Education

Master's equivalency granted by VCU at time of hire

12/92 Bachelor of Arts, Cinema
Emphasis on animation, documentary and experimental filmmaking

8/88 - 12/92 **San Francisco State University**, San Francisco, CA

Special Training

8/92 - 12/92 **Industrial Light & Magic**, San Francisco, CA
Student Intern, Art Department

TEACHING

Teaching Overview

5/13 - Present **Virginia Commonwealth University**, Richmond, VA
Associate Professor, Communication Arts

8/14 - 1/15 **Applied Arts Academy**, Online Education
Bethany College
Online Instructor, Entertainment & Games Portfolio Development

8/07 - 5/13 **Virginia Commonwealth University**, Richmond, VA
Assistant Professor (Tenure Track), Communication Arts

2/13 - 8/14 **The Art Department**, Online Education
<http://theartdepartment.org/>
Instructor of an online course in the development of intellectual property.

2009 - 2011 **Ronald A. Williams, Ltd.**, Richmond, VA
<http://www.rawledu.com/> Mary Daniels, Marketing Administrator
Maya training, VA area high school teachers

8/06 - 8/07 **Virginia Commonwealth University**, Richmond, VA
Assistant Professor (Collateral Faculty), Communication Arts

At VCU I have taught a number of required courses from the Communication Arts core curriculum including Senior Portfolio, Senior Project, Web Page Design, Basic Communication Arts Software & Photographic Principles. I have also designed the courses and syllabi for Introduction to Visual Effects, 2D Image & Movement, 3D Image & Movement, Game Design, Theory & Practice, Cut Scene (a filmmaking course), 360 degree video, Advanced Projects in 3D and Organic Modeling for Concept Design.

I have also taught weekend intensive courses in Autodesk Maya for Ronald A. Williams, Ltd. of Richmond, VA to high school teachers serving various communities within the state.

Courses Taught Overview

Courses taught: Advanced Projects for 3D, Organic Modeling for Concept Design, Basic Communication Arts Software, 3D Image & Movement, 2D Image & Movement, Web Design, Game Design: Theory & Practice, Photographic Principles, Introduction to 3D Computer Graphics, 360 Degree Video, Cut Scene (filmmaking), Senior Project, Senior Portfolio, Introduction to Visual Effects, 3D Printing for Fashion Design.

RESEARCH

Continuing Scholarship and Professional Practice

Cinema & Computer Expertise

Twenty years of experience with 35mm, VistaVision, 65mm, 70mm, 16mm, Super 16mm and IMAX film production, HD and 4K video production and all related post-production pipeline processes.

Expertise with Linux, Windows and Mac OSX compatible computers and software, including Nuke, Maya, Modo, Mudbox, ZBrush, RenderMan, MentalRay, Python, Java, C++, MEL, Unity 3D, Oculus Rift, the Vicon Motion Capture system, Blade, Boujou, AVID, Final Cut Pro, Motion, AfterEffects and Photoshop.

I have helped develop and implement various production and post-production pipelines for both Hollywood and independent films. I have worked professionally in visual effects and animation since 1992 and am a full and active member of the VES (Visual Effects Society), ACM (Association for Computing Machinery) & SIGGRAPH (Special Interest Group on Computer Graphics and Interactive Techniques).

At VCUarts, I worked closely with the VCUarts technology group and the Dean's office to get the bid and acquire the Vicon Motion Capture system in the Depot Building. I incorporated the Vicon Motion Capture module into both 3D Image and Movement as well as Game Design. I assisted in the development of an online version of Basic Comm Arts Software. I have incorporated the Oculus Rift Dev Kit 2 into Game Design as an exploratory control system. I developed and co-taught 3D Printing for Fashion Design with Donna Reamy as an ARTS course. In 2015, I incorporated the Structure Sensor and 123D Catch into the 3D Image and Movement and 3D printing classes for real-time 3D scanning and acquisition.

Professional Work

9/08 - Present

Bitbot, LLC, Richmond, VA

Founder of digital image processing, visual effects and motion picture company. Clients include, Activision, CFA Institute, Keith Edmier, V. Scott Balcerek, Virginia Film Festival and Brainstorm Digital.

8/10 - 9/10

Studio G, Los Angeles, CA

Worked freelance remotely from Bitbot as Senior Technical Director and Composer on cinematic sequences for Activision's "Call of Duty: Black Ops". Responsible for all lighting, rendering and compositing inserting a 3D generated game character into historical footage of President John F. Kennedy at Love Field, TX.

5/08 - 8/08

MPC (Moving Picture Company), Vancouver, BC

Worked full-time in Vancouver, BC on project contract as Senior Digital Composer on "The Watchmen" at MPC facilities in Vancouver, BC.

8/07 - 11/07

Sony Pictures Imageworks, Culver City, CA

Worked as Senior Technical Director on "I Am Legend" and as Stereoscopic 3D Technical Director on "Beowulf". Left VCU for a semester to work in Culver City, CA at Sony Pictures Imageworks on both "I Am Legend" and "Beowulf 3D". Work involved supervising other technical directors and matching shots over sequences.

9/05 - 12/05

Weta Digital Ltd., Wellington, New Zealand

Worked as Digital Artist/Composer for "King Kong". Moved to Wellington, New Zealand to work full-time as a Digital Composer on Peter Jackson's 2005 remake of "King Kong".

6/01 - 7/07

Mantron Corporation, New York, New York

Founded Mantron Corporation with two partners to produce visual effects, design and computer graphics for multiple clients. Mantron clients included TNT, Matthew Barney, Bjork, Keith Edmier, Texas Instruments, Madonna, Steven Klein. At its peak, Mantron employed 16 full-time employees. The partners amicably dissolved Mantron Corporation to pursue other interests in 2007.

1/97 - 7/07

Glacier Field, LLC., New York, New York

Worked with artist Matthew Barney as Visual Effects Supervisor on his films, "Cremaster 5", "Cremaster 2", "Cremaster 3", "De Lama Lamina" & "Drawing Restraint 9". As Visual Effects Supervisor I was responsible for all on set and facility design, execution and delivery of all visual effects. On set supervision took place in Budapest, New York, Los Angeles, Utah, Northern Ireland, Scotland & Japan.

3/04 - 8/04

ESC Entertainment, Alameda, CA

Worked for ESC Entertainment as a digital artist on "Constantine" doing lighting, fx and compositing. Worked on site at ESC Entertainment in Alameda, CA full-time.

4/03 - 3/04

Tippett Studio, Berkeley, CA

Worked full-time for Tippett Studio as a digital artist on "Matrix: Revolutions" and "Hellboy". Responsible for lighting and compositing.

7/02 - 4/03

ESC Entertainment, Alameda, CA

Worked full-time on-site for ESC Entertainment as a digital artist on the Wachowski's film "Matrix: Reloaded".

5/93 - 9/99

Industrial Light and Magic, San Francisco, CA

Worked full-time for ILM doing 2D compositing, animation, plate restoration, painting, rig-removal, color-timing, and creating articulated mattes. Composited feature film effects shots utilizing UNIX, Shell Scripting and proprietary software.
