

EOS. Real. Simple. Results.

EOS, the Entrepreneurial Operating System, is a set of timeless business principles and real-world tools that help you get what you want from your business. This simple “way of operating,” helps leadership teams of growth-oriented companies systematically and permanently improve. Companies achieve more revenue growth and more profit, and also enjoy a better life balance.

At All In One Accounting we make EOS implementation simple. Drawing on our own experiences using the system, we help clients effectively utilize the tools. Clients rely on us to:

- Conduct 90-minute introductory sessions to the EOS process.
- Facilitate leadership team meetings, known as L10's.
- Assume the financial seat on their leadership team when necessary.
- Lead vision-building sessions, focus days, quarterly and annual team meetings.
- Educate on tools usage and answer questions.
- Serve as full service implementer or assist with self-implementation as a more cost effective alternative.

Client results vary, but what can be accomplished by working with All In One Accounting is amazing. For example, one of our client's saw these results and more after just one calendar year:

- Increased line of credit capacity by 200%.
- Established and implemented 401(k)-retirement plan with company match, with 100% employee participation.
- Completed vendor audit, resulting in 10% annual cost savings.
- Designed and implemented accounts receivable collection process, resulting in zero past due accounts by year-end.
- Conducted risk assessment that resulted in new insurance policies that saved the company money while improving coverage.
- Changed payroll service provider, resulting in cost savings and the ability to track vacation time for employees along with automation and a process for requesting time off.
- Authored procedure manual for all accounting functions (AR, AP, payroll, expense reporting, forecasting).
- Established expense reporting process, providing drop-downs for coding, automation, and timelier processing.
- Revised chart of accounts to provide a more streamlined reporting process, while developing class codes for detailed analysis of specific department travel expenses/functions.

Contact us today for a complimentary assessment to determine if EOS is right for your company.
