

# Jonah inside the fish

- Cut out the fish, the tail and the paper square with Jonah.
- Fold the fish in order to cut the bottom and sides of the window.
- Straighten out the fish and fold the window up along the dotted line at the top.
- Glue the square of paper with Jonah onto the back of the fish so that he can be seen through the window.
- Use a split pin (paper fastener) to join the tail to the body of the fish.

Make sure the glue is spread only along the edge of the paper!

Glue the square of paper onto the back of the fish
