I get what you are saying buddy, but surely you must admit your suggestion to just let things go w/o a fight is a very anti "old" Aspen way of being. We've been against the "greedheads" since the late sixties so is today any different? Fight the good fight whether you win or not.

I heard just yesterday that there would be a protest to save save the Onion as is. Don't know anything more than that and doubt its ultimate success but at least it's an Old Aspen way to behave. And what great political theater!

See you at the Onion.
