Visiting Stingray City is a once-in-a-lifetime experience. To enjoy it to the max, it helps to go in a small group with expert guides who have intimate knowledge of the rays and their habitat. Ezona and her crew at Ezona's Aquatics have been taking private charters to Stingray City for more than 15 years. Offering full-day and half-day trips, Ezona's Aquatics also offer the flexibility of customized charters out on the North Sound. Their vessel is a beautiful 33' Bertnam called Heavenly Hooker, which is fully-equipped with a restroom, kitchen and complete supply of snorkeling gear and fins.

At Stingray City, Ezona and her crew help you to feel comfortable when swimming with and feeding the rays, while also capturing on film the memories that will last a lifetime. The trip includes snorkelling around the coral reefs, diving for conch (in season) and, on the full-day jaunt, a delicious beach lunch.

For something completely different, you might consider chartering Heavenly Hooker for deep-sea, reef and night fishing trips. Unforgettable!
