

New Feature: Bandwidth Page

TOTAL VIEW ONE has added a new format when displaying bandwidth information. This page replaces the Users, Applications and Destinations pages.

TOP 10 PIE CHART - displays the top elements for the open TAB.

TIME GRAPH - double click and drag to focus on different times or manually enter times in Filter TAB.

USERS TAB - Displays all users as per filter rules.

APPLICATIONS TAB - Displays all applications as per filter rules.

DESTINATIONS TAB - Displays all destinations as per filter rules.

FILTER TAB - allows you to filter on time, users, applications and destinations. Create multiple filters as needed.

FILTER BUTTON- allows you to add filters quickly to the Filter TAB.

PERFORMANCE BUTTON- Focus on performance statistics.

This NEW FORMAT allows users to access the information they need quickly and easily
