

A FINANCIAL SERVICES COMPANY THAT YOU CAN RELY ON.

Solid, Stable and Experienced.

From its formation, MAM Global Financial Services is considered a highly reputable company based on its financial soundness, integrity and client satisfaction.

MAM Global Financial Services
A company with tradition of service that
focuses on client needs first.

When you choose to establish a business relationship with MAM Global Financial Services, you will be offered the service and assistance of a dedicated and experienced financial advisor and the resources and support of an unparalleled financial services company.

Becoming a part of MAM Global Financial Services (MAM GFS) allows you to have access to some of the best financial service specialists known in the field.

Our Financial Advisors, market analyst experts, financial planning, and investment professionals as well as our managers of investment funds, will provide the necessary guidance to help you to reach your goals.

WISDOM AND EXPERIENCE It is not a secret the existence of market cycles moving in conjunction with the fluctuating economies and the underlying industries. A prosperous economy with expanding markets is frequently followed by times of economic recession. Recession can open the path to periods of growth, stability and investment. For the last 125 years we have had our share of rising and falling markets. In every possible scenario we will help you to find the best market opportunities available.

Your Financial Advisor will help you to understand the market dynamics, its history and the appropriate way to locate your assets; this is always with the goal of reaching a balance between your need of financial stability and your wish of investment and income growth. We will also recommend financial and investment strategies based exclusively and only on your goals. This is the way we work at MAM Global Financial Services: We place our client's needs and concerns first, and then we create our corporate culture.

FROM FINANCIAL PLANNING TO LIFE PLANNING For many individuals, all of life's paths will take them in one way or another, to the goals already set for themselves in life.

Here at MAM GFS, we will help you to define and prioritize those goals, and focus our investment and financial strategies directly towards them. We consider this a life planning process which starts today.

A FINANCIAL SERVICES COMPANY THAT YOU CAN RELY ON.

PERSONALIZED FINANCIAL STRATEGIES At MAM Global Financial Services we believe in a personalized approach when it comes to planning your investments. Your Financial Advisor will want to get to know you in detail to understand your interests, goals and concerns. A plan will then be created which will focus on your goals, risk tolerance and financial circumstances (viability). Your Advisor will proceed to implement your plan with regular follow up and feedback.

The following are some of the services that your financial advisor can offer:

- Asset assignment strategies and Portfolio balancing.
- Asset management
- Investment services
- Estate Planning
- Analysis of Investment Portfolios
- Strategies of Risk Management
- Tax Strategies
- Wealth Management services
- Accounts covered by FDIC

LIFE EVENTS ADMINISTRATION Often life events and circumstances can affect and modify our investment and financial strategies.

Among those "life events" we consider:

- Marriage
- Divorce
- Birth of a child or grand child
- Employment loss or changes
- Retirement
- Inheritance
- Disability or the need to go to a nursing home
- The beginning of a new career
- More assistance required for aging parents
- The death of your spouse

Your Financial Advisor can offer the guidance and resources to help you to manage the financial consequences of life events.
