\$20 Per Person, Includes workshop & 3 wraps to take home

If you want to kick the single-use disposable plastic habit then homemade beeswax wraps are a great alternative. You can use them in the place of cling wrap to cover food and keep it fresh, plus they're reusable and can easily be refreshed if the wax starts to wear. They can be used for wrapping veggies, sandwiches, baked goods and small snacks or to cover leftovers in the fridge. Come along to a workshop and learn how to make, use and care for beeswax wraps.
