### This is It!

It is 2012! Everybody says it will be the year of change, so it is time to make things happen!

First let us start with some cleaning, organizing and de-cluttering of your office. Create an environment that you love and thrive in; a space that serves, energizes and motivates you daily. Consider using colors that set you on fire and reflect the nature of your enterprise. Express yourself fully and decorate with objects, plants and lighting fixtures that inspire you.

Most of us spend more time in our office than at home, accordingly you want to "set the stage" that ignites your success.

Your next step is to write down your business goals for the New Year. Make sure they are specific and quantifiable. You need to be very clear on your weekly, monthly, quarterly and annual sales goals. Dare to say what you really want! Do think as big as your desires: this is your life and you have the prerogative to be grand and have magnificent ambitions.

Make notes on what you have to do to achieve your goals. There will be some goals that you will know exactly how to manifest and there will be some that you do not. Take a careful and honest look at the items that have been re-surfacing, perhaps year after year.

Contemplate what those unfulfilled business goals cost you emotionally, physically and financially. How would your life be different if you finally manifested those dreams? Would you be happier, exuberant and freer? Would you be healthier, more energetic and headache-free? Would you be able to stop worrying about money and put your kids through college without any problem? See, when people are honest with themselves, they start seeing the painful costs of their neglected goals - they realize that the price is too high to pay!

My business consultant frequently says, "Money is not the most important thing but it touches everything that is." What are you going to do for your business in 2012 that will astound you? For you to have a life that only a few have,

by Klaudia Kovacs

you need to act the way most will not!

If you have goals that you have not manifested, two reasons might be: you did not do the work or you did not know how to do the work. If you truly tried many things to make your enterprise thrive according to your expectations and you could not, it means that you do not know how to do it. So, leave the struggle behind and sign up for the "How to Increase Your Sales" seminar. If you do so, I promise you, Jan. 14, 2012 will be one of the most important days for your business.

I will show you how to turn your business around fast and become a profit-making machine. I will teach you how to start powerful marketing for your business tomorrow. I will share with you a simple system how you can attract new customers. I will demonstrate strategy secrets of creating additional income. Finally get paid what your knowledge and talents deserve! Reach the heights of financial freedom that owning your own business can deliver.

Chamber of Commerce members receive a 75 percent discount from the \$600 cost of the seminar, making the price only \$149. Non-members, but Tehachapi residents, will get 50 percent off and can attend for \$299. Written seminar material will be provided so that you may use it any time later on for your business.

Space is limited, so hurry and sign up here: [www.mysuccessconsultant.com/seminarT](http://www.mysuccessconsultant.com/seminarT)

If you are not 100 percent satisfied with my seminar the first hour, you may leave the event and you will get a full refund, no reason necessary. That is my promise!

I know it sounds hard to believe, but it is true: lives can turn on a dime with just a simple decision. I am confident that signing up today will make this day one that you will remember for the rest of your life!
