

LRNSC AGM 2026 Equipment Report

Display Stand for Ski Show

I have made a display stand as requested. This is now in the Club store on the high level shelf. It contains instructions for assembly, but I will demonstrate how to put it together and take it apart on **27th September** for the ski show attendees. *Done*

Store Maintenance 27th September

On the same date I will be emptying the store in order to organise it better. I will remove any redundant stuff and update the equipment spreadsheet. Boots and poles will be given a scrub. Assistance welcome with these tasks!

Some ski poles will be surplus to requirements. If there are no takers for these, they will be disposed of shortly.

Update 28 Sept – many thanks to Glennis, Pauline and Megan who helped with this task. The kit and trolley are now much tidier and cleaner. Long may it stay so! The job isn't quite complete – still need to update the spreadsheet and remove redundant stuff.

.
