2010*

**Host: Fred Ford**

**Chairman of the TWA Toys for Tots Program**

December 4<sup>th</sup> assembly workshop at Sue Eckards shop

### ***Evening Agenda:***

- 5:00pm - 6:00pm — **SETUP** tables for toy display and seating for attendees. All members with more than just a few toys come early to help.
- 6:00pm - 6:15pm — **BUSINESS MEETING** Allan Campbell followed by the invocation which Tom Revelle is providing
- 6:15pm - 6:45pm — **DINNER** Buffet - Catered by McCall's B-B-Q & Seafood
- 6:45pm - 7:30pm — **ROY UNDERHILL** introduced by Bill Anderson
- 7:30pm - 7:40pm — **MARINE CORPS** talks of need for toys this year
- 7:40pm - 8:30pm — **T4T and SHOW & TELL** Fred Ford will host the presentation of our toys
- 8:30pm - 9:00pm — **ALL HANDS ON DECK** Pack toys into the Marine van. Put away tables and chairs.

# ABOUT THE TRIANGLE WOODWORKERS ASSOCIATION

TWA News

2

www.trianglewoodworkers.com

The Triangle Woodworkers Association (TWA) is a nonprofit educational corporation. The TWA is dedicated to teaching woodworking techniques through seminars, classes, and workshops; participants are required to sign waivers absolving liability for TWA or its designated representatives. The TWA promotes woodworking education and community interest in woodworking and in general sharing a love for wood.

## Club Officers and Committee Chairmen

### Executive Board

**President:** Allan Campbell, (919) 772-4551

# BY THE NUMBERS

## Treasurer's Report

|                         |             |
|-------------------------|-------------|
| Beginning Bank Balance: | \$10,045.46 |
| Income:                 | \$1,672.00  |
| Expense:                | \$2,054.28  |
| Ending Bank Balance:    | \$9,663.18  |

Note that these figures, as usual, exclude the petty cash fund, as well as the other "slush" funds.

# THE PRESIDENTS CORNER

At our last meeting Kelly Mehler presented an impressive slide show of his work with an emphasis on matching grain for best visual effect. Although matching the grain on drawer backs and bookmatching drawer bottoms may be a bit over the top, his insights on how to select and arrange grain for the best result were fascinating. Mike Reddyhoff is writing an article on the workshop Kelly gave at my shop, so I will limit my comments to the fact that he stayed with us, and Joyce and I very much enjoyed his company and the workshop.

Our next meeting will be our Toys for Tots banquet on December 14<sup>th</sup> at 6:00pm. Please note the time as it is earlier than our normal meeting time. Please be sure that you have responded to your invitation so that we have an accurate count for the caterer. Just a reminder - if you have *not* attended a Toys for Tots workshop, or made a toy for donation, you will need to purchase a toy and bring it along as your dinner fee. Our guest speaker is Roy Underhill, so we can depend on a fun evening.

Our TWA Programs committee has been working hard to put together an interesting 2011 and will be providing an informative array of speakers and workshops. On the subject of workshops, I wish more of you would sign up and enjoy the workshops. The yearly club dues subsidize part of the cost, so you are not getting all you can for your dues if you don't participate. More importantly, the workshops are a great source of information and they are fun. If you have not attended one, or haven't been recently, pick one in 2011 and join us. The worst you can do is have a good time. No experience required to learn something new.

Last month's mail brought some things of interest. First, Minwax is looking for entries for its 2010 Community Craftsman Award. The "program recognizes woodworkers who have promoted community improvement through woodworking skills." Fred Ford is writing up the Toys For Tots program for submission on behalf of the club. I would be happy to supply entry forms to

[www.trianglewoodworkers.com](http://www.trianglewoodworkers.com)

anyone else who would like to submit. Just send me an e-mail and I will send you what you need. Individuals and groups are eligible. Awards range up to \$5000 and the deadline is December 31<sup>st</sup>.

The Hardwood Store of North Carolina (106-V East railroad Ave., Gibsonville, NC 27249) sent us a price list, which is in the club library, and an invitation to come and tour the store, either individually or in groups. While the prices will certainly change, the list indicates the wide range of woods they have to offer. I plan to get there sometime soon to see what's what and hope some of you will too. Maybe someone who does can give us a report at a future meeting. If you would like to gather a group to go - call Cheryl Lewis at 336-449-9627 to arrange a time and some special attention for yourselves.

**See you all at the banquet!**

**President: Allan Campbell**

# JANUARY PROGRAM

*Tuesday, January 18<sup>th</sup>, 2011 7:00pm*

Leon Harkins, a TWA member and gifted carver, will demonstrate his talents in chip carving. His presentation will include wood selection, carving pattern designs, and how to transfer a pattern to the workpiece. Leon will display some samples of his chip carving work.

Leon is currently retired from North Carolina State University where he was an extension forest resources specialist.

A sneak peek of his works is this large seal at the NCSU University Club. He also carved the plaque that he is holding and it can be found mounted on the tool crib that our club built for the NCSU Craft Center.

Mark your calendars for our first meeting in 2011, you do not want to miss the awe inspiring talent of one of our own.

**Host: Mike Payst**

# MEETING MINUTES

NOVEMBER 2010

**Attending: 58**

**Visitors:** *Floyd Biggers* of Raleigh, and *Fred Winecke* of Myrtle Beach

**Business:** The meeting was opened by our President, Allan Campbell.

## *Show & Tell*

1. *An unknown member* showed an oak ruler, which he has made for each of his sons. The rulers are 6 feet long and scaled appropriately to mark the height of his sons throughout their growing up. He also showed a flag case he made for his neighbor whose husband was a Bronze Star veteran of Vietnam and had recently passed away.

2. *Bruce Webb* showed a jig he made to make the sandpaper flaps for a flap wheel. This was designed to utilize scrap sandpaper purchased from Klingspor and the wheels are used to sand TWT's project parts.

## *Announcements:*

1. *Allan Campbell* indicated that TWA has been entered into the Minwax Community Craftsman Contest, the grand prize of which is \$5000.

2. *The Hardwood Store of NC* has provided a price listing which can be found in our library. They are inviting club members and friends to come for a tour and of course to shop.

3. *David Snyder of Chatham Habitat* spoke briefly on the Habitat mission. He noted that there is a habitat for each county in our state. TWA's own *Bob Gabor* is a long-time volunteer of this program, and is a member of the Trim Team. David made a plea for volunteers - with any skill whatsoever to give him a call at (919) 5422-0794, ext. 228 and talk with him. This program is vitally important and depends on volunteers to be successful. All help is much appreciated.

4. *Fred Ford* updated the membership on the status of Toys for Tots workshops and toy inventory.

5. *Allan Campbell* instituted a new feature to honor previously unrecognized members who contribute to the efficient operation of the Triangle Woodworkers Association. *Hugh Fish* is the first honoree. He is the club Treasurer and in that capacity is basically on call 24/7. Hugh graciously accepted a round of applause for his great efforts.

**Program:** *Jim MacNeil* introduced *Kelly Mehler* who presented a program on the history of his 30+ year woodworking career, highlighting his various shops in Berea KY, his woodworking school, and many fine photos and details of his furniture. Of particular interest was his use of sequentially sawn lumber and book matching to highlight the design of these objects...

**Respectfully submitted,**  
*Bill Anderson, Secretary*

Fan Back Windsor Chair.

Oct 24-31

Construct a fan back Windsor chair entirely with hand tools while honing tool skills and learning joinery techniques. Split a log, shape the crest and spindles with drawknives and spokeshaves, hollow the seat using inshaves and travishers, and assemble the chair using hand drills. This workshop is conducted at John C. Campbell Folk School, Brasstown, NC. (<http://www.folkschool.org>)

### Roy Underhill's Woodwright School

Check out the schedule for this new addition to woodworking in the Triangle (<http://www.woodwrightschool.com>). Many great things will be happening here. On Wednesday nights there will be a "seminar" series which will be both hands on and demonstration, on focused woodworking topics. This will be a great opportunity to come and see the school, possibly meet Roy, and get some great handtool woodworking exposure. I will be assisting in many of these sessions, to my great delight, so come on over!

### Shakori Hills Grassroots Festival

I will be set up with my Ruobo workbench and demonstrating handtool woodworking at the Shakori Hills Grassroots Festival in the Fall (October 7-10). I am generally located near the food court. Come by my booth to visit and spend some time! I am happy to share stores and to answer questions.

## Offerings.....

*Edwards Mountain Woodworks offers you the opportunity to learn specific handtool woodworking skills and techniques in a very focused but relaxed setting.*

*Whether you want to learn how to use handplanes, how to cut precise joinery by hand, or you just want to learn the ins and outs of handtools, there is something here for you.*

*Classes are limited to a maximum of 3 people and generally are intensive exercises on a topic, lasting one or two days from 9 am to 5 pm. Each student has their own workbench. A tool list and a class manual accompany each class. Generally, all tools and materials are supplied, though there may be an additional materials fee for some classes. Lunch is provided each day. Workshop prices are \$200 per day with a \$15 basic materials fee. Project oriented workshop have a materials fee that reflects the cost of the lumber and hardware.*

## HANDTOOL WOODWORKING WORKSHOPS

at  
**EDWARDS MOUNTAIN  
WOODWORKS**

*Fine handtool woodworking: creating  
and teaching in wood*

Phone: 919.932.6050  
email: [bill@edwardsmountainwoodworks.com](mailto:bill@edwardsmountainwoodworks.com)

I will be teaching an advanced workshop on making a Joiner's Chest at the John C. Campbell Folk School in Brasstown, NC January 16<sup>th</sup> through 23<sup>rd</sup>. Brasstown is a wonderful place to take a workshop -- beautiful scenery, good food, and an intense work environment. Not to mention meeting new people and making great new friends!

The chest is based on inspiration from the many tool chests on view at the Woodwright's School in Pittsboro, NC. These chests were meant to hold chisels, planes, handsaws and layout tools in a series of sliding trays and compartments. We will make ours out of poplar, with the interior trimmed out in mahogany or walnut. The chest is designed to roll on iron wheels, and will have turned wooden handles. The project is completely handtool focused, using saws and planes to dimension the wood, plenty of through and mitered corner dovetails, mitered bridle mortise and tenon (for the top), tongue and groove bottom, and handcut molding details. This will be an intense workshop, with evening sessions in the shop (it will be cold and dark anyway!). Some, even limited, experience with handtools and specifically in cutting dovetails by hand is necessary for your complete enjoyment of this workshop (go out to the shop and cut a dovetail right now if you have not done so).

If you are interested, please contact the Folk School at 1-800-365-5724 or visit their website at <http://www.folkschool.org/>

### TWA 2011 Programs coming soon

The new program schedule is complete and has been added to the TWA Google calendar website. You can access this calendar on the twa home page at URL: <http://www.ibiblio.org/twa/>. This will open the calendar and you will have access to all the program, workshop, etc. information for the full calendar year. The Agenda tab at the top right of the calendar will give a more detailed and multiple month view. It is our intent to keep the calendar current, so it will provide a ready resource for all upcoming activities. To make this happen I will need your timely inputs for any and all calendar worthy items.

**Program Committee Chairman: Terry Tenhouse**  
ttenhouse@gmail.com

### *Mentors*

The purpose of this program is to have a reference guide of whom to call when you need to "pick someone's brain", because *Rule #1 in woodworking: nobody has a monopoly on brains!* This list of people includes: contact information, projects the Mentors are comfortable offering advice about, and skills they would be able to help with.

### *Mentors Wanted/Needed*

The purpose of TWA is to provide a forum for woodworkers to gather, exchange information & further the art of woodworking. To this end, those more skilled woodworkers are encouraged to become a Mentor to provide knowledge to other members regarding areas of the Mentors skill, experience & knowledge. If you are interested in being a mentor, and willing to help a fellow woodworker discover answers to their questions, please contact Larry Bradbury, 919-518-6891 or [lbradbury12@yahoo.com](mailto:lbradbury12@yahoo.com)

## Kelly Mehler's Workshop

### A Table Built from One Board

**Kelly Mehler** from Berea, KY provided instruction for our workshop. Twenty-one TWA members met in Allan Campbell's well equipped shop in Garner.

The table was to be a Shaker side table which is considered one of Kelly's signature pieces and the board was a rough slab of tulip polar 8/4 thick, 8" wide and 60" long. At first sight it was not clear to many of us how a table would emerge from this raw material but Kelly encouraged us to examine the grain pattern on the faces and edges of the board and between us we determined the most suitable areas for the top, aprons, and legs when resawn. The board was roughly marked out with chalk lines and Kelly produced his cross cut saw and suggested that we might like to cut it up ourselves. A few of the members took turns to achieve that task. Contrary to some of our suggestions Kelly chose not to dress the board prior to cutting to lengths - reasoning that due to the varying thickness there would be unnecessary work and waste. The individual pieces were cut to approximate length and width on the bandsaw before resawing and were then dressed to size on the jointer and planer. During these operations Kelly explained and demonstrated correct operating procedures with an emphasis on safety and explained necessary adjustment methods for each machine.

The next step was to examine the grain of the book matched top pieces and to glue them into a panel in the most pleasing orientation. Kelly demonstrated and explained the procedure to a successful glue joint and a resultant flat panel. The boards were to be left in the clamps until needed for final assembly. Kelly has a well established method of producing mortises in table legs using three legs clamped together to provide an adequate support for a router base and routing the center leg with an 8mm upcut spiral bit. The clamps performed double duty as stops to determine the mortise length. We were shown different ways to produce matching tenons on the aprons using the table saw and dado blade or tenon cutter, the router table or band saw alone or in combination. Kelly showed us his favorite method of rounding tenon ends to match routed mortises using 1/2" wide strips of 40 grade sandpaper after which the apron tenons were adjusted as necessary to a precise fit in the tenons using shoulder planes and chisels. The assembly was then dry fit and checked for squareness.

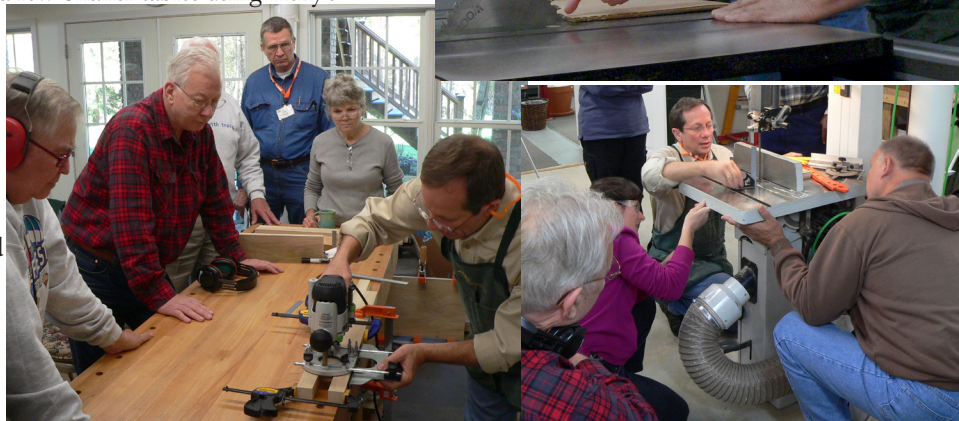

Kelly next demonstrated his preferred method of tapering the table legs using the jointer. Several members were not familiar with this procedure and most had not used it. Nonetheless, everyone was impressed with the result. Hand planes were used to dress the leg tapers and to refine the apron surfaces after which the assembly was glued, clamped and squared. The top was then cut to size on the table saw and dressed flat with hand planes. Kelly demonstrated how we would chamfer the underside of the table top by hand planing. The top was then offered to the leg/apron assembly but time did not permit the top to be screwed down. The aprons had been routed inside for button clips and Kelly showed us a quick and safe way to produce such clips in quantity.

Kelly brought with him a veritable arsenal of Lie Nielson planes including a graduated set of shoulder planes and took some time to explain different bed angles and sharpening angles for optimum performance on different grains. At all times during the workshop Kelly was at pains to explain procedures fully with an emphasis on safety including an explanation and demonstration of table saw kick back - apparently the #1 cause of table saw injuries. This quite dramatically pointed to the need for a splitter or riving knife on a table saw.

Kelly Mehler is clearly very knowledgeable in his subject and a good teacher, patient and courteous. Although I have made a few Shaker tables using Kelly's published designs and instructions I found this course to be interesting, informative and valuable. The next table I make probably will be from a single board to take advantage of matching grain and will be of a magnitude better than my previous efforts.

A special thanks goes to Allan Campbell for the use of his excellent shop and to his wife Joyce who went out of her way to provide amazing refreshments throughout the two days.

Submitted by Mike Reddyhoff

## TWA LIBRARY

Each member is allotted 3 items at a time. Checked out items are to be returned at the next meeting. There is a late fee of \$2.00 per item per month. We hope this will encourage timely returns so other members may benefit from the information available.

Have you ever noticed that our monthly meetings are recorded? Ever wonder what happens to the recording after the meeting? Well, let me explain, all are burned to a dvd and are maintained by the library. They are available for you to checkout. You can revisit a topic you enjoyed and see a topic you might have missed. DVD's start in June of 2003 with Jim Kirkpatrick demonstrating Furniture Design, and follow through to the present, a total of 68 DVDs currently. There is a list available in the library. The DVDs are located in the white box that stays on the library desk during meetings. There is a wealth of information in the library, it can enhance your knowledge greatly.

*May the magic and wonder of the season...  
Bring joy and happiness to you...  
May it be a season you will always remember...  
And stay with you, your whole life through...  
May the timeless message of Christmas...  
Fill your heart and home with love...  
May you and yours be forever blessed...  
With the peace of the snow white dove...*

# Attention Members

Regular club meetings  
begin at 7 PM!

Christmas Traditions of Joy,  
both big and small  
so precious from the start,  
are moments to recall  
and treasure in the heart.
