PRESS RELEASE - FOR IMMEDIATE RELEASE

URAC Wins 2016 WfMC Global Case Management Excellence Award

*Leader in Promotion of Health Care Quality Recognized for Implementation
of AINS' eCase® Platform Modernizing Accreditation Review Services*

Gaithersburg, MD, July 6, 2016 — [AINS, Inc.](#), a leading global provider of cloud-based, adaptive case management solutions, congratulates [URAC](#) for receiving a 2016 [Global Case Management Excellence Award](#) from the Workflow Management Coalition (WfMC). The award highlights the best examples of case management technology and business practice innovation in supporting knowledge workers.

URAC is a leader in promoting health care quality through accreditation, education, and measurement. With close to 30 accreditation and certification programs that currently cover over 650 health care organizations, URAC is among the fastest growing health care accreditation organizations in the world.

URAC selected AINS' [eCase®](#) Adaptive Case Management Platform to help modernize and transform the accreditation processes through its AccreditNet web portal. The case-centric system built by AINS, Inc. supports recognition and classification of customer-provided content. Applicants now submit information through an interactive portal which is then processed in eCase. The new system improves accuracy, speeds processing, and delivers a positive experience for applicants for URAC's accreditation programs.

"We are excited URAC received this much-deserved recognition" said Moe Goswami, president and CEO of AINS, Inc. "The innovation to their AccreditNet portal has not only improved overall productivity, but it also shows their commitment to advancing the customer experience. The platform enables URAC to stay ahead of change and position itself for the future."

The Global Awards for Excellence in Case Management recognize user organizations worldwide that have excelled in implementing innovative solutions. URAC was among the award winners honored for this achievement during the BPM Case Management Global Summit gala dinner at The Ritz Carlton in Pentagon City, Virginia on June 28, 2016. The award is sponsored by WfMC and supported by BPM.com and Future Strategies Inc.

About eCase

eCase is a low code, adaptive case management platform that enables agile, information-driven decision making across diverse lines of business within government and commercial markets. Configuration of core case management features — including UI design, forms, workflow, rules, and reports — allows eCase to automate highly structured and unstructured processes without the high cost and time constraints of custom code development. By unifying manual processes and business process management (BPM) applications on the eCase Platform, organizations can streamline IT architecture, lower operation and maintenance cost, and reduce change risk. In addition to custom configurations, out-of-the-box eCase Solutions for Human Resources, Audit, Inspections and Investigations, Incident Management, and Open Government further accelerate time to value, while allowing organizations to easily modify their solutions as their processes change. eCase can be hosted on premise or in AINS' FedRAMPSM cloud-certified data center.

For more information about eCase and to learn how AINS has helped our clients improve information-driven decision making, visit www.ains.com/eCase.

About AINS, Inc.

AINS[®] is a leading global provider of cloud-based, adaptive case management platforms and solutions. Since 1988, AINS has empowered more than 400 organizations around the world to rethink how they work by providing innovative, agile software solutions and services to government and commercial markets. Built from the ground up for case management, eCase[®] Platform and Solutions enable our customers to bring new products to market quickly, digitize customer engagement, and automate unique business processes across diverse lines of business without the constraints of custom coding. Out-of-the-box eCase Solutions for Human Resources, Audit, Inspections and Investigations, Correspondence and Open Government, via FOIAXpress[®] — further accelerate time to value, while providing organizations greater flexibility to adapt as their processes change. Together, these powerful solutions help our customers enhance productivity, reduce costs and achieve better outcomes. For more information, visit www.ains.com.

About URAC

For 25 years, URAC has been the independent leader in promoting health care quality through accreditation, education, and measurement. URAC offers a wide range of quality benchmarking programs that reflect the latest changes in health care and provide a symbol of excellence for organizations to showcase their validated commitment to quality and accountability. URAC's evidence-based measures and standards are developed through inclusive engagement with a broad range of stakeholders committed to improving the quality of health care.
