

Teachers! Sign up to borrow the Bat Trunk !

The BAT TRUNK is fabulous tool!

- There is an urgent need to educate the public about the ecological and economic importance of bats, as well as the threat that White-Nose Syndrome (WNS) poses.
- Environmental education is a critical piece of building support for ongoing WNS research and management, and to build a strong network of citizens that are interested in becoming a part of the solution.
- Our educational trunks are designed to help educators explore the wonders of bats with students of all ages through fun, hands-on activities and lesson plans that meet National Education Standards. Free of charge (except shipping when necessary).
