

Affiliates For Women's Health

FACILITY DISCLOSURE

When receiving medical care ordered or performed by physicians from Affiliates for Women's Health, the area has excellent hospital, laboratory, and imaging facilities. Most times, the choice of facility is based on referral to facilities "in-network" for your specific insurer or PPO network. Since network facilities change from time to time, you are encouraged to verify that the facility you have chosen is "in-network" for your health plan. As always, you may choose an "out-of-network" facility, but the usage may increase your personal expense. Approximately 90 Brazos County physicians (including Dr. Anderson and Dr. Smith) have ownership interest in The Physician's Centre, but alternative "out-of-network" and "in-network" facilities are available if you choose.
