18th February 2015

As part of our term one integrated curriculum unit - Well Being, the whole school will participate in a St John First Aid in Schools Program session with their class. The students in Grade 4K will participate in their 45 minute session on Monday 23rd February.

The session will be presented by a qualified St John presenter and will educate the students on the importance of First Aid and what to do in the event of an emergency. The focus of the session for Year 4 students is on how to recognise someone is unconscious and how to maintain a clear airway.

The following information will also be addressed

- DRSAB of the DRSABCD Action Plan
- Practical: Recovery Position
- Basic management of bleeding
- Practical: Bandage a bleeding hand
- Management of a nose bleed

The session will take place in your child's classroom in the presence of their classroom teacher. There is no cost for this program and it is expected that all students will participate given the importance of First Aid and its relevance to our integrated curriculum program.

Please contact your child's classroom teacher if you wish to discuss the program further.

Thank you

Keren Barro
Assistant Principal
