

Welcome to the Office of Dr. Sam Van Kirk!

We understand that you have a choice in selecting your healthcare provider and we are pleased that you picked our practice. Our goal is to provide respectful, compassionate, excellent medical care for women throughout our lives. We are committed to the highest medical and ethical standards of our profession. Our goal is to educate you and involve you in decisions about your medical treatment and answer your questions about treatment options and medical risks.

Our practice can help you deal with medical issues unique to women, including: pregnancy, pre-pregnancy counseling, birth control, well-woman visits, colposcopy for abnormal pap smears, premenstrual syndrome, menopause, pelvic prolapse, and both medical and surgical treatments for abnormally heavy periods. We are excited to offer laparoscopic hysterectomies and in-office tubal ligations as well.

Dr. Van Kirk is board certified in Obstetrics and Gynecology. He graduated with a B.A. from the University of California, Santa Barbara and a M.A. from Stanford University. He received his medical degree from the University of Southern California and completed his residency at the Oregon Health Sciences University.

Appointments

Patients are seen during scheduled appointments. Please arrive 10-15 minutes before your appointment time, in order to complete registration and any necessary paperwork. If you are unable to keep your scheduled appointment, please let us know in advance. *We believe that you are our partner in achieving your best possible health and we expect you to reschedule missed appointments to ensure that your health needs are met.* Please note that we charge a “no show” fee of \$25 for patients who fail to make their scheduled appointment time.

Results

For most abnormal results, for lab problems (such as an inadequate specimen) and for results that necessitate further testing, our office will notify you by phone. *If you do not hear from our office by two weeks after tests are performed, please contact us.* Please read our office’s Privacy Policy, and fill out the Authorization to Disclose Health Information form, to let us know how and with whom we may leave messages regarding your health care.

Payment Options

We are contracted with most of the major insurance carriers of Northern California. We will bill all insurance carriers for services rendered, however, all co-payments must be paid at the time of service. If the services rendered are applied toward your deductible, we will bill you after we receive notification from your insurance carrier. All private pay patients must pay at the time service is rendered. Due to the long-term care needed for obstetrics, global obstetric patients will receive a payment plan after their first visit. We accept MasterCard, VISA, personal checks, and cash as forms of payment.

Patient Partnership Plan

Dear Patient,

Welcome to our practice. We intend to provide you with the care and service that you expect and deserve. Achieving your **best possible health** requires a “partnership” between you and your doctor. As our “partner in health,” we ask you to help us in the following ways:

Schedule Visits with My Doctor for Routine Physical Exams and Other Recommended Health Screenings

I understand that my doctor will explain to me which regular health screenings are appropriate for my age, gender, and personal and family history. I understand I will need to complete these recommended health screenings (mammogram, immunizations, pap smears etc). **These health screenings are tests that can help detect life-threatening diseases and conditions.** If I visit my doctor only for treatment of immediate problems and forget to arrange for regular health screenings, I put myself at risk of letting serious health problems go undetected. I will schedule regular visits with my doctor to complete my physical exam and to discuss these health screenings.

Keep Follow-up Appointments and Reschedule Missed Appointments

I understand that my doctor will want to know how my condition progresses after I leave the office. Returning to my doctor on time gives him or her the chance to check my condition and my response to treatment. During a follow-up appointment, my doctor might order tests, refer me to a specialist, prescribe medication, or even discover and treat a serious health condition. If I miss an appointment and don't reschedule, I run the risk that my physician will not be able to detect and treat a serious health condition. I will make every effort to reschedule missed appointments as soon as possible.

Call the Office When I Do Not Hear the Results of Labs and Other Tests

I understand that my physician's goal is to report my lab and test results to me as soon as possible. However, if I do not hear from my physician's office within the time specified, I will call the office for my test results.

Inform My Doctor if I Decide *Not* to Follow His or Her Recommended Treatment Plan

I understand that after examining me, my doctor may make certain recommendations based on what he or she feels is best for my health. This might include prescribing medication, referring me to a specialist, ordering labs and tests, or even asking me to return to the office within a certain period of time. I understand that *not* following my treatment plan can have serious negative effects on my health. I will let my doctor know whenever I decide *not* to follow his or her recommendations so that he or she may fully inform me of any risks associated with my decision to delay or refuse treatment.

Thank you for your partnership. As our patient, you have the right to be informed about your health care. We invite you, **at any time**, to ask questions, report symptoms, or discuss any concerns you may have. If you need more information about your health or condition, please ask.
