- (2) Any person engaged in the open air cultivation, propagation, or development of genetically engineered papaya, whether prior or subsequent to December 5, 2013, provided that each location or facility wherein open air cultivation, propagation, or development of genetically engineered papaya occurs or will occur is registered as provided in this article.

Notwithstanding any other provision of law, these exemptions shall not allow for open air testing of genetically engineered organisms of any kind.

(2013, Ord. No. 13-121, sec. 3.)

Section 14-132. Emergency exemption.

- (a) A person who is engaged in the cultivation, propagation, or development of a non-genetically engineered crop or plant that is being harmed by a plant pestilence as defined in this article may apply to the council for an emergency exemption from the provisions of this article to use a genetically engineered remedy. The council may grant an emergency exemption by way of resolution, provided the council makes an affirmative finding that:

- (1) The cited plant pestilence is causing substantial harm to that person's crop or plant;
- (2) There is no other available alternative solution; and
- (3) All available measures will be undertaken to insure that non-genetically engineered crops and plants, as well as neighboring properties and any water sources, will be protected from contamination or any other potentially adverse effects that may be caused by the genetically engineered organism or associated pesticides.

- (b) Any exemption granted pursuant to subsection (a) shall include reasonable restrictions and conditions, including, but not limited to, full compliance with the registration requirements of this article and that the exemption shall expire on a certain day occurring within five years from the date of its issuance. Prior to expiration of the exemption, the council may adopt a resolution to extend the exemption for a specified period of time.

(2013, Ord. No. 13-121, sec. 3.)

Section 14-133. Registration.

All contiguous land shall be treated as a single location. The director of the department of research and development, or the director's authorized representative(s), shall administer the registration provision of this section.
- (b) All persons engaged in non-commercial cultivation or propagation of genetically engineered papaya, in any stage or form, shall be exempt from this section. This registration exemption does not exempt persons engaged in research, development, or testing of genetically engineered papaya.
- (c) Pursuant to section 92F-13 of the Hawai'i Revised Statutes, information such as the name of the registrant and the exact location of the genetically engineered crops or plants may be withheld from the public to the extent that disclosure of that detailed information would otherwise frustrate the ability of the County to obtain accurate information.

Section 19-53.1. Valuation of public utilities.

- (a) Notwithstanding any section to the contrary, the director of finance, in determining the market value assessment of the property of the public utilities, may use the values for real property as set forth in the annual financial reports of the public utilities as filed with the Public Utilities Commission, pursuant to chapter 269, Hawai‘i Revised Statutes, as the basis for the director’s assessment, which shall be deemed prima facie correct. Due to the unique nature of the public utility and its equipment, assignment of values to individual tax map keys is not required.
- (b) For the purposes of this section, the following definitions are also adopted:
- (1) “Public utilities” are as defined in section 269-1, Hawai‘i Revised Statutes.
 - (2) “Outside plant” means public utility real property, predominantly production, transmission, collection, switching, and distribution facilities, that may consist of one or more of the following:
 - (A) Units that have physical and functional characteristics that are so similar that they are accounted for as a group or class and are generally installed on easements.
 - (B) Transmission cable, wire or pipes, including support or conduit structures.
 - (C) Substation equipment.
 - (D) Measuring and regulating equipment.
 - (E) Generation equipment.
 - (F) Storage equipment.
 - (G) Switching equipment.
 - (3) “Plant or structure” means public utility real property improvements that are not outside plant, such as buildings, generating stations, production plants, gas compressor stations, boilers, switching plants, dams and reservoirs, circuit equipment, radio systems, terminals, satellite facilities, storage, wells, pumping facilities, and including those items which are included in the outside plant definition above.
 - (4) “Property” is the same as defined in section 19-2.
- (c) Valuations are determined as follows:
- (1) Land. Land values are determined by the market value approach in accordance with section 19-53.
 - (2) Public utility real property generally classed as outside plant, as set forth in section 19-53.1(b)(2), including but not limited to, production, transmission, collection, switching or distribution substation equipment or measuring, regulating, generation, storage or switching equipment or improved property is appraised on the basis of its reproduction cost new less allowances for physical depreciation, functional obsolescence and economic obsolescence, if any. The reproduction cost new is determined by multiplying reported inventory original cost by appropriate price indices and/or by multiplying physical inventories by appropriate unit prices. The rate of depreciation is a function of the appraised property’s age, estimated service life and salvage factor. Such determinations and assessments of fair market value shall be made, to the extent possible, in accordance with the annual financial reports as filed with the Public Utilities Commission pursuant to chapter 269, Hawai‘i Revised Statutes, which shall be deemed prima facie correct. For all lands of public utilities not categorized by section 19-53(a), said improvements shall be taxed at a rate assigned to the industrial classification.
 - (3) Plant; Structure. The value of improvements that are plant or structure as set forth in section 19-53.1(b)(3), including but not limited to, buildings, generating stations, gas compressor stations, switching plants, dams and reservoirs, circuit equipment, radio systems, terminals, satellite facilities, storage, wells, and pumping stations, is determined using the same methodology as is used in appraising outside plant properties.
 - (4) For the purpose of liens and foreclosure, any outside plant property shall be considered a part of any system or plant to which it is a part of and to which a tax map key has been assigned.

As used in section 19-48, in section 19-68 and in section 19-71,* the word “lease” shall be deemed to include a sublease, and the word “lessee” shall be deemed to include a sublessee. (1981, Ord. No. 613, sec. 76; Am. 1997, Ord. No. 97-84, sec. 1; Am. 2004, Ord. No. 04-123, sec. 4.)

* Editor’s Note: Style change made for consistency.

- (1) That such total disability was incurred while on duty as a member of the armed forces of the United States, and that the department of finance may require proof of total disability;
- (2) That the home exemption shall be granted only as long as the veteran claiming exemption remains totally disabled; and
- (3) That a person living on premises, a portion of which is used for commercial purposes, shall not be entitled to an exemption with respect to such portion, but shall be entitled to an exemption with respect to the portion used exclusively as a home; provided, that this exemption shall not apply to any structure, including the land thereunder, which is used for commercial purposes.

For the purposes of this section, the word “home” includes the entire homestead when it is occupied by a qualified totally disabled veteran as a home; houses where the disabled veteran owner sublets not more than one room to a tenant; and premises held under an agreement to purchase the same for a home, where the agreement has been duly entered into and recorded prior to January 1 preceding the tax year for which exemption is claimed, whereby the purchaser agrees to pay all taxes while purchasing the premises.
