

ATTENTION

To The People of Texas:

You are invited to attend as a witness and/or participant in **An Assembly of We The People** to review and/or participate in the filing of the Notice to the Hague titled "**Notice of Sovereignty of the People of Texas by the republic of Texas Jural Society and Further Notice of Re-Inhabitation**".

This is a notice to **the People and Nations of the International Community** and will be your chance to be part of an Historical event to begin the restoration of the exercise of the true power of the State of Texas back to the sovereign People of Texas. We are not establishing anything new. The Power of The People has long been established as evidenced in this Nation's and this State's founding documents. However, we are giving notice that as the People of Texas we have never lost that indigenous power bestowed upon us by the Creator and we are free to exercise it.

Several Assembly meetings of We the People of Texas are proposed for various locations and times throughout Texas.

The Texas Assemblies are not a political organization. They are an assembly of We the People wishing to come together as a body politic wishing to restore the rightful exercise of the inherent power of the people, regardless of political affiliations.

So, if you would like to be part of history you are more than welcome to come join us either as a witness or as a participant. A draft copy of the Notification Document to be considered and the attached exhibits are located on The republic State of Texas website <http://www.trsof.org> for review prior to the meetings. Please check for any schedule or location changes prior to the meeting for your area.
