John

I'd like to schedule a long (not over 1 hour, 59 minutes) meeting with you and Amy to discuss listing of post war structures, most likely w/o owners' consent. These would include the Bidwell and the Boomerang.

I don't know how long it will take but I'd like to discuss all aspects of the code, the history of what happened in 2000, the list of the structures. Basically discuss all the code and law parts at once instead of question by question.

Anyone could be present as far as I'm concerned—Sarah, Chris, etc.

Jack
