Beginning in 2016, adjudicators used a new evaluation form that combines performance rubrics with a three-tiered sliding scale for the purpose of providing more objective evaluations. The evaluation scale is adjusted to accommodate groups at various levels.

Directors have the discretion to determine the classification under which their groups will be evaluated. Please read the descriptors to choose the classification that best fits your ensemble. There is a chart on the back of this page that may also help you. It is acceptable to register multiple groups within the same classification.
