Jerome Bias

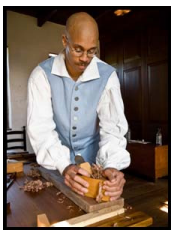
Tuesday May 15th, 2012 **7:00 PM**

The Woodworking Shop
3141 Capital Boulevard, Raleigh, NC

Several members meet at 6:00pm Buffalo Brothers Pizza & Wings for dinner prior to the meeting. Please join us!

Tuesday May 15th, 2012

Subject: Thomas Day - his life & work
Speaker: Jerome Bias



Jerome uses the phrase ***"CL Woodworking"*** to describe his exploration of the past and the ways that history shapes the present and the future. CL Woodworking stands for ***Celebrating Life through woodworking***.

Jerome Bias makes furniture using 18th century woodworking techniques. He has a passion for furniture made in North Carolina during the 18th & 19th centuries, especially the furniture of Thomas Day. Day was a successful 19th century African-American furniture maker from Milton, North Carolina, whose pieces are highly valued today. Currently, Mr. Bias is working on a series of blanket chests which are adaptations of a 17th century walnut blanket chest from eastern North Carolina.

Largely self-taught, Jerome has been practicing the arts and mysteries of woodworking for the last eleven years. Over those years, he has developed his skills and studied the works of Thomas Day and other African-American craftsmen in antebellum North Carolina.

Jerome will discuss Thomas Day's life and work. He will focus on Day's adoption of power tools and how it changed his work.

Host: *Jeff Leimberger*

Thomas Day's residence and workshop: Union Tavern, Main Street between Lee Street & Farmer's Alley, Milton NC

What has kept the name "Thomas Day" alive in the annals of southern history through the hardening of racial attitudes of the 1840s and 1850s and even the Civil War and Reconstruction is his incomparable craftsmanship and the refusal of his adopted home to let his merits go unnoticed. His furniture and interiors stand as irrefutable evidence of his skills, tangible evidence of an expert artisan of character and grace. While the achievements of other free blacks of antebellum North Carolina have been buried under a landfill of history weighted with racial antagonisms, Thomas Day's accomplishments are too exceptional and too tangible to ignore.

~Rodney D. Barfield~

About the Triangle Woodworkers Association (TWA)

The Triangle Woodworkers Association (TWA) is a nonprofit educational corporation. The TWA is dedicated to teaching woodworking techniques through seminars, classes, and workshops; participants are required to sign waivers absolving liability for TWA or its designated representatives. The TWA promotes woodworking education and community interest in woodworking and in general sharing a love for wood.

BY THE NUMBERS

Treasurer's Report

Beginning Bank Balance:	$5,248.34
Income:	$163.50
Expense:	$2,097.76
Ending Bank Balance:	$5,248.34

Note that these figures, as usual, exclude the petty cash fund, as well as the other "slush" funds.

Some notables: $909.00 in Toys for Tots donations.

TWA is on Facebook

On our website www.trianglewoodworkers.com you can hit the link to *"like"* us on facebook or if you do not have a facebook page you can create one if you like. Or you can go to www.facebook.com and search for TWA and add us as a friend.

I am adding many of the photos from events to our facebook page - many of these I cannot fit into the newsletter. Be sure to look for new items.

NEW MEMBER WELCOME

We welcome *1* new members this month.
Steven Lee of Holly Springs
A colored dot on a name tag indicates that the member is new, so be sure to say hello and welcome them.

Membership Chairman: *Kay Baker*

Meeting Minutes

April 2012

The meeting came to order at approximately 7pm with President Allan Campbell presiding.

Announcements:

- Allan has appointed Terry Tenhouse and Fred Ford to the nominating committee that will choose the nominees for positions to the board of directors. Some current terms are due to expire. Please contact Terry or Fred if you are interested in joining the board.
- Allan chose Sue Eckard as the member for special recognition this month. Sue opens up her shop for the Toys For Tots drive and

THE PRESIDENTS CORNER

As you know, at each meeting I recognize someone who is particularly valuable to the club. This past meeting I spoke about **Sue Eckard**. Many of you who are newer to the club may not know Sue as she is rarely able to attend these meetings, but she provides a wealth of support to us. She, along with her daughter (Diane Philyaw), give us the use of their shop and machinery to make the majority of our T4Ts general club givings. Sue has been a member of TWA for nearly 20 years and possibly longer as her late husband Bill was a member until his passing in 1998. Sue and Diane dug their heels in deep to fulfill a dream (a dying wish of Bill's) and host a Toys for Tots (his passion) workshop in his new shop. He unfortunately was never able to see what the ladies have done, but they have certainly done him proud. He would be brought to tears knowing that the ladies are shooting for the very obtainable goal of 20,000 toys to come through their doors. They are 3/4 of the way there now. Fred Ford has stepped up to the plate and is spearheading the efforts the last couple of years as Diane's health has been at issue and of deep concern to the entire family. And as those of you who attend the workshops up in Creedmoor know, Sue feeds the workers well. Anyone who has ever had the pleasure of joining a workshop at Sue and Diane's has come away with more than sawdust - they have come away with a sense of family and belief and honor to be a part of something great.

As required by our governing documents, I have appointed a Nominating Committee consisting of Fred Ford, Terry Tenhouse and Ed Mastin. They will be seeking 2 people to be directors for the coming 3 year term. Please see one of them if you want to volunteer to run for director or suggest someone else.

Starting with the April meeting and continuing for some time, we will have more than one raffle at each meeting. Largely through Pete Bucki's efforts, we have been given a variety of merchandise to be used for the benefit of T4T's. In this column each month I will be announcing what the T4T Raffle item(s) will be for the coming meeting. Currently we have a Worksharp Knife Sharpener valued at about $70; a Drill Doctor bit sharpener; and a Worksharp 3000. In addition, we have several 10 inch and 7 ½ inch carbide saw blades, compliments of Raleigh Saw. For higher value items which have been donated, tickets will be more than $1, and/or selling a minimum number of tickets before a drawing will be required. I am sure all will understand our desire for a fair value for these items while still giving our members a chance at a nice win. At the April meeting, we offered the Worksharp Knife Sharpener. If you want to investigate what it is, you can look online, or there is one set up at the Klingspor store. You can try it out there. Unfortunately, we only sold 2 tickets at $5. We cannot in good conscience allow the knife sharpener go with only $10 going to T4T, so tickets will be on sale again this month. Arrive a bit early to sharpen your knife and buy a ticket! Tickets will be $5 each. This is a Toys for Tots raffle and therefore is separate from our regular club raffle.

While we have eliminated most of the 1 person committees, there are still a few opportunities for members to help administer the club activities. I would like to add someone to the audio-visual committee and to the Facilities and refreshment committee. If you would be willing to volunteer for one of these assignments, please let me know. If one these does not fit well with your skills and/or interests, please let me know. I am sure we can find a way to allow you to help. We never let a good volunteer go!

I continue my efforts to increase membership in our Club and my desire to share our love for wood and ask my fellow members to invite a guest to visit and hopefully join. I am not suggesting a hard sell, but if you know someone who might enjoy us, please invite them to a meeting. To that end, we will have flyers available for you to give to your prospective guests.

Hope to see many faces in May!

President: ***Allan Campbell***

"A mother understands what a child does not say." ~Author Unknown

provides coffee and muffins in the morning along with a hot lunch. She refuses to take any reimbursements from the club.

- A couple of estate sales are going on and a listing of some available tools was circulated. With Mother's Day & Fathers Day upon us - this could be a great way to give your loved one something really nice. Check our club web site & newsletter for details.
- Don't forget your raffle ticket for the Worksharp Knife sharpener. A limited number of tickets will be sold.

Program:

The scheduled program for this month had to be postponed. A new date for Larry Favorite's presentation will be announced as soon as it can be arranged.

Tom Calisto from ***Windward Woodworks*** in Chapel Hill NC was gracious enough to fill in at the last minute. Tom builds custom furniture for a living and builds his own hand tools. Tom provided us with his step by step process to build a hand saw. After acquiring the spring steel for the blade he hand cuts the teeth, lay outs and fits the handle. Tom goes as far as to make the brass screws that hold the blade to the handle. Tom also brought with him a number of other hand tools that he has made. All in all it was a very interesting presentation.

Respectfully submitted by: ***Joe Gorman - secretary***

May Raffle item

Drill Doctor DDSB. With one can sharpen twist drills from 3/32" to 1/2", masonry bits up to 1/2", and spade bits from 1/4" to 1 1/2".

Don't forget to purchase your chance to win!

I recently had the opportunity to teach a class at Roy Underhill's Woodwrights School in Pittsboro. This is the project I designed for teaching "hoppered dovetails". Those compound angle dovetails are trickier than you would think. ~Tom Calisto~

Elia Bizzarri

June 19th, 2012

Handcrafted Windsor Chairs

Elia builds Windsor chairs the old-fashioned way, like the 18th century way! This incredibly gifted chair maker works out of his shop near Pittsboro, NC. He teaches Windsor chair making at various schools, including the Woodwright's School in Pittsboro. His chairs are amazingly comfortable, and in this presentation he will show us how he shapes and bores the seats that are an integral part of that comfort.

Photo by Roy Underhill

~~~ On a clear autumn morning, a friend and I search the woods for the perfect windfallen oak or hickory log. We cut the log, split it up where it falls and haul it home. The wood has hardly missed its leaves before it finds itself part of a beautiful chair.

The woodworking tools and techniques I use are many centuries old. All the items I make bear the marks of my hand tools. The quiet of my shop is reminicent of a pre-industrial country woodshop. Like 18th century woodworkers I use safe, non-toxic finishes that protect your health, my health and the health of our planet.

The feel of a razor sharp drawknife slicing pungent oak shavings from a chair spindle . . . the sight of long ribbons of fresh maple flying off the lathe to land in a pile of curls at my feet . . . these are the pleasures of my life.~~~

New Feature Items Wanted

Wanted Items

Shop space for lease. Large 20,000 Sqft Co-Op shop looking for subtenants to share space with access to industrial level 3phase tools. Utilities are included for $1 per Sqft a month with minimum 500 sqft per person for personal "bench space". Access to the common areas of the shop and the common tools are part of the lease. Downtown Raleigh, near Glenwood south area. Projected move-in during April.

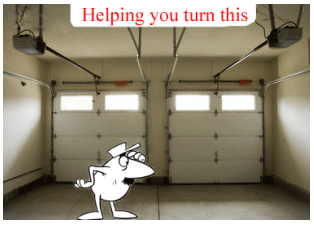
A visit from Larry Hendrick

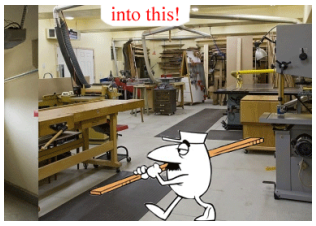
"A mom's hug lasts long after she lets go"
~Author Unknown

I wanted to share a few photo's of my wood shop I have built here in Minnesota. I just finished the dust collection. I built two pieces of furniture for a grandson this winter. That was a great way to see if all my plans were going to make working in it fun. I have an Earlex 5500 sprayer and it worked well. I made a plastic sheet roll-down spray booth I saw in a magazine. I plan to order a Saw Stop this spring.

I miss the TWA very much and check in on the clubs website to visit and see how you are all doing.

Larry Hendrick





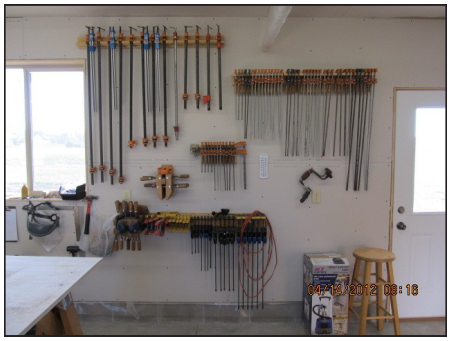
This is a 24' X 30' heated, insulated building.

I still have my old tools but I have plenty of light. Drop cords to the table saw.

I created a 2-line dust collection system with Sch20 PVC and Rockler adaptors.

The dust collection system goes to each tool and follows the wall around the shop.

Wood storage system.



Clamps mounted on wall.

Mentors Wanted/Needed

The purpose of TWA is to provide a forum for woodworkers to gather, exchange information & further the art of woodworking. To this end, those more skilled woodworkers are encouraged to become a Mentor to provide knowledge to other members regarding areas of the Mentors skill, experience & knowledge. If you are interested in being a mentor, and willing to help a fellow woodworker discover answers to their questions, please contact Larry Bradbury, 919-518-6891 or lbradbury12@yahoo.com

Mentors

The purpose of this program is to have a reference guide of whom to call when you need to "pick someone's brain", *Rule #1 in woodworking: nobody has a monopoly on brains!* This list of people includes: contact information, projects the Mentors are comfortable offering advice about, and skills they would be able to help with.

Raspberry-Stuffed French Toast

What You Need

4oz. (1/2 of 8-oz. pkg.) PHILADELPHIA Neufchatel Cheese, softened
1/2 cup sugar
2 tsp. vanilla
1 tsp. ground cinnamon
2 whole eggs
2 egg whites
1-1/4qt. (5 cups) fat-free milk, divided
1 loaf French bread (16 oz.), ends trimmed, cut into 18 slices
1pkg. (12 oz.) frozen unsweetened raspberries
1pkg. (3.4 oz.) JELL-O Vanilla Flavor Instant Pudding

www.trianglewoodworkers.com

Make It

BEAT first 4 ingredients in large bowl with mixer until well blended. Add whole eggs and egg whites, 1 at a time, mixing well after each. Gradually beat in 2 cups milk.

ARRANGE 9 bread slices on bottom of 13x9-inch baking dish sprayed with cooking spray; cover with half the berries and remaining bread slices. Pour Neufchatel mixture over bread. Let stand 30 min.

HEAT oven to 350°F. Bake French toast 40 min. or until golden brown. Meanwhile, bring remaining milk just to boil in saucepan; gradually add dry pudding mix, whisking until well blended. Remove from heat; let stand 5 min. Meanwhile, microwave remaining raspberries in small microwaveable bowl on HIGH 15 to 20 sec. or until warmed.

SPOON pudding over individual servings of French toast; top with berries.

Kraft Kitchens Tips//Make Ahead

Assemble casserole as directed. Cover and refrigerate several hours or overnight. When ready to serve, bake, uncovered, at 350°F for 40 to 45 min. or until golden brown. Meanwhile, prepare custard sauce and raspberry mixture. Serve as directed.
