Preschool Summer Camps for 2018

Camp #1 **May 29–June 1** **Creative Scientists:** Have you ever wanted to know how to make snowflakes in the summer? How about how to make hot ice, or learn how to blow up a balloon without using your own air? During our creative scientist week we will use our minds to create fun, and exciting experiments that will ignite our interest in the world of science.

Camp #2 **June 4–8** **It Makes Perfect Sense!:** We will be exploring our senses. What are they? How do they? How do they make us feel? How can they be fun? How can they help us grow?

Camp #3 **June 11–14** **My Friend, the Tree:** How do trees grow? Who lives in trees? How do trees help us? What do we do for trees? Learning about different kinds of trees and where they grow.

Camp #4 **June 18–21** **Machines That Work:** Let's look at simple machines that we use every day. Play and experiment with levers, incline planes, wedges, screws, pulleys, and wheel & axle.

Camp #5 **June 25–28** **Experiment with Balls:** What can we do with a ball? Different kinds of balls. Making balls do different things. Play and explore their properties.

Camp #6 **July 2–3–5–6** **America The Beautiful:** Come and learn about the history of our country and celebrate the best place on Earth. Bring your bike to decorate for our parade the last day.

Camp #7 **July 9–12** **Recycling:** Use it and use it again. Let's see what we can recycle and how to do it. See how we can help our environment. Crafts, games and fun!

Camp #8 **July 16–20** **What's Cooking:** Let's become chefs for a week and be creative in the kitchen. We will learn kitchen safety, nutrition, more independence, all while having a lot of fun.

Camp #9 **July 23–26** **On The Beach:** Fun in the sun, flip flops, splashing in the water, and exploring the beach is the most fun in the summer. We will make our very own sand castles, learn about sea turtles, and make our very own jelly fish in a jar. Lets enjoy some of the fun things we can do at the beach from our very own preschool.

Camp #10 **July 30–Aug 2** **Play and Crafts with Sand:** Everything sand! Play with sand. Crafts with sand. Experiments with sand. Everything sand!
