INTRODUCTION

FRONTIER PUBLIC SCHOOL'S THREE MAJOR RIGHTS:

1. The students' right to a quality education that is differentiated, individualized, and free from disruption.
2. The educators' right to teach or administrate in a quiet and orderly environment free from verbal or physical intimidation or assault.
3. The parents' right to expect a quality education in a safe and orderly environment.

ACADEMIC LIFE

Absences and Tardies

Students are afforded 8 total absences for each semester. All absences (excused and unexcused) count toward the 8 day total. School sponsored activities will not be counted toward the 8 day policy.

The parent or guardian should contact the principal on the morning of a student's absence. If the principal is not contracted, the office shall attempt to contact the parents of that student. If no contact is made, then upon returning to school, the student must present to the principal a written excuse, signed by his parent or guardian, stating the cause and date of the absence.

Parent notification to the school about their student's absence does not automatically make that absence an excused absence. The reason for the absence must still fall within the guidelines of items 1-5 above.

Absences will be marked for the following reasons:

1. Illness with note from parents
2. Medical and dental appointments with note from parent and/or doctor
3. Death in the immediate family
4. School authorized absence (authorized through principal's office)
5. School sponsored activities*

*See ten day rule policy

Students who miss school because of an excused absence or for a scheduled school activity shall have two school days for each day missed to make up the missed school work. It is Frontier School's policy that **students cannot be absent from a class for any reason (excused or unexcused) more than eight (8) times during a semester. Students 7th grade -**

12th grade who go beyond eight (8) will not receive credit for that class. Students in grades PK - 8th will be required to attend summer school or be retained in their current grade.

Any student and/or parent of a student who does not meet the minimum attendance rule and feels that he or she has extenuating circumstances that explain the absences exceeding this number may request review by the Principal and/or District's attendance committee. See the District's Student Attendance policy for more complete information.

Additionally, after a student's 6th, 7th, and 8th day of absence they will be required to attend Saturday school.

****After missing 20 minutes, student is no longer tardy but considered unexcused absent for that class.****

Students PK-6th grade will be counted absent for the half day if they miss more than one hour of the half day. Missing less than one hour of each half will result in a tardy.
extended school year

In the case of extended illness or injury, principals may make other arrangements to allow the student to make up the missed days.

Grade 5-12: Students are allowed three unexcused tardies **per semester**. Tardies 4-6 will result in after-school detention. Tardies 7-10 will result in Saturday School. Tardies 11 and beyond will result in 3 days of In School Suspension for each tardy.

Three unexcused tardies will count as 1 absence.

GUARDIANSHIP

A parent, legal guardian, or person having legal custody are the only individuals that may enroll a student into an Oklahoma Public School. Students attending Frontier Public Schools as a result of a transfer of guardianship must actually be residing with that guardian on a full-time basis. Oklahoma law requires that guardianship must be issued by a court of law. State law does allow for a power of attorney in certain circumstances within the district.

ACADEMIC LETTER AWARDS

1. Letter awards will be presented to students who meet all of the qualifications of a letterman based on the first and second semester grades for the particular year. At the close of the second semester, grades for that year will be used to determine which students lettered academically.
2. The student's grade point average for the year must be at least 3.25 on a 4 point scale.
3. Lettermen must not have any first or second semester grades lower than a B-.
4. Minor violations of a school policy that result in the student receiving a one day in-school detention on more than one occasion will result in disqualification for a letter award. A single major violation of school policy that results in out-of-school suspension or more than one day in-school detention will result in disqualification also.
5. To be eligible, a student must have received a grade card from Frontier High School for each of the four nine week periods.
6. Academic lettermen will receive their awards during the awards assembly.
7. Anyone caught cheating on tests will not letter.

POINTS AWARDED FOR LETTER GRADES

Grade	GPA	
A	90-100	4.0
B	80-89	3.0
C	70-79	2.0
D	60-69	1.0
F	0-59	no credit

Concurrent enrollment classes will receive an extra .5 added to whatever GPA they receive in that class

ASSEMBLIES

Students will sit in assigned areas according to grade levels (Pre-School through 12th). Class sponsors will assist in monitoring by sitting with their respective classes. Students who cause disruptions will not be allowed to attend one or more future assemblies.

CONCURRENT ENROLLMENT

For information concerning concurrent enrollment as a special student in a college or university in the Oklahoma State System of Higher Education, see the counselor or building principal.

When a student earns college credit through concurrent enrollment, the course will appear on their high school transcript. If they are substituting the college course for a required high school course (Ex: Comp I and II for English IV) then the earned grade must be reported on the transcript. If the college course is not needed for high school graduation, it is listed on the transcript as an elective and it is up to the student to choose if they want the grade to be recorded on the transcript or not. If they grade is used on the transcript, .5 points are added to the grade to reflect the rigor.

TECHNOLOGY CENTER

Each year a limited number of Junior and Senior students may have the opportunity to attend a State Career Technology Center. Students will have the opportunity to go on a tour of the Technology Center and learn about the opportunities available to them. Interested students must complete the necessary applications by the proper deadlines. Once the student completes the application process they will go through an interview process with the Frontier Career Technology Center Selection Committee. The committee will be made up of two Administrators and three teachers. The committee will use the following criteria as a guide for the selection process.

1. Attendance
2. Intent to pursue a job in the field related to program entered
3. Programs pursued that lead to immediate employment after High School
4. GPA
5. ACT Scores
6. Student behavior and discipline records
7. Parental Involvement

The committee has the discretion to use other criteria which they feel would be helpful. Ultimately the committee is trying to determine:

1. Is this the best curriculum for the student?
2. Will the student succeed at the Career Technology Center?

No student will be allowed to drop or add a class after the first two full days of the first semester and the first day of the second semester.

RIGHTS TO RECORDS

FERPA gives parents certain rights with respect to their children's education records. Parents should understand that their rights transfer to the student when he or she reaches the age of 18 or attends a postsecondary school at any age. Students to whom the rights have transferred are "eligible students." FERPA gives parents and eligible students these basic rights:

1. The right to inspect and review the student's education records maintained by the school.
2. The right to request that a school amend the student's education records.
3. The right to consent in writing to the disclosure of personally identifiable information from the student's education record, exempt under certain permitted situations.
4. The right to file a complaint with United States Department of Education regarding an alleged violation under FERPA.
5. The right to receive copies of the school district's policies/ procedures regarding FERPA.

The district proposes to designate the following information personally identifiable information contained in a student's education records as directory information.

Within the first three weeks of each school year, the school district will publish the directory information for the school year. For students enrolling after the notice is published, the list will be given to the student's parents or the eligible student at the time and place of enrollment. Parents or eligible students have two weeks following this publication or notice to advise the school district in writing (a letter to the school superintendent's office) of any or all of the items they refuse to permit the district to designate as directory information about their student.

NOTICE TO PARENTS REGARDING "DIRECTORY INFORMATION"

In 1974, Congress passed the Family Educational Rights and Privacy Act ("FERPA"). This federal law provides that the above information becomes "Directory Information" only if the School District specifically designates the information as "Directory Information". The Board of Education of this School District has stated as a policy that it declines to designate the information as "Directory Information" under FERPA. Therefore, the School District will not provide general public access to the above information to non-employees of the school system. The School District believes that it has a duty to protect the privacy rights of parents and students who expect that personally identifiable information from educational records will not be released to the general public for commercial or on-educational uses.

It has been traditional for the School District to use student names in yearbooks, honor rolls, athletic programs and other school publications. The school district has also provided student names and addresses to institutions of postsecondary education who desire to notify students of educational and scholarship opportunities and to the armed services for recruitment purposes. The School District intends to continue to disclose student information for these and other similar educational purposes. If you desire to withhold the use of information from the educational records of your children for these purposes, please notify as soon as possible.

SCHOOL TESTING PROGRAM

Frontier School participates in the Oklahoma testing program which administers standardized curriculum tests to students each year. The results are used to determine where remediation is needed, where successes have been made, and if any changes need to be made in their teaching strategies. Results can also be used for recommendations for further testing for both the Special Education program and the Gifted and Talented program, and for admission or dismissal in remedial programs. Students who rate the highest in their classes are recognized with awards at the end of each school year. Therefore, it is of the utmost importance that each student put forth their best efforts on these standardized tests and be present every day of the week the testing takes place.

During extracurricular activities, including dances, programs, plays, assemblies, banquets, etc., no one will be allowed to leave the building and re-enter. For paid school sponsored activities open to the public at large, students who leave cannot re-enter.

Students must be in school at least ½ day in order to participate in any school sponsored activity that night. Students must return to school by noon in order to be considered present half a day. Exceptions may be permitted at principal's discretion.

Students enrolled in athletics in grades 7 through 12 will have one week to decide if they wish to remain in that sport, after that period, students must stay in that sport throughout the remainder of that sport's season. If a student decides to quit or is removed for disciplinary action, the student will enroll in a class and not be able to participate in any sports for the remainder of that school year. If a coach and student come to a mutual agreement that the student/team is better off to be removed from the team, the student will go to study hall for that class period until the season is over. The student would then be allowed to participate in the next sport season.

DANCE RULES

1. No one will be allowed to leave the building and re-enter. Once they have entered they must stay or once they leave they may not come back in. If anyone leaves during the dance, they must leave the premises completely.

Guests cannot be over the age of 18.
3. The use, possession, sale, transfer, or being under the influence of controlled dangerous substances, alcoholic or non-alcoholic beverages is prohibited, and anyone violating this rule will be subject to immediate discipline and rules which address said action. Any chaperone of any dance has the authority to refuse entrance to any student or guest and the authority to make any student or guest leave at any time.

4. No one will be admitted after 10 p.m. All dances will end no later than 12 a.m.
5. Middle school dances are to be attended only by Frontier Middle School students.
6. Students attending any high school dance must be in at least the 9th grade.

They also cannot participate in a field trip whenever the trip would require him/her to miss any class other than the one scheduling the field trip. Any student in grades 5-12 who has received Out-of-School Suspension, been disciplined for theft or fighting, or is not in compliance with the attendance policy will not be allowed to go on class trips. ABSENCES RELATED TO SCHOOL ACTIVITIES

The State Board of Education and the Frontier Board of Education encourage students to be in attendance in their regularly scheduled classes so that the maximum learning can occur. Educational programs are built on the foundation of continuity of instruction and participation in the classroom setting. Consistent classroom attendance can assist toward development of strong work habits, responsibility, and self-discipline while also increasing a student's knowledge.

Since, however, the educational merit of the extra-curricular program is recognized, the goal is to maintain a balanced education for each student. It is with the above goals in mind that the following attendance/activities regulations have been established.

School Activity is defined as any extra-curricular activity approved by the school and at the convenience of the school. And supervised by a duly appointed sponsor.

Grades 5-8

Students in Grades 5-8 will be allowed to miss a class period a total of ten (10) times during the school year due to school activities. There will be no exceptions or exemptions regarding this issue. The remainder of this section (SCHOOL ACTIVITY ABSENCES) does not apply to students in Grades 5-8.

Grades 9-12

A student is allowed to miss a class period ten (10) times during the school year due to school activities. Exceptions to this rule are that the student may request from the principal up to but not exceeding five (5) additional activities absences to be approved by the Internal Activities Review Committee.

Students who feel that they need to miss in excess of the ten days shall make a prior written request to the building principal. The request must include: 1. date of request, 2. name and date of activity, 3. location of activity, 4. reason why the student feels an exception should be made, and 5. sponsor of the activity.

This request will be forwarded to Internal Activities Review Committee, which shall be appointed by the superintendent and will be responsible for reviewing and recommending any deviation of the activities policy to the board of education. This committee will ask for ample time to study and make a decision on all requests for review. A student whose request has been denied by the committee will be granted the right of due process. Students wishing to request a hearing before the board of education must initiate their right within 10 days of receiving the denial from the Internal Activities Review Committee. A student forfeits his or her right to a hearing if the request is not made within this ten day time period. The Board of Education reserves the right to revise this policy at their discretion. If the issue is not resolved, the student/parent may file a written complaint with the Accreditation Section of the State Department of Education.

Before a student is given more than 10 days, his/her grades should be considered along with the student's attitude and how he/she has represented Frontier School during other activities.

GENERAL CRITERIA (H.S. ONLY)

The following classifications of school activities will be exempt and will not count against the 10 allowed absences for school sponsored activities.

IN-SCHOOL DETENTION RULES

The purpose of the ISD classroom is to give students the opportunity to continue their education with the assistance of a certified teacher while at the same time removing them from the setting where they have been a disruptive factor in the regular school environment. During this time they will also have the opportunity to improve their behavior and receive counseling as necessary to see that improper behavior(s) do not reoccur. It is the last step prior to being assigned **OUT-OF-SCHOOL SUSPENSION**.

1. The student will go directly to the ISD classroom immediately upon arrival at school. He/she will be dismissed at 3:05 p.m. Each day and must go directly to their bus or vehicle. There will be no loitering in the hallways, cafeteria, etc. No tardies allowed.
2. There will be no disruptive behavior, talking or any other type of communication with other students while in the ISD Classroom.
3. Students will not leave their assigned study carrel at any time unless instructed to do so by the teacher.
4. Students will bring all books and materials necessary to do the assigned work. All items unrelated to school work will be confiscated by the teacher.

On the sixth day, students may be reinstated to participate in after school activities by the Principal and Sponsor. However, this will be decided on a case by case basis. Factors used to make this decision include, but are not limited to, behavior while in ISD, completion of assigned work while in ISD, remorsefulness, and past offenses.
13. Students must also abide by all other rules and regulations set forth by Frontier Public School.
14. Upon completion of the assigned days to In-School Detention classroom, a student will be evaluated as to whether he/she is ready to return to regular classes or should be retained for a longer period of time in the In-School Detention classroom.
15. If a student violates the ISD rules twice, he/she will be SUSPENDED OUT-OF-SCHOOL automatically. The OUT-OF-SCHOOL SUSPENSION may occur earlier at the principal's discretion.

OUT-OF-SCHOOL SUSPENSION

Before recommending out-of-school suspension, we considered alternative in-school placements including, but not limited to, placement in an alternative school setting, reassignment to another classroom, and placement in in-school suspension. We determined that these and other available options were inappropriate for this offense.

I. WHEN A STUDENT IS ASSIGNED OUT-OF-SCHOOL SUSPENSION AS A RESULT OF A NON-VIOLENT INFRACTION, HE/SHE:

1. Will be required to complete daily assignments during the period of suspension.
8. Will be provided the opportunity daily to attend an after-school academic session (3:05 - 4:05) during which assignments for that day are to be turned in, questions about assignments may be asked, and assignments for the next day are to be picked up.
9. **Will not be allowed on school grounds at any time other than during the after-school academic session.**
10. Will not be allowed to participate in school activities.
11. The student will be given an educational plan that will include all classes in which he/she is enrolled.

“GUN-FREE SCHOOLS” STUDENT SUSPENSION POLICY

Any student who is determined to have brought a weapon to school shall be suspended out-of-school for a period of not less than one year. Any out-of-school suspension imposed under this policy may be modified for any student on a case-by-case basis by the chief administrative officer of the school district. For the purposes of this policy, the following definitions shall apply:

1. The term “weapon” means a firearm as such term is defined in Section 921 of Title 18 of the United States Code.
12. The term “chief administrative officer” means the superintendent of schools or the board of education of the district.
13. The term “determined to have brought a weapon to school” means any student being in possession or control of a weapon on property owned, leased, or rented by the school district, including, but not limited to school buildings, parking lots, and motor vehicles and any student who is in possession or control of a weapon at any school district sponsored function regardless of whether such function is conducted on school district property.

Enforcement of this policy shall be consistent with state and federal laws dealing with discipline of students with disabilities. It is the policy of this school district to refer to the appropriate criminal justice or juvenile delinquency system any student who violates this policy. Any out-of-school suspension initiated pursuant to this policy shall be subject to the procedural safeguards set forth in the school district's policy for the out-of-school suspension of students.

THREATS TO HARM OTHERS INCLUDING BULLYING

The School District takes seriously every threat by a student to harm other students, staff members, or other persons. Such threats are not joking matters. In every instance in which a school staff member becomes aware of such a threat, he or she will report the matter to the student's principal, who will conduct an investigation of the threat. The school administration may respond to such threats by imposing any discipline consequence permitted by school policy, including out-of-school suspension, and will alert law enforcement authorities in appropriate cases. (See Appendix)

Any student engaging in sexual harassment is subject to any and all disciplinary action which may be imposed under that school district's discipline procedure. Any student who is or has been subjected to sexual harassment shall report all such incidents to the building principal, counselor, or the superintendent.

STUDENT RELATIONSHIPS

A healthy moral climate is in the best interests of the school and community. All school activities are therefore properly sponsored. During school hours physical contact between students, such as holding hands, pushing, tickling, etc., will not be condoned, and rules of conduct during these hours shall also govern during school sponsored trips and activities. Parents will be notified if students refuse to refrain from such conduct.

LEAVING THE SCHOOL GROUNDS

Students are not to leave the school grounds at any time during the school day regardless of reason without permission from the Principal or Superintendent. Leaving school without administrative permission is a form of truancy.

LOBBY

Before school or during lunch, high school students may go to the inner lobby. They are to stay out of all doorways and refrain from sitting on the floor.

LOCKERS

Each student is assigned a locker, which must be kept neat, clean, and orderly. Each student may purchase their own combination lock, however, the combinations must be turned into the high school office. Students are not to go to their lockers during the noon hour, or be in those hallways at that time. Students are not allowed to change lockers without the approval of the principal. There is no reasonable expectation of privacy with regard to school owned lockers. These are subject to search at any time.

HIGH SCHOOL LOUNGE

Students may take soft drinks and snacks into the lounge but must keep the area clean. Students cannot stand or loiter in the hallway entrances or doorway areas.

CELL PHONES

MIDDLE SCHOOL

Students may bring cellphones to school. However, they must be turned off and kept out of sight upon arrival at school and remain off until the school is dismissed at the end of the day. Students violating this policy will face disciplinary action. With approval, students may use the school phones located in the offices.

HIGH SCHOOL

Cell phones and electronic devices are allowed on school premises and while attending any function sponsored or authorized by the school. This is considered a privilege and not a right. During class, the use of cellphones and/or electronic devices will be up to the teacher's discretion. If students fail to adhere to teachers' or sponsors' individual rules or expectations, appropriate disciplinary action will be taken. Students will not be allowed to use any device for the purpose of recording events during school unless they have the permission of a teacher or administrator. School lockers, desks and other areas of school facilities may be opened and examined by school officials at any time and no reason shall be necessary for such search.

SCHOOL VISITORS *Parents will not be allowed in classroom unless it is for a specific activity.*

Students are not allowed to bring guests to school as visitors or to attend classes. Parents, when invited to attend specific activities may come to school as needed. However, they must first go to the principal's office before going anywhere on the school grounds or in the building. They are to sign in and wear a name tag while in the building and then sign out before leaving.

The following is from the School Laws of Oklahoma 70-24-131: The superintendent or principal of any secondary, middle, or elementary school property may remove someone from school premises when it appears that the presence of such person is a threat to the peaceful conduct of school business and school classes. Any person who refuses to leave the school building or grounds after being ordered to do so by the superintendent or principal, shall be guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not more than five hundred dollars (\$500.00) or by imprisonment in the county jail for not more than 90 days or by both such fine and imprisonment.

MUSIC PLAYERS

All music players devices (such as an MP3 player) are not to be used at school without prior approval from the teacher and building principal.

SCHOOL LAPTOP COMPUTERS

The proper use of technology at Frontier Schools should be an integral and productive part of all students' education. Under certain conditions, students in grades 9-12 may check out a laptop computer from the school for the school year. Some of these conditions include the student's history of previous computer usage and care/carelessness. [Also, the parent must purchase computer insurance through Frontier Public School.] Along with the privilege of using one of the school's laptops goes the responsibility of using it properly and taking care of it in a safe manner. Some (but not all) of the reasons that would result in having laptop usage revoked and the computer returned to the school include: (1) Careless or abusive treatment of the laptop, (2) dropping it, (3) leaving it unattended, (4) putting ripped off downloaded music on it (unless

the music is for a school project and has been approved by the teacher), and (5) other violations of the handbook related to computer usage.

The first offense will involve returning the laptop for 20 school days, and the second would involve the remainder of the school year.

If a laptop is broken through carelessness or abusive treatment and has to be repaired, the parent is responsible for all costs not paid for by the insurance company. In this situation, the laptop will not be returned to the student after it has been repaired.

If a laptop is lost or stolen, the parent/guardian is responsible for the cost of it's replacement.

ASBESTOS ANNUAL NOTIFICATION

The Asbestos Hazard Emergency Response Act of 1986 (AHERA) requires the inspection of all buildings in the school district for asbestos. The district has complied with this act. A management plan documenting these inspections is on file for public review. Upon appointment, you may view the plan located in the administration office.

The Frontier Public School notifies all parents, teachers, and other employees by written notice in the student handbook. Additionally, information regarding any asbestos handout bulletins, flyers and/or using newspaper public notice statements.

The asbestos identified in our management plan will be checked regularly by a licensed asbestos company and by our staff to scrutinize any changes in the material which could cause a health hazard. We will continue to monitor the asbestos as defined by EPA guidelines. If changes occur, our asbestos coordinator will notify the appropriate people as prescribed by law.

FUNDRAISING

State law requires board of education approval before any fundraising activity to take place. A fundraiser approval sheet must be completed and turned into the principal to be given to the Superintendent for board approval. Once the fundraiser has been approved by the board the fundraiser will be placed on the calendar. At the end of the approved fundraiser, a fundraiser worksheet will need to be completed and turned into the principal. Organizations will be allowed to have 1 fundraiser per semester. A request for any additional fundraisers will go through the same process as the first 2.

In determining what a “reasonable person” should recognize as bullying, staff will consider the point of view of the intended target, including any characteristics

C. Types of Bullying

“Physical Bullying” includes harm or threatened harm to another’s body or property, including but not limited to threats, tripping, hitting, pushing, pinching, pulling hair, kicking, biting, starting fights, daring others to fight, stealing or destroying property, extortion, assaults with a weapon, other violent acts, and homicide.

“Emotional Bullying” includes the intentional infliction of harm to another’s self-esteem, including but not limited to insulting or profane remarks or gestures, or harassing and frightening statements.

“Social Bullying” includes harm to another’s group acceptance, including but not limited to gossiping; spreading negative rumors to cause a targeted person to be socially excluded, ridiculed, or otherwise lose status; acts designed to publicly embarrass a targeted person, damage the target’s current relationships, or deprive the target of self-confidence or the respect of peers.

“Sexual Bullying” includes harm of a sexual nature, including but not limited to making unwelcome sexual comments or gestures to or about the targeted person; creating or distributing vulgar, profane or lewd words or images about the target; committing a sexual act at school, including touching private parts of the target’s body; engaging in off-campus dating violence that adversely affects the target’s education opportunities; making threatening sexual statements directed at or about the target; or gossiping about the target’s sexuality or sex life. Such conduct may also constitute sexual harassment which is prohibited by the district.

Understanding and Preventing Bullying

A. Student and Staff Education and Training

A full copy of this policy will be posted on the district’s website and included in all district handbooks. Parents, guardians, community members, and volunteers will be notified of the availability of this policy through the district’s annual written notice of the availability of the district’s anti-bullying policy. Written notice of the policy will also be posted at various places in all district school sites.

Students and staff will be periodically reminded throughout the year of the availability of this policy, the district’s commitment to preventing bullying, and help available for those affected by bullying. Anti-bullying programs will be incorporated into the district’s other violence prevention efforts.

All staff will receive annual training regarding preventing, identifying, reporting, and managing bullying. The district’s bullying coordinator and individuals designated as school site investigators will receive additional training regarding appropriate consequences and remedial action for bullies, helping targets of bullies, and the district’s strategy for counseling and referral for those affected by bullying.

Students will receive annual education regarding behavioral expectations, understanding bullying and its negative effects, disciplinary consequences for infractions, reporting methods, and consequences for those who knowingly make false reports. Parents and guardians may participate in a parent education component.

B. Safe School Committees

Each Safe School Committee has the responsibility of studying and making recommendations regarding unsafe conditions, strategies for students to avoid harm at school, student victimization, crime prevention, school violence, and other issues which interfere with and adversely affect school safety.

With respect to student bullying, each Committee shall assist the board in promoting a positive school climate. The Committee will study the district’s policy and currently accepted bullying prevention programs (available on the state department website) to make recommendations regarding bullying. These recommendations must be submitted to the principal and cover: (i) needed staff development, including how to recognize and avoid bullying; (ii) increasing student and community involvement in addressing bullying, (iii) improving individual student- staff communication, (iv) implementing problem solving teams which include counselors and/or school psychologists, and (v) utilizing behavioral health resources.

Student Reporting

Students are encouraged to inform school personnel if they are the target of or a witness to bullying. To make a report, students should notify a teacher, counselor, or principal. The employee will give the student an official report form, and will help the student complete the form, if needed.

Students may make an anonymous report of bullying, and such report will be investigated as thoroughly as possible. However, it is often difficult to fully investigate claims which are made anonymously and disciplinary action cannot be taken against a bully solely on the basis of an anonymous report.

Staff Reporting

Staff members will encourage students to report bullying. All employees are required to report acts of bullying to the school principal on an official report form. Any staff member who witnesses, hears about, or suspects bullying is required to submit a report.

Bullying Investigators

Each school site will have a designated individual and an alternate to investigate bullying reports. These individuals will be identified in the site's student and staff handbooks, on the district's website, and in the bullying prevention education provided annually to students and staff. The district's anti-bullying program is coordinated at the district level by its bullying coordinator, Bud Valerius

Investigating Bullying Reports

For any alleged incidents of bullying reported to school officials, the designated school official will investigate the alleged incident(s) and determine (i) whether bullying occurred, (ii) the severity of the incident(s), and (iii) the potential for future violence.

In conducting an investigation, the designated official shall interview relevant students and staff and review any documentation of the alleged incident(s). School officials may also work with outside professionals, such as local law enforcement, as deemed appropriate by the investigating official. In the event the investigator believes a criminal act may have been committed or there is a likelihood of violence, the investigator will immediately call local law enforcement and the superintendent.

At the conclusion of the investigation, the designated employee will document the steps taken to review the matter, the conclusions reached and any additional action taken, if applicable. Further, the investigator will notify the district's bullying coordinator that an investigation has occurred and the results of the investigation.

Upon completion of an investigation, the school may recommend that available community mental health care or substance abuse options be provided to a student, if appropriate. The school may provide a student with information about the types of support services available to the student bully, target, and any other students affected by the prohibited behavior. These resources will be provided to any individual who requests such assistance or will be provided if a school official believes the resource might be of assistance to the student/family. The district is not responsible for paying for these services. No school employee is expected to evaluate the appropriateness or the quality of the resource provided, nor is any employee required to provide an exhaustive list of resources available. All school employees will act in good faith.

The school may request the disclosure of information concerning students who have received substance abuse or mental health care (pursuant to the previous paragraph) if that information indicates an explicit threat to the safety of students or school personnel, provided the disclosure of the information does not violate the requirements and provisions of the Family Educational Rights and Privacy Act of 1974, the Health Insurance Portability and Accountability Act of 1996, OKLA. STAT. tit. 12 § 1376, OKLA. STAT. tit. 59 §1376 of the Oklahoma Statutes, or any other state or federal laws regarding the disclosure of confidential information. The school may request the disclosure of information when it is

believed that the student may have posed a danger to him/herself and having such information will allow school officials to determine if it is safe for the student to return to the regular classroom or if alternative education arrangements are needed.

Parental Notification

The assigned investigator will notify the parents of a target within one (1) school day that a bullying report has been received. Within one (1) school day of the conclusion of the investigation, the investigator will provide the parents of a target with the results of the investigation and any community resources deemed appropriate to the situation.

If the report of bullying is substantiated, within one (1) school day of the conclusion of the investigation, the investigator will contact the parents of the bully to discuss disciplinary action and any community resources deemed appropriate to the situation.

The timelines in this parental notification section may be reasonably extended if individual circumstances warrant such an extension.

Parental Responsibilities

All parents/guardians will be informed in writing of the district's program to stop bullying and will be given a copy of this policy upon request. An administrative response to a reported act of bullying may involve certain actions to be taken by parents. Parents will be informed of the program and the means for students to report bullying acts toward them or other students. They will also be told that to help prevent bullying at school they should encourage their children to:

- Report bullying when it occurs;
- Take advantage of opportunities to talk to their children about bullying;
- Inform the school immediately if they think their child is being bullied or is bullying other students;
- Watch for symptoms that their child may be a target of bullying and report those symptoms; and
- Cooperate fully with school personnel in identifying and resolving incidents. Student Transfers

Students who are victims of bullying, and who report the incident(s) to school administrators, may choose to transfer to another school district. Any application for transfer must be made in accordance with the receiving school district's transfer policy.

Monitoring and Compliance

In order to assist the State Department of Education with compliance efforts pursuant to the *School Safety and Bullying Prevention Act*, 70 OKLA. STAT. § 24-100.2 et seq., the district will identify a Bullying Coordinator who will serve as the district contact responsible for providing information to the State Board of Education. The Bullying Coordinator shall maintain updated contact information on file with the State Department of Education and the school district will notify the State Department of Education within fifteen (15) days of the appointment of a new Bullying Coordinator.

A copy of this policy will be submitted to the State Department of Education by December 10th

of each school year as part of the school district's Annual Performance Report.

Appendix B

Title IX / Anti-Harassment Statement

FRONTIER PUBLIC SCHOOLS ANTI-HARASSMENT STATEMENT Harassment and bullying of students and employees are against federal, state and local law and policy, and are not tolerated by the Frontier Public Schools (Frontier). Frontier is committed to providing all students with a safe and civil school environment in which all members of the school community are treated with dignity and respect. To that end, Frontier has in place policies, procedures, and practices that are designed to reduce and eliminate bullying and harassment as well as processes and procedures to deal with incidents of bullying and harassment, should they occur. Bullying and harassment of students by other students, by school employees, and by volunteers who have direct contact with students will not be tolerated in the school or by the school district. Frontier will vigorously enforce its prohibition against discriminatory harassment based on race, color, national origin, sex (including sexual orientation and transgender identity), disability, age (except as authorized by law), religion and gender expression or identity that are protected by Federal civil rights laws, and encourages those within the Frontier community as well as third parties, who feel aggrieved to seek assistance to rectify such problems. Frontier will promptly, impartially and thoroughly investigate all allegations of unlawful harassment and in those cases where unlawful harassment is substantiated, Frontier will take immediate steps to end the harassment, prevent its recurrence, and remedy its effects. This commitment applies to all school operations, programs, and activities. All students, families, administrators, teachers, staff, and all other school personnel share responsibility for avoiding, discouraging, and reporting any form of unlawful harassment. This policy applies to unlawful conduct occurring on school property, or at another location if such conduct occurs during an activity sponsored by Frontier. Students and other members of the Frontier community and third parties are encouraged to promptly report, either verbally or in writing, incidents of harassing conduct to a teacher, administrator, supervisor or other school official so that Frontier may address the conduct before it creates a hostile environment for the affected individual(s). Any teacher, administrator, supervisor, or other district employee or official who receives such a complaint shall promptly file it with the Superintendent or Civil Rights Coordinator. The following individuals have been designated to handle inquiries regarding the Frontier nondiscrimination policies in education-related activities, including but not limited to inquiries related to Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act and the Age Act. Should you wish to file a complaint alleging discrimination of a student or an employee based on disability, age, race, color, religion or national origin, please contact Superintendent Bob Weckstein. If you wish to file a complaint based upon gender, pregnancy, sexual orientation, or gender identity you may contact Frontier Civil Rights Coordinator Daisy Warren.

Title IX resolutions may be resolved informally or formally.

Informal Resolution: When the complainant chooses to move forward with the complaint resolution procedure, the complainant has the option to proceed informally, when permissible. *In cases involving sexual assault, informal resolutions are not appropriate and are never permissible.* If an informal resolution is pursued, the Title IX Coordinator will attempt to facilitate a resolution that is agreeable to the complainant and the respondent. Any informal resolution must adequately address the concerns of the complainant, as well as the rights of the respondent and the overall intent of Frontier Public Schools to stop, remedy, and prevent policy violations. Participation in informal resolution is voluntary, and the complainant and respondent have the option to discontinue the informal process at any time and request a formal investigation. Frontier Public Schools also always has the discretion to initiate a formal investigation. If at any point during the informal resolution process, the complainant or respondent or Frontier Public Schools wishes to cease the informal resolution process and to proceed through the formal resolution process, the informal resolution process will stop and the formal resolution process outlined below will be invoked.

Frontier Public Schools will not require a student who complains of sex discrimination (including sexual harassment) to work out the problem directly with the alleged harasser, including through mediation. Allegations of sexual violence will not be resolved through informal procedures or mediated even on a voluntary basis.

Formal Resolution: If the complaint is not processed or resolved through the Informal Resolution process discussed above, the complaint shall be processed according to the formal complaint resolution procedure:

Investigation: The Title IX Coordinator will designate one or more trained investigators. The investigation will be thorough, impartial, and fair, and all individuals will be treated with appropriate sensitivity and respect. The investigation will be conducted in a manner that is respectful of individual privacy concerns. The investigation will typically include interviews with the complainant, the respondent, and any witnesses; these interviews may be audio-recorded, and written statements may be requested. As part of the investigation, Frontier Public Schools will provide an opportunity for both the complainant and respondent to advise the investigator(s) of any witnesses they believe should be interviewed, and other evidence they believe should be reviewed by the investigator(s). The interviews will be supplemented by the gathering of any physical, documentary, or other evidence, as appropriate and available. At the conclusion of the investigation, the investigator(s) may prepare a report setting forth the facts gathered. The investigator(s) will compile an investigation file, which shall consist of any information, documents, recordings, or other evidence that will be provided to the adjudicators. The investigation file will be forwarded to the Title IX Coordinator for review and has the discretion to ask the investigator(s) for clarification, additional investigation, and/or to have information removed or redacted from the investigation report.

The Title IX coordinator will provide written notice of the determination of the investigation to both parties involved. Both parties will be given equal opportunity to present evidence and witnesses. Both parties shall receive periodic status updates on the investigation. Upon conclusion of the investigation, both parties are entitled to an appeal. Requests for appeals must be submitted in writing within 3 business days receipt of written notification of the determination of the investigation to Bob Weckstein (see contact information below), the appeals designee. The appeal process will be conducted in an impartial manner with written appeal determinations issued to both parties. If an appeal is received prior to close of the

third business day following the issuance of the determination of the investigation, the appeal process will be initiated and concluded within 2 business days. Both parties will be receive written notification of the determination of the appeal. All appeal decisions are final. If no request for appeal is received within 3 business days following written notification of the outcome of an investigation, the decision is final and cannot be appealed.

Frontier Public School District is committed to conducting adequate, reliable, and impartial investigations of reported incidents and the maintaining effective standards for determining whether a hostile environment exists. Frontier Public School District uses in its investigations a preponderance of the evidence of standard of review, meaning that it is more likely than not that sex discrimination, including sexual harassment, occurred. In determining whether sex discrimination against a student resulted in a sexually hostile environment, the District will consider the conduct in question from both a subjective and objective perspective.

Frontier Public School District employees are all “responsible employees“ and have the responsibility to intervene to stop the harassment (unless circumstances would make such intervention dangerous) and report all incidents of sex discrimination (including sexual harassment) to the Title IX coordinator.

NONDISCRIMINATION There will be no discrimination in the Frontier Public Schools because of race, color, sex, pregnancy, gender, gender expression or identity, national origin, religion, disability, veteran status, sexual orientation, age, or genetic information in its programs, services, activities and employment. The district also provides equal access to the Boy Scouts of America and other designated youth groups. The following people have been designated to handle inquiries regarding the District’s nondiscrimination policies:

Title VI of the Civil Rights Act Coordinator (for questions or complaints based on race, color and national origin)

DISCRIMINATION, HARASSMENT, AND RETALIATION

The school district is committed to providing all students and employees with a safe and respectful school environment. Both state and federal law specifically prohibit harassment of or by employees and students in connection with the district. The district prohibits discrimination, harassment or retaliation based on real or perceived race, color, sex, pregnancy, gender, gender identity or expression, national origin, religion, disability, veteran status, sexual orientation, age, or genetic information. This prohibition applies to students, employees and board members in any aspect of the district's programs, including during school hours, extracurricular activities, school sponsored events, or outside of school hours if the conduct affects the education or working environment. Definitions "Employee" for purposes of this policy, includes all district employees, board members and volunteers. "Student" refers to any person who is enrolled in any district school or program. "Discrimination" means unfair treatment which is based on a person's real or perceived race, color, sex, pregnancy, gender, gender identity or expression, national origin, religion, disability, veteran status, sexual orientation, age, or genetic information. Examples of discrimination include, but are not limited to: Refusing to consider a person for a position or declining to enroll a student in a program based on legally discriminatory factors. Harassment can be a specific form of legally prohibited discrimination. "Harassment" means repetitive, unwelcome conduct which is based on a person's real or perceived race, color, sex, pregnancy, gender, gender identity or expression, national origin, religion, disability, veteran status, sexual orientation, age, or genetic information. Examples of harassment include, but are not limited to: slurs, epithets, insults, jokes or derogatory comments; verbal or physical abuse; intimidation (physical, verbal or psychological); impeding or blocking a person's movement; unwelcome touching, crude jokes or pictures, discussions of sexual experiences, teasing related to sexual characteristics, pressure for sexual activity whether written, verbal or through physical

gestures, display or sending of pornographic pictures or objects, obscene graffiti, and spreading rumors related to a person's alleged sexual activities. Demeaning comments about a student's ability to excel in a class historically considered a "boy's" or a "girl's" subject may also constitute harassment. "Sexual harassment" is a type of harassment which includes unwelcome sexual advances, requests for sexual favors, or other verbal or physical conduct of a sexual nature which: is made an explicit or implicit term or condition of an employee's employment or a student's ability to obtain an education; or is used as a basis for decisions impacting either an employee's employment or a student's education; or has the purpose or effect of unreasonably or substantially interfering with an employee's work performance or a student's educational performance, or creating an intimidating, hostile, or offensive environment. In order to constitute sexual harassment, the conduct at issue must be unwelcome. Sexual conduct between minor students and employees will always be considered unwelcome. Sexual harassment also includes conduct such as rape, sexual assault, stalking, and any other form of sexual violence. Sexual harassment may occur between persons of the same gender or sex. Nothing in this policy precludes legitimate, nonsexual physical contact to avoid physical harm to persons or property. "Retaliation" is any negative conduct which is taken in response to an individual's complaint of harassment or discrimination, or participation in any investigation of a harassment or discrimination complaint.

Reporting

Students who have been harassed or discriminated against, or who witness such conduct, are encouraged to report the offensive conduct to any teacher, counselor, administrator, or board member. Employees who witness, suspect or receive a report of harassment or discrimination must immediately report the incident to the superintendent or a board member – even if that report must be made after hours to the superintendent or board member's home or cell phone. Any employee who receives a harassment, discrimination or retaliation report will immediately refer the matter to the superintendent or the Title IX coordinator, unless the superintendent or Title IX coordinator is the alleged malfeasant. In such circumstances, the complaint will be referred to the board president or the district's legal counsel. To ensure impartiality, no person who is the subject of a complaint shall conduct any investigation into the improper conduct. If possible, reports should be made in person and/or in writing, and be signed by the reporting party. However, in order to encourage full, complete and immediate reporting, any person may report such incidents anonymously in writing by mailing the report to the personal attention of either the superintendent or a board member. All reports should state: the name of the alleged harasser; the person(s) being harassed; the nature, context and extent of the prohibited activity; the dates of the prohibited activity, and; any other information necessary to a full report and investigation of the matter. Any employee who is subjected to job related sexual harassment is entitled to protection under Title VII of the Civil Rights Act of 1964 and the Oklahoma Anti-Discrimination Act. Individuals may simultaneously report an allegation of this type of misconduct to school officials and to the United States Equal Employment Opportunity Commission, the Oklahoma Human Rights Commission, or local law enforcement.

Administrative Response

The district will promptly, thoroughly and impartially investigate all reports of harassment and discrimination. This process will include: A statement from the individual who was allegedly harassed; Appropriate and reasonable steps to separate and protect the alleged victim pending conclusion of the investigation and necessary remedial action; Reasonable updates to the alleged victim of the

investigation's progress, subject to federal and state laws and regulations; Interviews with the alleged harasser, alleged victim and witnesses; and Review of relevant documents, including district files and records. The district will review all relevant facts and take into account the totality of the circumstances - including the nature, extent, context and gravity of the activities. At the conclusion of this process, the superintendent, in conjunction with the Title IX coordinator, will issue findings based on the preponderance of the evidence and take appropriate measures, including but not limited to: education, information on available outside resources, training and counseling, transfer, suspension, and any other appropriate remedy under the circumstances. Employees may also be terminated for engaging in harassment, discrimination or retaliation. Confidentiality shall be maintained during and after the investigation to the extent reasonably possible. However, public disclosure of personal or confidential employee information may be made during the course of any suspension, dismissal, non renewal hearing or resulting litigation.

Penalties

Penalties shall be imposed based on the facts taken as a whole and the totality of the circumstances such as the nature, extent, context and gravity of such activities or incidents. Any employee or student engaging in harassment, discrimination or retaliation will be subject to any and all disciplinary action allowed by school policy and Oklahoma law.

GRIEVANCE PROCEDURE FOR FILING, PROCESSING AND RESOLVING COMPLAINTS ALLEGING DISCRIMINATION, HARASSMENT, AND RETALIATION

Definitions

Complaint: A verbal or written complaint alleging any action, policy, procedure or practice that discriminates on the basis race, color, sex, pregnancy, gender, gender expression or identity, national origin, religion, disability, veteran status, sexual orientation, age, or genetic information (including harassment and retaliation). The Coordinator under Title VI, IX, Section 504/Title II and the Age Act is responsible for processing complaints and serves as moderator and recorder during hearings. The Coordinator of each statutory scheme may be the same person or different persons, but each coordinator will receive relevant training in order to perform his/her duties.

Section 504/Title II Coordinator (for questions or complaints based on disability concerning employees, patrons and other adults)

Title VI Coordinators (for questions or complaints based on race, color and national origin)

Title IX Coordinators (for questions or complaints based on sex, pregnancy, gender, gender expression or identity)

Daisy Warren, Special Education Director
Frontier Public Schools P.O. Box 130
Red Rock, OK 74651-0130

Any individual, who has experienced some other form of discrimination, including discrimination not listed above, may contact:

Bob Weckstein, Superintendent
Frontier Public Schools
P.O. Box 130
Red Rock, OK 74651-0130
580-723-4361

Respondent: The person alleged to be responsible for the alleged discrimination contained in a complaint. The term may be used to designate persons with responsibility for a particular action or those persons with supervisory responsibility for procedures and policies in those areas covered in the complaint.

Day: Day means a working day when the District's main administrative offices are open. The calculation of days in complaint processing shall exclude Saturdays, Sundays and legal holidays.

Filing, Investigation, Hearing and Review Procedures The Grievant submits a written or verbal complaint to one of the Coordinators, as applicable, stating the basis, nature and date of the alleged discrimination, harassment, or retaliation, the names of persons responsible (where known) and requested action. If the applicable Coordinator is the person alleged to have committed the discriminatory act(s), then the complaint should be submitted to the Superintendent for assignment. Complaint forms are available from the offices of the District's Coordinators. The Coordinator conducts a complete and impartial investigation within 10 days of receiving the complaint, to the extent reasonably possible, which shall include but not be limited to, interviewing the Grievant and any witnesses, review of documents and interviewing the Respondent. The Coordinator will ask the Respondent to (a) confirm or deny facts; (b) indicate acceptance or rejection of the Grievant requested action; and (c) outline alternatives. The Coordinator will not delay the investigation of the discrimination complaint, even if an outside entity or law enforcement agency is investigating a complaint involving the same facts and allegations, and the Coordinator will not wait for the conclusion or outcome of a criminal investigation or proceeding to begin an investigation required by the district's grievance policy. As to complaints of discrimination by students, parents or guardians and school employees, the Coordinator will disclose the complaint, the identity of the Grievant and information regarding the person who allegedly committed the discriminatory act only to the extent necessary to fully investigate the complaint and only when the disclosure is required

or permitted by law. If a Grievant wishes to remain anonymous, the Coordinator will advise him or her that such confidentiality may limit the District's ability to fully respond to the complaint. If a Grievant asks to remain anonymous, the Coordinator will still proceed with the investigation. Within 5 days after completing the investigation, the applicable coordinator will issue a written decision to the Grievant and Respondent. The report will include (a) a summary of facts, (b) an analysis of the appropriate legal standards applied to the facts, and (c) findings regarding whether the alleged discrimination occurred. If a finding is made that discrimination occurred, the Coordinator's report shall also contain (a) recommended interim and permanent steps, including examples of the range of possible disciplinary sanctions and remedies available to address the discriminatory effects on the grievant and other, necessary to eliminate the discrimination, prevent its reoccurrence, and remedy its effects, as well as (b) the resources, including medical and counseling resources, that are available to students and witnesses. The decision will be based on a preponderance of evidence standard (i.e., it is more likely than not that the alleged discrimination occurred). If the Grievant or Respondent is not satisfied with the decision, he or she must notify the applicable Coordinator, in writing, within 5 days and request an appeal to the Superintendent. The written appeal shall contain a specific statement explaining the basis for the appeal.

Within 5 days after receiving the appeal request, the applicable Coordinator will refer the matter to the Superintendent for a hearing. At the hearing and as far as practicable, efforts should be made to prevent the Grievant and Respondent from personally questioning and cross-examining each other. Additionally, the Grievant and Respondent will be afforded similar rights (i.e., timely access to information that will be used at the hearing, opportunity to present his or her side of the story, presentation of character witnesses, review of party statements). If the superintendent is the person alleged to have committed the discriminatory act(s), then a different decision maker will be appointed to maintain impartiality. The Coordinator will schedule the hearing with the Grievant, the Respondent and the Superintendent. The hearing will be conducted within 10 days after the Coordinator refers the matter to the Superintendent for hearing. The superintendent will review the information collected through the investigation and may ask for additional oral or written evidence from the parties and any other individual he or she deems relevant. The applicable Coordinator will make arrangements to audiotape any oral evidence presented. In circumstances involving allegations of sexual harassment, the Coordinator may determine that it is appropriate and reasonable to separate the individual who is allegedly being sexually harassed from the alleged harasser in the hearing.

Within 5 days after completing the investigation the superintendent will issue a written decision to the Grievant and Respondent. If the Grievant or Respondent is not happy with the decision, he or she must notify the Superintendent, in writing, within 5 days, and request an appeal to the Board of Education. The written appeal shall contain a specific statement explaining the basis of the appeal. The Superintendent will notify the Board of Education, in writing, within 5 days after receiving the appeal. The clerk will place the appeal on a board agenda within 30 days from the date of notification to the Board of Education. The Board will act as an appellate body by reviewing the decisions and the oral and written evidence presented below and making a decision. At the board meeting, the Board may ask for oral or written evidence from the parties and any other individual it deems relevant. The clerk will make arrangements to audiotape any oral evidence presented. Within 5 days of the meeting, the Board will issue a final decision in writing to all parties involved.

General Provisions: Duty of District Employees to Report Alleged Discrimination: District employees, supervisors and administrators are required to immediately report any complaints, reports, observations,

or other alleged information of alleged discrimination, including harassment and retaliation, to the designated coordinator, even if that district employee is investigating the alleged discrimination as part of the district's student or employee disciplinary process, and provide the Complainant with information for filing a complaint form if requested, and contact information for the district's designated coordinator. If the district is using its disciplinary procedures to investigate and resolve an alleged discrimination complaint, those disciplinary procedures will comply with the district's standards for a prompt and equitable grievance procedure.

Extension of Time: Any time limits set by these procedures may be extended by mutual consent of the parties involved. The total number of days from the date the complaint is filed until the Board of Education issues a final decision shall be no more than 120 days.

Access to Regulations: Upon request, the Coordinator shall provide copies of any regulations prohibiting discrimination on the basis of race, color, sex, pregnancy, gender, gender expression or identity, national origin, religion, disability, veteran status, sexual orientation, age, or genetic information.

Confidentiality of Records: Complaint records will remain confidential, to the extent allowed by law, unless permission is given by the parties involved to release such information. All complaint records will be kept separate from any other records of the District. No complaint record shall be entered in any personnel file unless adverse employment action is taken against an employee. Complaint records shall be maintained on file for three years after complaint resolution.

Representation: The Grievant and the Respondent may have a representative assist them through the grievance process and accompany them to any hearing.

Corrective Action: After all facts and circumstances are reviewed, the district shall take any and all disciplinary actions to prevent further harassment or discrimination. Possible disciplinary or remedial actions include, but are not limited to: education, training and counseling, transfer, and/or suspension of a student, and education, training, counseling, transfer, suspension and/or termination of an employee.

Retaliation: The District prohibits retaliation, intimidation, threats, or coercion of any person for opposing discrimination or for participating in the District's discrimination complaint process or making a complaint, testifying, assisting, appealing, or participating in any other discrimination complaint proceeding or hearing. The District will take steps to prevent the alleged perpetrator or anyone else at the District from retaliating against the alleged victim or any person who acts to oppose discrimination or participates in the complaint process. These steps include notifying students and employees that they are protected from retaliation, making sure that victims know how to report future problems and making follow up inquiries to see if there have been any new incidents. If retaliation occurs, the District will take strong responsive action.

APPENDIX C

DRUG TESTING POLICY

The Board of Education of the Frontier School District (the "School District"), in order to protect the health and safety of students participating in extracurricular activities and to educate and direct students participating in extracurricular activities away from drug and alcohol use and abuse, thereby setting an example for all other students of the School District, adopts the following Policy for testing of students participating in extracurricular activities for the use of illegal drugs, alcohol and performance enhancing drugs.

STATEMENT OF PURPOSE AND INTENT

1. It is the desire of the Board of Education, administration and staff that every student in the School District refrain from using or possessing alcohol and illegal or performance enhancing drugs. Notwithstanding this desire, the administration and board of education realize that their power to restrict the possession or use of alcohol and illegal or performance enhancing drugs is limited. Therefore, except as provided below, the sanctions of this Policy relate solely to limiting the opportunity of any student determined to be in violation of this Policy to participate in extracurricular activities. This Policy is intended to supplement and complement all other policies, rules and regulations of the School District regarding possession or use of alcohol and illegal or performance enhancing drugs.

2. Participation in school-sponsored extracurricular activities at the School District is a privilege, not a right. Students who participate in these activities are respected by the student body and are expected to conduct themselves as good examples of behavior, sportsmanship and training. Accordingly, students who participate in extracurricular activities carry a responsibility to themselves, their fellow students, their parents and their school to set the highest possible example of conduct, which includes avoiding the use or possession of alcohol and illegal or performance enhancing drugs.

3. The purpose of this Policy is to prevent alcohol and illegal or performance enhancing drug use, to educate students who participate in extracurricular activities as to the serious physical, mental and emotional harm caused by alcohol and illegal or performance enhancing drug use, to alert students participating in extracurricular activities who have possible substance abuse problems to the potential harms of use, to prevent injury, illness and harm as a result of alcohol and illegal or performance enhancing drug use, and to strive within the School District for an environment free of alcohol and illegal or performance enhancing drug possession and use. This Policy is not intended to be disciplinary or punitive in nature. The sanctions of this Policy relate solely to limiting the opportunity of any student who participates in extracurricular activities and who is found to be in violation of the Policy to participate in extracurricular activities. There will be no academic sanction solely for a violation of this Policy. **Notwithstanding the foregoing, a student may be disciplined, including suspended out of school, if a violation of this policy also results in a violation of the School District's Student Behavior Policy.**

PARTICIPATION AND PROCEDURES

1. Alcohol and illegal or performance enhancing drug possession or use is incompatible with participation in extracurricular activities on behalf of the School District. For the safety, health and well being of the student extracurricular activity participants of the School District, the School District has adopted this Policy for use by all participating students at the 7th-12th grade level. Any student found to be in possession of, or having used alcohol or illegal or performance enhancing drugs, either by observation or drug or alcohol use test, will be considered to have violated this Policy.

2. Each student extracurricular activity participant shall be provided with a copy of this Policy and the "Student Extracurricular Activity Participant Alcohol and Illegal or Performance Enhancing Drugs Contract (the "Contract") which shall be read, signed and dated by the student, parent or custodial guardian and a coach/sponsor before such student shall be eligible to practice or participate in any extracurricular activity. No student shall be allowed to practice or participate in any extracurricular activity unless the student has returned the properly signed Contract.

3. The principal and sponsor, or, in the case of student athletes only, the athletic director and applicable coach, shall be responsible for determining whether a violation of this Policy has occurred when an observation of possession or use of alcohol or illegal drug by a student extracurricular activity participant has been reported. If a violation of the Policy is determined to have occurred by a student extracurricular activities participant other than a student athlete, the principal will contact the student, the sponsor, and the parent or custodial guardian of the student and schedule a conference. If a violation of the Policy is determined to have occurred by a student athlete, the athletic director will contact the student, the sponsor or head coach, the applicable principal, and the parent or custodial guardian of the student and schedule a conference. At the conference, the violation of the Policy will be described and the restrictions explained.

4. The Contract for alcohol and illegal or performance enhancing drug and/or alcohol use testing shall be for all students in extracurricular activities to provide a urine sample: a) within the first two (2) weeks of the start of the school year; b) as chosen by the random selection basis; and c) at any time a student extracurricular activities participant is requested by the principal or athletic director or by the sponsor or coach, based on reasonable suspicion, to be tested for alcohol and illegal or performance enhancing drugs.

5. All student extracurricular activities participants shall be required to provide a urine sample for drug use testing for illegal drugs as part of the annual physical examination for student athletes and within the first two (2) weeks of the start of the school year. Student athletes who have physical examinations performed by their personal physicians must nonetheless sign the Contract and comply with all Policy requirements.

6. Drug and/or alcohol use testing for student extracurricular activities participants will also be chosen on a random selection basis weekly/monthly from a list of all student participants. The School District will determine a weekly/ monthly number of student names to be drawn at random to provide a urine sample for drug and/or alcohol use testing for alcohol and/or illegal or performance enhancing drugs.

7. In addition to the drug and alcohol use tests required by paragraphs 4, 5 and 6, any student extracurricular activities participant may be required to submit to a drug and/or alcohol use test for alcohol or illegal or performance enhancing drugs or the metabolites thereof at any time upon reasonable suspicion.

8. Any alcohol or drug use test required by the School District under the terms of this Policy will be administered by or at the direction of a professional laboratory chosen by the School District using scientifically validated toxicological methods. The professional laboratory shall be required to have detailed written specifications to assure chain of custody of the specimens, proper laboratory control and scientific testing.

9. All aspects of the alcohol or drug use testing program, including the taking of specimens, will be conducted so as to safeguard the personal and privacy rights of the student extracurricular activities participants to the maximum degree possible. There will be a one hour time limit to complete the random drug test, beginning at the time the student receives the specimen cup. The test specimen shall be obtained in a manner designed to minimize intrusiveness of the procedure. In particular, the specimen must be collected in a restroom or other private facility behind a closed stall. The principal or athletic director shall designate a sponsor or coach or other adult person of the same sex as the student to accompany the student to a restroom or other private facility behind a closed stall. The monitor shall not observe the student while the specimen is being produced, but the monitor shall be present outside the stall to listen for the normal sounds of urination in order to guard against tampered specimens and to insure an accurate chain of custody. The monitor shall verify the normal warmth and appearance of the specimen. If at any time during the testing procedure the monitor has reason to believe or suspect that a student is tampering with the specimen, the monitor may stop the procedure and inform the principal or athletic director who will then determine if a new sample should be obtained. If a student is determined to have tampered with any specimen or otherwise engaged in any conduct that disrupts the testing process of any student, then the student will be deemed to have committed a second offense under this Policy and the sanctions for a second offense will be imposed. The monitor shall give each student a form on which the student may list any medications he/she has taken or any other legitimate reasons for having been in contact with illegal drugs or performance enhancing drugs in the preceding thirty (30) days. The medication list may be submitted to the lab in a sealed and confidential envelope.

10. If an initial drug use test is positive, the initial test result will be subject to confirmation by a second and different test of the same specimen. The second test will use an equivalent scientifically accepted method of equal or greater accuracy. A specimen shall not be reported positive unless the second test is positive for the presence of an illegal drug or performance enhancing drug or the metabolites thereof. If an initial alcohol use test is positive for the

presence of alcohol, the initial test result will be subject to confirmation by a second test using any scientifically accepted method. The unused portion, if any, of a specimen that tested positive for alcohol or illegal or performance enhancing drugs shall be preserved by the laboratory for a period of six (6) months.

11. If the alcohol or drug use test for any student extracurricular activities participant has a positive result, the laboratory will contact the principal or the athletic director with the results. In the case of student extracurricular activities participants who are not athletes, the principal will contact the student, the sponsor, and the parent or custodial guardian of the student and schedule a conference. In the case of student athletes, the athletic director will contact the student, the sponsor or head coach, the applicable principal, and the parent or custodial guardian of the student and schedule a conference. At the conference, the principal or the athletic director will solicit any explanation for the positive result and ask for doctor prescriptions of any drugs that the student was taking that might have affected the outcome of the alcohol or drug use test. If the student and his/her parent or custodial guardian desire another test of the remaining portion, if any, of the specimen, the principal or athletic director will arrange for another test at the same laboratory or at another laboratory agreeable to the principal or athletic director. Any such re test shall be at the expense of the student and his/her parent or custodial guardian.

12. If the student extracurricular activities participant asserts that the positive test results are caused by other than consumption of alcohol or an illegal or performance enhancing drug by the student, then the student will be given an opportunity to present evidence of such to the principal or to the athletic director. The School District will rely on the opinion of the original laboratory that performed the test in determining whether the positive test result was produced by other than consumption of alcohol or an illegal or performance enhancing drug.

13. A student who has been determined by the principal or the athletic director to be in violation of this Policy shall have the right to appeal the decision to the superintendent or his/her designee(s). Such appeal must be lodged within five (5) business days of notice of the initial report of the offense, during which time the student will remain ineligible to participate in any extracurricular activities. The superintendent or his/her designee(s) shall then determine whether the original finding was justified. There is no further appeal right from the superintendent's decision and his/her decision shall be conclusive in all respects. Any necessary interpretation or application of this Policy shall be the sole and exclusive judgment and discretion of the superintendent which shall be final and non-appealable.

14. Before a student extracurricular activities participant who has tested positive in an alcohol or drug use test may rejoin his/her extracurricular activity after a first or second offense, such student may be required to undergo one or more additional alcohol or drug use tests to determine whether the student is no longer using alcohol or illegal or performance enhancing drugs. The School District will rely on the opinion of the laboratory which performed or analyzed the additional alcohol or drug use test in determining whether a positive result in the additional alcohol or drug use test was produced by alcohol or illegal or performance enhancing drugs used by the student before the offense or by more recent use.

15. All documents created pursuant to this Policy with regard to any student will be kept in a confidential folder and will never be made a part of the student's cumulative folder nor be considered a "disciplinary" record.

VIOLATION

Any student who is determined by observation or by alcohol or drug use tests to have violated this Policy shall be subject to the loss of the privilege to participate in extracurricular activities and offered educational and support assistance to stop using.

These restrictions and requirements shall begin immediately following the determination of an observed violation or the repealing of the results of a positive alcohol or drug use test. Such suspension will extend into a succeeding competition season if necessary to fulfill the suspension.

Prior to participating in any additional extracurricular activities, students are required to participate in a minimum of ten (10) hours of substance abuse counseling provided either through the district or an outside agency approved by the district. A parent or guardian must participate in at least two (2) of those hours. Students will also be re-tested twice in the first month after returning from suspension and one time per month thereafter for the remainder of the school year.

For the Second Offense during grades 9-12: Complete suspension from participation in all extracurricular activities including all meetings, practices, performances and competition for eighteen (18) continuous and successive school weeks from the date of the determination of a violation or the reporting of the results of a positive alcohol or drug use test under this Policy. Such suspension will extend into a succeeding school year if necessary to fulfill the suspension. Prior to participating in any additional extracurricular activities, students are required to participate in a minimum of five (5) hours of substance abuse counseling provided either through the district or an outside agency approved by the district. Students will also be re-tested twice in the first month after returning from suspension and one time per month thereafter for the remainder of the school year.

For the Third Offense during grades 9-12: The student will be ineligible to participate in any extracurricular activities in High School.

7th and 8th grade students will follow the same violation consequences as listed above. On the third offense they will be ineligible for all extracurricular activities during their 7th and 8th grade years. Once they start 9th grade all previous violations will be removed.
