Tim

I didn't know you lived out there. I hope you like it. I've been out there often and think it would be a great place to live. I know he doesn't speak for everyone but what I said needs to be said. Of course, we should have some sort of voice for the homeowners out there. The single family lot owners got together and had a voice and got their concerns aired.

The thing is Mr. Kertz started at volume 10 and needs to be dialed down. The City Council can't intuit these problems and shouldn't be the first place people start anyway.

You know as well as anyone that not only does the city council care about the people out there but that staff does too. Maybe you should be the liason? After all, after we extend paid parking etc. you won't have anything at all to do with your time right?

I'm really excited about doing the extension. You can email me or we can talk about anything out there if you want Tim. Email is better b/c I can then refer to it to remember the issues but you can phone me at 948-9874.

Jack

Jack,

As a resident out there I can assure you that Mr. Kertz does not speak for all of us nor was he asked to. Most people understand why there are delays and that this is a very big project.

I like Diana's idea. Some of us have been out there for almost a year. There have been no meetings to speak of and it may be time to start involving some of the owners as long as the city maintains control and that all ideas are not conflicting with the overall plan.

I can say that some of the hostility is self inflicted and I would be more then glad to discuss that with you in person.

Thanks Tim
