

A MESSAGE FROM NTEU

Take NTEU's Survey and Tell It Like It Is

Here's your chance to share with us the issues and challenges facing you in the workplace on topics such as technology, training, scheduling and morale. This spring when I asked you to consider taking the OPM Federal Employee Viewpoint Survey (FEVS), I decided at that time that NTEU would also conduct its own survey.

I am sending this email to every NTEU member, and asking each of you to [take this survey](#). By completing this survey, you will assist us in identifying what most concerns employees in today's workplace.

[Take our Survey](#)

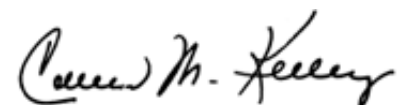

These survey results will assist us in responding to the findings of the FEVS survey which will be released soon, as well as inform and support our efforts on your behalf at the bargaining table, in labor-management forums and other representational efforts.

Armed with our own data, NTEU will be able to fill in the blanks left by the FEVS survey and act on suggestions and concerns communicated by our members. My hope is to identify actionable items that agencies can work with NTEU on that do not take additional appropriations or actions by Congress.

I will also share the survey results with you so that you can compare your concerns with those of your colleagues across government.

The survey only takes a few minutes to complete. Please be sure to take it at home or while you are on a break from work.

Thank you for your support of NTEU and thank you for sharing your views with us.

Colleen M. Kelley
NTEU National President

"...to ensure that every federal employee is treated with dignity and respect."
