

From National Pastoral Musicians

An updated list of music and publishers for music for the implementation of the New Roman Missal

Self published works by individuals will not be published – we need to have some parameters on how many settings to list. The descriptions utilize designations from the publishers themselves. What one publisher calls a woodwind, another may call a C Instrument. Likewise, some instrumental parts are identified as optional, others are not. All settings assume congregation and cantor, thus they are not listed in the performing forces. Some settings indicate priest-celebrant, indicating musical settings of preface dialogue, mysterium fidei, doxology, etc.

As we launch this project, we would also benefit from knowing what information you would like to see included. (Sections set in Latin, Greek, other languages, are there choir only sections, is the work recorded, etc...)

Publishers represented to date:

- **CanticaNOVA**
- **GIA Publications, Inc.**
- **Good for the Soul**
- **Liturgical Press**
- **MorningStar Music Publishers**
- **Oregon Catholic Press**
- **World Library Publications**
