Happy Valentines Day!

TWA Welcomes Don Stevenson

Friday January 24th, 2014 **6:55 PM**

at the Woodworking Shop
3141 Capital Boulevard, Raleigh, NC

Several members meet at 6:00pm at Buffalo Brothers Pizza & Wings for dinner prior to the meeting. Please join us!

Workshop

Saturday January 25th

Don Stevenson *Comes Back To Teach The New And Enhace The Old*

Some of you will remember Don Stevenson's visit in 2001 when about twenty of us made a birdhouse from the design of the *Rutherford County Hen House c. 1897* once near Forest City, NC. Mine remains prominently displayed on my back porch. Although these priceless reproductions are designed as birdhouses, they are really too good to be subjected to the weather. Retail prices go from $225 (for the birdhouse we will make) into the thousand's ($$'s) for birdhouses that Don will give you the skills to make.

The *Mordecai Herb Garden Tool House* has been selected to build at this workshop. That structure will give those who were in the earlier workshop some new approaches to replicating a structure...a clapboard structure with a rived shingle roof. This is a birdhouse...the actual building stands at the rear of *Mordecai Plantion* in the fenced herb garden near Peace College.

This tool house has an important Raleigh/Wake County connection.

The unique three dimensional line and form of Don Stevenson's hand sculpted birdhouses and bird feeders, all scaled replicas of old buildings from our vanishing rural roadside scene, are skillfully crafted with Stevenson's knowledge of early rural construction methods, and his study of applied primitive hand tools. Each of these works of contemporary *American folk art* present the visual effects of those hand tools together with the hand painted effect of decades of weather and decay as evidenced on the exposed surface of each building's exterior; an artistic visual accomplishment in miniature detail.

Don Stevenson's work is a preservation of these treasured rural icons: barns, farm outbuildings, rural churches, country stores, law offices, old wells and spring houses, all true representations of generations past and heirlooms for generations to come that can be found in valued collections throughout America.

Announcement

Pete Bucki is our *Hospitality Chairman* and would like any news of illness or misfortune or better yet something really good happening to one of our members -- Please contact Pete so he can share.

Gus Stefureac is not doing well. He is living at the Carillon Assisted living facility at 5219 Old Wake Forrest Rd, about a block off of Millbrook Rd.

He loves company. Call first. His phone number is 919-900-4175

Pete can be reached at: (919) 380-8860 peteb301@att.net

Diane's TidBits

Happy 2014!!!

I made a promise to the club members in July 2013 that I would keep you all informed as I struggled through my illness. Well it is time for an update. With my meeting absence in both November and December -- a meeting I would crawl to if I could because I am so passionate about the Toys for Tots program -- I am sure many of you have figured out that I am really not doing so hot. You would be correct. The infection in my legs which I had beaten once has come back with a vengeance. The holidays were a struggle -- however my family gathered and we were all together which for me is the silver lining. Being graced with a fantastic set of parents, my father told me years ago to always look for the silver lining, there will be one no matter how bad the situation looks. I have tried to instill that into my own children as it did not take me long to figure out that my father was right. He was a man of much wsdom. If you look hard enough you will find one thing that is a good thing in every situation of your life.

I truly appreciate the Clubs support and patience while I fight...and fight I am doing. The first part of this year is going to be spent being poked, prodded, tested, re-tested, whatever needs to be done to figure out a treatment plan to put me back on my feet. I am determined that I will take my life back this year!!! Hopefully the good Lord will help me through the process.

Now...on to much better things. Many of you know that "Bill's Woodshed" has hosted its last Toys for Tots event. That means that we will be looking for a new large shop to produce the many cars that would normally go through our doors. With me being sick and my mother feeling like she needs to retire, she made the hard decision to close up shop. Anyone wiling to pick up where Mom's legecy has ended -- PLEASE contact Fred Ford. Mom is keeping her saw and already has plans for she & I to produce toys so don't count us out!!!

I hope everyone has plans for tackling a new project this year. Jeff and his team areproviding us with some incredible guidance this year with named speakers, local artist with awesome talent and workshops. Take advantage of all we have to offer. Thank You Jeff & Team!!

Till next time...

Diane

We release new toy plans weekly!

Pete's Updates & Info

We will kick off the Four minute auction for the benefit of Toys for Tots in January with a beautiful set of red oak table legs, ready for you to build that Beautiful table for yours or a relative's home.

The red oak legs were purchased from Matthew Burak Designs in Vermont and donated by Bob Gabor. The dimensions are 33" tall and 2 ¾ across at the top. The original price for these legs were $50 a piece, we will hopefully start the bidding at $100.00

We are still looking for additional donations of Woodworking Tools, powered or not, wood and other hardware items for the next TFT auction.

Contact Pete Bucki at peteb301@att.net or call 919-380-8860.

Thanks so much!
Pete

TWA Toys for Tots
Year End 2013 Report!
YEAR TWENTY-EIGHT!

Our toy pick up meeting was held Tuesday, December 10. 2013. The meeting began with the presentation of a plaque from the Marine Corps which recognized our contribution to the Toys for Tots program over the last twenty-eighth. years. First Sgt. Cox made presentations to me on the behalf of the Triangle Woodworkers Association.! Paul Rolfe will display the plaque in Klingspor's Woodworking Shop for members and the public to see.!

Even Santa took time to recognize your contributions. He borrowed Jimmy Burn's trumpet to play some Christmas songs and a Marine song to recognize their service to our country and the dedication of the Marines that support Toys for Tots in their off the clock hours.! !

This year TWA turned 2,902 toys over to the Marines at our celebration meeting.

Roy Underhill was kind enough to entertain us with some of his great reflections on life. The food was excellent and the turnout was great. Paul Rolf and his staff did an excellent job at making enough space available for us to show our toys and also to be seated.

All of the workshop host presented their contributions and explained how the toys were constructed. Above along with Jimmy Burn's horn you see the start of the Creedmoor production which totaled 1,745. Below is Cecil Raynor's workshop with Mike Payst explaining the engineering construction. Followed by more Creedmoor, Allen Cmpbell's Klingspor day, and Terry Tenhouse's workshop.

Another highlight of the evening was the presentation of toys from individual workshops. Don Frankfather Alex Knittel and Jim and Thelma Rhodes presented toys that they had made in their own private workshops. Their presentation added real interest to the evening. I WOULD LIKE TO ENCOURAGE MORE MEMBERS TO PARTICIPATE BY HOSTING THEIR OWN PERSONAL WORKSHOPS. EVERY ONE TOY MAKES A DIFFERENCE TO A NEEDY CHILD.

Some purchased were contributed by Jan and George Batker which added additional interest and color.

During the twenty eight years since we started the TWA Toys for Tots program our effort have been on handmade toys. TWA members have contributed **91,734** toys to the United States Marine Corps Toys for Tots program. Twenty-eight years of making a lot of sawdust. HOORAH TWA and its members!!!

I want to give a special thanks to all of you that furnished refreshments. It was a table set for a king. Signed up to supply food were Bob Gabor, Pete Bucki, Frank Noser, Hal Brown, Terry Tenhouse, Mike Payst, Judy and Roger Sanwald, Jim and Thelma Rhodes, Rolf Andersson, Cecil Raynor, Ron Heidenreich, George Mills, Jan Batker, and Allen Campbell. I am sure some of the men signing up got some help from wives and I also know some folks brought treats although they had not signed up. Thank you all.

Also a special Thanks to Ed Mastin for your years of picture taking and providing the photos needed for this report.

There were fifty-three men and women who gave of their time and talent which supported 208 workshop days. Most of us do not even realize the amount of work it takes to set up a workshop. There is a great deal of behind the scenes items that take place. Some examples are:!

- **Pete Hodges** cut out 1,200 Volkswagen's, 60 Pinocchio's, a lot of dog ears, made plaques this year, **and** Pete and Louis Gergson prepared our July kick-off Barbecue.
- **Pete Bucki** cut out 300 Volkswagen's and much more.
- **Bruce Wrenn** cut out 808 Volkswagen's, finished 100 to supply all stations with start up material, supplied shop made flap wheels, supplied jigs for assembly and supplied two drill presses to aid in assembly.
- **A team** of seamstresses made mattresses and covers for doll beds from Cecil's workshop.
- **Mike Paste** designed the doll beds and made prototypes to support production.
- **Fred Ford** - the IRS asks for miles and I have a whopping 760 to declare. My church ask for hours given to support charity and I have 157 for Toys for Tots.

I am sure there are many of you that have similar reports, such as Terry Tenhouses many trips to get wood from Gibsonville. While dollar value is not what we are about it is interesting to note that if you were to purchase 50 American Doll beds such as the ones made at Cecil's workshop, it would cost approximately $5,000 plus tax and shipping.

The table below list our contributions. The true story however is found in the homes of the children receiving a toy on Christmas morning whom might not otherwise receive one. Your efforts certainly show gifts made with love.

Congratulations TWA -- another fine, fine year!!! You make me proud to be part of such an organizarion! On to year 29!

Fred Ford
Chairman TWA
Toys for Tots Committee

Meeting Minutes

December 2013

Merry Christmas & Happy New Year!!!

Fred Ford opened our meeting after a buffet generously provided by members and their families. Fred welcomed guests and visitors, and explained that while our President Diane planned to attend illness prevented her from joining the group. We all will pray for her and wish her well.

The first order of business was to introduce *First Sgt Cox* of the **U**nited **S**tates **M**arine **C**orps, here to collect the toys provided by our organization. He gave us a brief and interesting history of the *Toys for Tots* program. Started in 1947 with the goal to give less fortunate children a toy. 12,000 toys given out so far (this year?). Our group alone has provided that many over the years and more! 179 non profits give the names of the children to the Marines looking for help (35 already completely provided for by the Marines). 500 drop sites in 7 counties in this area. Only a few Marines are appointed (Marines actually volunteer) to service this program and their time is *"off the clock"*. Organizations like TWA help meet those goals. TWA has been providing toys for 28 years, to date nearly 90,000 toys.

Sgt. Cox presented the long awaited plaque to Fred Ford & the club for our continued support of their program. The plaque will be displayed at Klingpors.

The mayor was present visiting. I think!

Several other visitors were introduced. A Lance Corporal from the marines was present too. It's hard to keep up with all the introductions sometimes.

Fred Ford presented the marines with a thank you plaque, and he had one for Roy Underhill, our internationally known star entertainer and fellow woodworker as well.

Roy Underhill came up front to accept his plaque, and then he began to ramble, I mean speak in his inimitable style. He has a woodworking school in Pittsboro that has been in business for 4 years, interestingly it is located between an ice cream parlor and a bar, so this alone should appeal to many of us! Roy introduced Bill Anderson who is an associate there and is writing article on rule joint planes and on oval handles for mortising chisels. Old tools, old friends and old wine are the best. Old tools too was mentioned again. Of the several stories told, the moral of the story that I best recall is do not build a house out of fat wood. If you don't know what that is ask an attendee. On a touching note, Roy thanked the group for the warmth they instilled in the toys for tots as they made them, because their work comes from the heart. Then Santa came! Playing a trumpet. And he knew the Marine song!

The toys were totaled, 2,803 were sent home with the marines. 53 people spent 208 workshop days making the toys. Creedmoor (Fred, Sue & Diane), Klingspoor, Allan Campbell, Terry Tenhouse, Cecil Raynor, Jim Rhodes, Alex Knittel, and Don Frankfather presented the toys they and their workshops produced. There are apparently a lot of elves in the vicinity.

Some other members brought toys to contribute if they were not able to attend a workshop. A shout out went to the Hardwood Store in Gibsonville which provided wood for the Tenhouse boxes, beds and some of the trucks. The doll beds required quite a bit of engineering and jig making! As demo'd by Mike Payst. Each bed had a pillow and coverlet sewed by another group of lady elves.

Announcements:

Bernie announced that there would be Carvers at the libraries in Wake County in January to answer woodworking questions and he will take brochures for our group to those meetings.

Bob Gabor recognized Fred for his work and explained that about 200 cars were assembled by youth at his church workshop.

Big thanks to Paul at Klingspoor and his associates for moving stuff around to make plenty of room for us.

And don't forget to check in and out at the front door with Kay Baker. She is caring for the badges and the membership numbers. Your support is much appreciated.

Respectfully submitted by: *Janet Batker Secretary*

Gotta love the Dress Blues!!!

A sneak peek at the upcoming programs

TWA Programs for 2014

TWA is readying for an amazing year of woodworking presentations and workshops provided by some of the best woodworkers in North America. For our nationally renowned speakers, we have scheduled three of the most talented and recognizable names in the craft: Garrett Hack, Brian Boggs, and Michael Fortune. All three have published in woodworking magazines, taught at respected woodworking schools across the country, and create furniture that is beautiful in design and craftsmanship. Each will give a presentation at our monthly meeting and then lead a weekend workshop. These workshops will be available to members at a greatly reduced price compared to what would be charged at a school. This is an incredible opportunity to learn from some of the best!

Our club will also take advantage of the incredible talent located in our own area. We will have artists talk to us on a myriad of topics. Blacksmithing for woodworkers, pyrography, finishing, building minatures and design are some of the areas of woodworking to be explored during the year.

It is safe to say that there are few independent woodworking clubs in North America that will provide the quality of speakers coming to your local club. We hope to see you at as many meetings as possible in the coming year!

February 18th –

Blacksmithing for Woodworkers with Peter Ross

Peter Ross was the Master blacksmith/whitesmith at Williamsburg for 22 years before settling in Silk Hope, NC. Standing on his endgrain wooden floor, Peter creates amazing objects from iron at his forge and anvil. He will tell us how he makes items that woodworkers covet, handmade hinges and locks for that special chest! He will also demonstrate how to retemper that chisel blade that you abused at the grinder last weekend.

March 18th –

Designing Benches of Wood and More – Kerry Hudson

Kerry Hudson of Kerry Hudson Design builds furniture and sculpture in Chapel Hill. He combines wood, stone, and steel to produce beautiful furniture like the bench shown. Kerry will talk to us about designing his benches and how he incorporates materials other than wood into his work.

April 18-20th – includes workshop

Garrett Hack

Garrett Hack is a contributing editor to Fine Woodworking magazine and builds furniture and works his farm in Vermont. He is the author of The Handplane Book (Taunton Press, 1997) and Classic Hand Tools (Taunton Press, 1999). TWA is happy to have Garrett return for another presentation and weekend workshop. He is one of America's foremost teachers of woodworking skills, teaching at schools and clubs around the country. He also has done numerous videos for FineWoodworking.com. Visit his website at GarrettHack.com to learn more about this gifted furniture maker.

May 23rd –

Pyrography with Michele Parsons

Pyrography is the art of decorating wood with burn marks. Michele Parsons practices the craft, as well as woodcarving, in her studio in western NC. She has had many articles published in Pyrography magazine, Michele also demonstrates and teaches her skills for students in classes held throughout the state. Meet Michele and learn how she creates amazing images on wood during this special Friday evening meeting.

Presented by: Jeff Leimberger and his team

Library Info

Classified ads are free to all members.To have an item posted send a note to: TriangleWoodworkers@gmail.com or our Newsletter editor: irishrose2365@yahoo.com. All ads will run for 2 months unless otherwise notified.

All TWA members are welcome to sign out a maximum of three items at a time. Items checked out are due to be returned at the next monthly meeting. Returned items should be placed in the "Returns" box in the library area. The late fee for each item is $2.00 per month. Any late fees owed by a member must be paid before any further materials can be checked out. If you know you can't make it to the next meeting you can avoid the late fee(s) by mailing the item(s) to Kay Baker, 610 Benfield Ct., Garner, NC 27529, or by calling (919) 696-8504.

As we all share a love for wood -- we would like to share the media which we have at our disposal as well. Please be conscious of your fellow member and return items in a timely manner.

To Check Out an Item

Find the circulation card located in the back of books and inside of any material in a case. Sign and add the current date to the card. Place the card in the wooden "Check-out-Box" located on top of the library cart.
