Since last year's AGM the club has continued to provide a range of activities. As well as the various coaching courses offered, the club organised a 24/12/6 km British Championship Rollerski Race. The British Rollers Ski Series has not taken place this year so the club has been organising a number of "Challenge" events which constitute the Southern Roll series. We have had a kayaking trip in Greece and ski trips to
Beitostolen, Ramsau, Seefeld, Pontresina, Queyras, Lillehamer and Saariselka. Tuition continues in Cambridge as well as new rollerski tuition sessions in Betteshanger Park in Kent. In connection with the latter an activity weekend was organised around Deal which included a walk and a club meal. As has been the case for a few years several members spent a weekend at the National Ski Show promoting the club activities.
The club has continued to maintain its equipment store, updating and repairing as required. As a result of changes in the way Snow Sport England provides insurance for ski clubs some committee members have spent a lot of time working out the consequences for club members and clarifying the options for them going forward. A clear guide is now available to members advising them of what level of insurance is required according to their level of activity.
The club newsletter continues to report the varied activities of club members skiing around the world and the web pages are regularly updated with news of upcoming events.
