

**Issue #13**

**October 2017**

Finally, the cooler weather is arriving! Time to get in the workshop.

We've been working on client projects as well as doing a few new YouTube videos. If you aren't a subscriber to our YouTube channel, we hope you will use this link below and subscribe today as we will be releasing a new video every few days and when you subscribe to our channel "Charles Neil Woodworking" you will receive a notification when we have a new one available. We always post a link on our Facebook page so check in frequently.

Subscribe to our YouTube channel by using this link:

## New on YouTube

In the past 10 days, we have several new YouTube videos. We are excited to bring you new videos on using a router in your workshop. Charles can do ANYTHING with a router, he always says it is the one tool in his shop that he must have. We are starting a series on "Routing with Charles Neil" These videos will show you tips and techniques using a router, and how to use different router bits for different tasks. In conjunction, as a distributor for Whiteside Machine router bits, we will be offering these bits to you and great pricing from our website store! We are in the process of getting all of the woodworking bits Charles recommends in the store but this takes time, so if you visit the store and don't find your bit number, email Sherri at [sherri.cnw@msn.com](mailto:sherri.cnw@msn.com) and she will get it for you. Again, we can bring you these router bits at a great price! [Visit Our Store](#) In the videos, Charles will provide the part numbers for the bits he is using.

### Routing with No Chipping or Tear Out

The above video is the first in our Routing series, but.....more will be coming soon!

More Recent Videos:

Faux Live Edge Slab from Straight Board

Tapering a Pencil Post Bed

## Chamfering a Pencil Post

Router Bit #2310

Reg \$86.77 – Our Price \$66.38

Premium Members receive 10% off Our Special Price

[Click Here to Purchase](#)

*We offer special pricing and Free Shipping.*

**Looking forward to seeing you on Youtube!**

We need your help in keeping the numbers up on videos and social media as this is a number that proposed sponsors of the new PBS show tune in to, and lastly, please take time to watch the ads that play at the beginning of these videos, the revenue is not large, but it does help offset the time and money it takes to produce these videos.

## 2018 Classes

Dates are filling up, so if you are considering a “Made to Order” class with Charles, email Sherri ([sherri.cnw@msn.com](mailto:sherri.cnw@msn.com)) to check dates and put a hold until you can finalize your plans. Below is the summary of how this works.

*Through the years we have done a whole lot of woodworking classes in our workshop. We always run into the same issue, figuring out what project and filling the class so that it offsets the loss of the shop for a week. Sometimes we can't fill a class and other times, there aren't enough spaces. Why? Project isn't right, dates are convenient, etc. etc.*

*So, we have decided to not hold project classes in the near future and try to go another route to still offer woodworkers around the country and world to come and learn with Charles. Ya'll know the saying K.I.S.S. – here is the outline for your opportunity to study and learn from Charles.*

*We have decided to offer Private Instruction, customized to your needs, not ours.*

*We will be booking private 'classes' with Charles beginning October 1, 2017. Our calendar is all set and we are ready for your emails to book your time.*

*Your private class will be customized to what you want to learn about from Charles, woodworking? A specific skill? Need help with starting or finishing a project? Want to finish a project with Charles by your side? Skies the limit. The fee for this opportunity is \$300.00/day (9am to 4pm) per person. Want more than one day? Same price, \$300.00 per day. We know there will be questions so fire away, send us an email and we will answer your questions and get your dates reserved.*

*We feel that this will allow you to work your schedule, time and budget instead of trying to make our classes fit your needs. Again, this will be your time, you tell Charles what you need and he'll make it happen.*

Let us hear from you – [sherri.cnw@msn.com](mailto:sherri.cnw@msn.com)
