FILL THE BOAT AT THE AGM

With the holidays approaching there are always many in need right in our community. With that in mind we will have the club's little sailboat *Seabiscuit* on hand to fill up with clothing, canned goods, and hygiene items to donate to local organizations. When you come to the AGM bring a little something and fill the boat!

CHOOSE YOUR PICTURE

DEADLINE IS FRIDAY, OCT. 28!

It has been a club tradition to give each member of the racing fleets an 8x10 glossy picture of their boat at the annual meeting.

Of course, Trophy winners will have their trophy award imprinted on the picture, too.

To Find Pictures of Your Boat:

-Go to Keith Homan's website:
memoriesarecaptured.smugmug.com/

-Click on a gallery and use "lakefly" as password

-Follow the directions below.

1. **PICTURES BY SAIL NUMBER:** There is a separate folder for each sail number (these are not in numerical order). The folders feature full sized shots of your boat with perhaps 2 or 3 other boats that happened to be nearby. Find your number and click on the folder to see some of your pictures.

2. **CLOSEUPS OF PEOPLE SAILING:** The first folder after the sail number folders is named "People-Sailing." There might be close ups of you or your crew. Click on this folder and browse.

3. **1000+ RACE NIGHT PICTURES:** Finally, there is a folder named Air Show with a picture of jets flying. If you click on this you will see a couple of dozen pictures of a South Korean Air Show followed by more than 1,000 pictures taken on race nights this summer. Click on the folder, scroll past the airshow and browse the contents. Note: the pictures load as you scroll down. Keep on scrolling to see them all.

Picture Quality

If you click on a picture and save it, you will get a thumbnail copy of the photo with about 100 kilobytes of data. If you point the cursor at any picture, you will be able to download a full copy of the photo with roughly 10 megabytes of data. This is a high quality photo file that can be edited to your heart's content on Photoshop, Picasa or any other picture editing software.
