

*Award-Winning Journalist, Author, Speaker*  
Gardening, Farming, Food

[www.StevenBiggs.ca](http://www.StevenBiggs.ca)

*Part horticulturist, part rabid gardener... Steven bundles up the topic into a compelling, engaging, and really fun talk that sends home listeners with inspiration and practical know-how.*

---

## Endorsements

"Steven has been a very popular speaker at my events, with his knowledgeable and at times humorous style." He never lectures; rather he engages the audience and has an easygoing and approachable manner. Steven is a grower and his experiences bring his topics to life. I can't wait to get him back to Niagara!"

*Linda Crago*  
*Tree and Twig Heirloom Vegetable Farm*

"On May 17, 2012 Steve presented his Crops that Wow talk and really did "wow" a full room of very appreciative new and experienced gardeners. Steve was very amusing and approachable so the Q&A went on and on highlighting lots of interesting and useful tidbits. Greens thumbs up Steve!"

*Michelle Bennett, Go Local Food Network*

"Steven's event was one of the highlights of the yearly series of workshops. He is a captivating speaker who engages the audience completely. He inspired us with his expertise and passion!"

*Susan Poizner, Growing for Green*

"Steven Biggs was a very engaging and unique presenter, in all the right ways. His presentation was entertaining, humorous, and educational while remaining very personable. I would love the opportunity to watch him again!"

*Jason Harris, Orr Lake Golf Club*

## Talks Include

### **Brugmansia: Tropical Charmer in the Temperate Garden**

If you could grow only one flower, would this be the one?

### **Edibles in the Urban Landscape**

Have a visually stunning garden and eat it too.

### **Crops that Wow**

Paint the dinner table with an array of unusual garden edibles.

### **Kids in the Garden**

You'll have fun too while you get your kids stoked about gardening.

### **Grow Figs Where You Think You Can't**

Grow figs in a northern climate without a greenhouse.

### **No-Fuss Backyard Fruit**

Forget fussy fruit trees and grow easy, often-overlooked fruit crops.

### **Grow Veg in Small Spaces and Containers**

Grow oodles of veg in small spaces.
